

A picture of health—the woman who has faithfully used Dr. Pierce's Favorite Prescription. She feels well and she looks so. It's a medicine that makes her well, whether she's overworked and "run-down," or afflicted with any of the distressing diseases and disorders peculiar to her sex. It builds up—and it cures. For all chronic weaknesses, functional derangements, and "female complaints" of every kind, it's an un-failing remedy.

And it's the *only* one, among medicines for women, that's *guaranteed*. If it doesn't give satisfaction, in any case, you have your money back.

Can anything else be "just as good?"

"They're about as bad as the disease!" Not all of them, though. Dr. Pierce's Pleasant Pellets are pleasant—both when they're taken and when they act. They cure permanently Sick and Nervous Headaches, Biliousness, Costiveness, and all derangements of the Liver, Stomach and Bowels.

PRESIDENT HARRISON has signed the pension bill. Which is good news to the pensioners of the country whose July payments were in suspense, owing to the slowness of the democratic congress in passing the bill. It was like pulling teeth to get a body in which the democrats have a majority of 150 to make the usual annual appropriation for the pensions earned in defense of the Union, but General Harrison did not hesitate a moment in affixing his sign manual to the bill. He has none of Mr. Cleveland's disposition to make the vetoing of pensions his official recreation.

The river and harbor appropriation bill was also signed Wednesday and is now available. As the appropriation of last year in that line had not been exhausted, and by joint resolution had been extended to July 15, there was no embarrassment whatever in the delay in the passage of that bill. The pension fund was not exhausted by the close of the fiscal year (June 30), but it was exhausted several days ago, and that in the midst of the July payments. It is a low estimate to say that 100,000 pensioners were put to unnecessary embarrassment by the delay in the passage of the appropriation out of which they are to receive their quarterly payments for the current fiscal year.

EX-GOVERNOR WARMOTH, of Louisiana, says that manufacturing in-

terests in the south have grown 25 per cent under the present republican administration, and the young men of the south appreciate the fact that the south is more dependent on protection than any other section of the country. They are not to be frightened into the democratic ranks by the old cry of negro domination when they know that free trade would ruin their business. Governor Warmoth was some years ago called a carpet-bagger, but today he is one of the most successful business men in the south, and he talks business as the best politics. Thousands of young and ambitious southerners are beginning to understand business principles, and it will not be surprising to see many of them demonstrate it by voting as their business dictates.

The postoffice department has recently issued an order creating a very large number of money order offices in the smaller towns. This will be highly appreciated, as most of these will be in villages where there are no banks, and will be of great convenience to people desiring to make remittances. The republican party has perfected the greatest postal system in the world and can be relied upon to afford the people every possible convenience based upon sound business principles.—Beatrice Times.

The wild cat currency plank of the people's party is bothering the democratic statesmen of Kansas, in considering the scheme of fusion. But then a possible opportunity to realize the object of their existence—namely, to beat the republican party over shadows all else.—Beatrice Times.

The democratic press should touch up Pinkerton lightly, as Pinkerton has always been a red-hot democrat, and three-fourths of his men are also bourbon of the straightest stock.

BOTH Kansas and Iowa have good crops as well as Nebraska, which is a sure sign that the democrats will not be "in it" next November.

Cholera infantum has lost its terrors since the introduction of Chamberlain's colic, cholera and diarrhea remedy. When that remedy is used and the treatment as directed with each bottle is followed, a cure is certain. Mr. A. W. NEVER STRIKES INDIANS.
In the course of his New Haven (Conn.) lecture Rev. Thomas Dana, an educated Indian, made this singular statement: "The Indians never cook anything in the house. They always cook outside, giving as their only reason that if they cook inside the steam will collect in their clothing and draw the lightning. Whether this is true or not I do not know, but I know this—no Indian wigwam has been struck by lightning since the dawn of history, and no Indian has been killed with lightning for more than 100 years."
