The list of names furnished and read by the secretary were read and adopted as delegates.

Travel Delayed.

Water Rebuilt.

H. A. Waterman & Son have a large force of men at work today clearing away the debris from what was formerly known as the Waterman opera house.

Will it be Done?

The city of Plattsmouth needs two new buildings and need them badly. The first is a new opera house and the second is a city hall.

The plan on foot now, is to build an opera house—a ground floor opera house—and a city hall combined. The ground floor will be used as an opera house and the up stairs for a city hall.

The city is at present paying rent on two buildings—one for the council chamber and one for the police judge—and the rent they are now paying out would soon pay for their share of the building.

If the city will only take hold of this matter and there are parties ready and willing to build the opera house. The members of the council should look this matter up and see what can be done.
