

TRAINS TO BE STARTED.

The M. P. Will Have Trains Running Next Week.

PLATTSMOUTH ON THE MAIN LINE.

The Time Card is Arranged so That Trains Will Stop in This City Twenty Minutes for Dinner--Other News of Importance.

The M. P. to the Front.

THE HERALD has been reliably informed that the Missouri Pacific will commence running through trains from Omaha to St. Louis next week and that all passenger trains will stop in Plattsmouth twenty minutes for dinner, and if proper arrangements can be made with one or more parties to run a first-class eating house the road will build a hotel near the depot to accommodate the traveling public.

Beginning with the first of the month all through freight trains will be run over this route. With the running of all these trains through Plattsmouth and with a proper eating house, the business of our city will increase and this city will have such a boom as it never had before, for the town shows off to excellent advantage from the Missouri Pacific depot and anyone passing through our fair city, although stopping only twenty minutes for dinner, cannot help but admire it, and even if they themselves do not return and stop off some time, they will speak of the beautiful town among the hills, which will cause others to stop and look at our advantages and invest their capital among us. The spring has been wet and cold and consequently very backward, but every nice day we have had we have seen men out all over the city fixing up the fences and repairing the houses, so that with all the backwardness of spring it makes no difference in what direction you may go you will see houses freshly painted and improvements of all kinds going on, which all goes to show that this town is going forward and that its citizens are prosperous. There are very few vacant residences in the town, and there is not one first-class house empty. In fact, as soon as a good house is known to be vacant there are half a dozen applicants for it, and the indications point strongly to the fact that the B. & M. will build that long-looked-for depot this summer. So with all these improvements and the complete opening of the Missouri Pacific road this town is bound to take a rapid stride to the front this summer.

Gold in or Near Plattsmouth.

THE HERALD published a few days ago an article in relation to a number of miners prospecting for coal in Livingston Heights, and while they were looking over the ground they discovered gold, and that there were several miners from the west expected here every day. THE HERALD also branded the report as a fake and has never thought of the matter since until last night when the following communication was received:

PLATTSMOUTH, NEB., April 28. EDITOR HERALD: I see an article in THE HERALD about finding gold in Livingston Heights, which claimed it to be a fake. I say this: That I have had some experience in gulch mining; that in the summer of 1862 I was engaged in gulch mining in Russell's gulch, near Central City, Colorado, and I make this statement that I can find gold in the Platte river sand from its mouth to where it leaves the mountains. And as we are in the gold belt, I have been in possession of the knowledge for three years past that there is gold in my stone quarry, as I have examined it myself and have had it tested, the question is whether it can be found in paying quantities or not. But there is certainly float gold at certain depths all over this country, and I believe there is plenty of coal if we go deep enough. I think we have a surface strata at my spring in the bluffs of the Missouri river. JAMES W. THOMAS.

In Society's Whirl.

A pleasant evening was spent at the residence of Mr. and Mrs. H. N. Dovey last night. The party was given in honor of Miss Heath and Miss Atkins. The evening was spent in dancing and playing high five, after which refreshments were served. Those present were: Mr. and Mrs. W. K. Fox, Mrs. G. E. Dovey, Mrs. Frank Palmer, Misses Janet Livingston, Mia and Eda Gering, Verna Leonard, Anna Coleman, Edna Adams, — Helps, and Messrs. Robert Knapp, Charles Murphy, Will Clements and Arch Coleman.

AN ENTERPRISING HOUSE.

The Hardware Emporium of C. Brekenfeld--The Anti-Rust Tinware.

To-day while we were making the rounds for news we stepped into the hardware store of Claus Brekenfeld and took a look at his large stock of stoves and tinware. He has a stove or range that especially took our eye. It is called the Lily. This steel range has a reputation that is already well established in this city as Fred Stadelmann has used one for a number of years. Also Ed Oliver, Roe Craig and George and Oliver Dovey each have one of these fine steel ranges, which are sold with or without reservoir and they have a water front connection so that you can run hot water to any part of the building. He also carries a large assortment of the celebrated Charter Oak cook stoves and ranges, which have the patent wire gauge oven door, and the Gem City cook stoves.

Mr. Brekenfeld buys his stoves by the car load and therefore he is able to sell them cheaper than any one else. He also carries a very large assortment of the New Process Quick Meal gasoline stoves, and any one wishing a stove of any kind should call and see these stoves before buying. Mr. Brekenfeld sells the anti-rust tinware which is guaranteed not to rust the least bit in a year and if a piece should rust you can return it and get your money back. This ware is made up in tin cups, dippers, dinner buckets, water buckets, tea and coffee pots and in fact everything from a half pint cup to a wash boiler; he also has tea and coffee pots and a number of other articles made from what is called Granite ware.

In the way of garden tools you can find anything you want from a child's hoe to a scoop-shovel and for the lawn he has the Electric City and the Pennsylvania mower, which is the oldest and most reliable lawn mower made.

In builders' hardware he has a very large and complete stock, which contains from a padlock no larger than a nickel up to the finest bronze door locks. For cutlery he has everything from a lady's pen knife to the largest of butcher knives, razors and shears of any size, and he especially calls attention to his Clause shears, which he will fully guarantee.

You can buy any of these goods on the installment plan as cheap as for cash, and when you are down town you should call in and look this store over, even if you do not wish to buy, it will be time well spent.

The Dangler Surprise will burn the poorest grade of gasoline as well as the best. No other stove will do it. Hendece sells them.

Obscene Pictures Don't Go. The citizens of Wahoo will tolerate female minstrels, but loud lithographs that can be heard several blocks away will have to go.

A despatch to the World-Herald this morning, dated Wahoo, says: "Wahoo was the scene of a great sensation to-day. The Mabel Snow 'Adam and Eve' company was advertised in their usual attractive and sensational style, to show at the opera house to-night. A lady representing the Women's Christian Temperance union lectured here last evening and commented on the obscenity of the advertising matter distributed throughout the city, and stated among other things that if she could get one of the organizations here to go with her that she would tear down all of the objectionable paper. Several ladies belonging to the association assented, and this morning the ladies to the number of five, led by their dauntless champion, made the rounds of the bill boards, and with their rude and improvised weapons for the occasion utterly devastated all vestiges of the histrionic figures. They entered the various business houses and removed all paper of the company. The members of the company stood by and saw their works of art destroyed by the indignant ladies, and their only consolation for the injury done to their feelings is the increased advertising given them by the Women's Christian Temperance union."

Ask your dealer to show you where the gasoline goes to from the tank to the burner and then go and see the Dangler Surprise. For sale by Hendece.

Burglars at Elmwood. Burglars got in their work at Elmwood Wednesday evening. The billiard hall owned by the McGuire Brothers was entered during last night and considerable goods taken. Considerable damage was done to the house. The burglars effected an entrance by smashing the window in the rear of the building. They took about twenty-five pounds of tobacco, several hundred cigars and quite a lot of temperance drinks, some of which was found scattered along the road west of town for several miles.

THE HOME TEAM WINS.

The Freaks Drop the Second Game to Plattsmouth.

OUR TEAM WAS STRICTLY IN IT.

The Pennant Winners are Located in This City--A Pretty Game at the Base Ball Park Yesterday--Other Games.

Plattsmouth 9, Fremont 7.

About 100 people braved the cold, raw wind yesterday afternoon and saw one of the prettiest games of ball that anybody has seen for a long time. The night before our ancient friend, Norman Baker, called his collection of freaks together, and, getting him a big, heavy log chain, he chained them together and made them sleep in the hall of the Riley. This getting of their rest, in their usual way, had the effect of bracing the team up, and yesterday they put up pretty fair ball.

Old Sol was not so warm and pleasant as the day before. He sported a large, full-grown beard with ice on it a foot long. He tried to smile a little when the relic of bygone days trotted out on the diamond and tossed up a nice, new ball, but it was a failure.

Plattsmouth began to hit Norman right away. It rolled up two runs in the first on a hit and two errors, while Fremont goose-egged.

In the second two blanks came out and everybody looks pleased, if it was cold.

In her half of the third Plattsmouth blanked and then the spectators' hair began to rise. The freaks began to hit Perrine just about the collar bone and the boys tried to collect all their errors at once. Johnson, especially, was rank in this inning. This time Fremont made four runs, and the man with the whiskers went over and hung them on the radiator.

Nobody got around in the fourth, but in the fifth Plattsmouth disposed of a job lot of base hits, and Fremont having added a couple of errors to her string, got three runs and the lead, whereupon the man with the whiskers remarked: "It is a pleasant day," and returned to the game.

In the seventh Plattsmouth got four and Fremont two runs, and in the ninth Fremont scored again. Our friend Norman aired his face at all stages of the game, but Plattsmouth still got the base hits. Fremont gave Wilding a chance to pitch the last two innings and he did fair work.

Kennedy, at third, repeated his brilliant exhibition of the day before and batted 'em out.

Myers pitched ball "out of sight" for the locals, striking the side out in the fifth inning. Both teams were in far better form than the day before.

The summary:

Plattsmouth	200030100-9 10 7
Fremont	004000201-7 6 11

Two-base hits--J. Patterson, Kennedy, Johnson, Butler.
Three-base hit--Long.
Struck out--By Baker 1, Perrine 2, Myers 8, Wilding 1.
Base on balls--Off Baker 2, Perrine 2, Myers 3, Wilding 3.
Hit by pitcher--By Perrine 1.
Umpires--Yapp and Jones.

Notes.

THE HERALD wants to inform the public that the league season opens on Sunday, May 1, instead of Monday as the "official paper" has it. Why don't the "official" paper print reliable news?

If the "official" paper desires to drive the best players in the team out of town there is no better way to do it than to refer to them by such pet names as "Scrapper." We have no doubt but Kennedy was greatly pleased to read it "Scrapper" Kennedy.

THE HERALD's base ball columns this season will be up to the times and in them will be found the base ball reports. They have no favorites and all players will receive full and exact credit for their work.

This morning a young man stepped into Bert McElwain's jewelry store on Main street and got his watch which he had left there to be repaired. After paying for it he had fifty cents left and Bert, in a joking way, asked him if he would give him fifty cents for a watch he held in his hand. The fellow took the watch and looked at it, threw down the fifty cents and walked out. As the watch belongs to one of his customers and is worth about \$15, Bert has been wondering all day how he could get it back. The last heard of the watch it had been disposed of to a third party for \$1 and he was asking fifty cents for his bargain, but intimated that if Bert would set up the cigars he could have his watch back for the fifty cents he had received.

Grand Opening. Phillip Theirolf, proprietor of the Casino will have a grand opening to-morrow. It will be the first appearance of the American Pilsner beer. A cordial invitation is extended to his friends to call in and see him. Professor Beck's orchestra will furnish the music in the evening.

Threatened by a Mob.

This morning's Bee contains the following in relation to Elder Hampton. Whether it is the Elder Hampton that formerly belonged here will be left with the reader to judge. The despatch was dated at Valparaiso, Nebraska:

Tuesday morning P. E. Poe, a photographer, left town suddenly on account as is alleged of his attentions to the wife of a railroad man living here. Poe is a married man and has been here about nine months, his wife, who is an invalid, remaining with her parents at Raymond.

As a sequel to Poe's escapade with the railroadman's wife, Elder Hampton was charged with immoral conduct. Rumors spread and a mob gathered last night about 11 o'clock, going to the house where Hampton was staying, called him out and with cries of "a rope," "hang him," the elder was made to promise that he would leave town on the first morning train. The mob then dispersed. Public opinion is divided on the question of the innocence or guilt of the minister, some advising him to stay and prove his innocence. The elder made many friends and some enemies here by his bold and fearless manner of speaking in the pulpit during about six weeks of protracted meetings which he held the past winter. He is but 28 years old and impresses all who hear him with the depth of his knowledge of the Scriptures and manner of explaining it.

Thumb Mashed. Last evening J. W. Perkins, a switchman in the B. & M. yards, while making a coupling had the thumb on his left hand mashed. It was a narrow escape from losing his whole hand. Dr. Cummins dressed the wounded hand.

The honors thrust on Councilman Gorder show that his work in the council is appreciated. 'Tis true he has been kept on water now for three years, or will be at the expiration of the present term, but when it is noted that the water and finance committees require the most work and good management, it is a compliment if to serve as chairman. This will make his second term as president of the council. The attendance of the members has been generally good although some have been neglectful and as a whole the retired board can well feel proud of the manner in which they managed city affairs. --Weeping Water Republican.

The street commissioner is making some needed repairs on Washington Avenue. It is now the intention to raise the avenue eighteen inches higher than it formerly was, the whole length. The dirt is taken from the hill south and the city proposes to open Eighth street.

The Weeping Water Eagle says: From what we deem to be a reliable source, the information comes that a new democratic paper will make its appearance in this city soon. It may be the long felt want that is coming, or it may be an expensive piece of luxury for some one that wants an organ to indulge in. Time will reveal which one it is.

The John Dillon company will arrive in the city from Grand Island at 5:17 this afternoon.

Hot Springs, Ark. Carlsbad of America. On April 6th, 7th and 8th the M.
