The Twelfth Annual Session of the National Farmers' Congress The Largest and Most Important Gathering

Farmers' Congress. he twenty fifth annual session of National Farmers' congress will tomorrow morning Lincoln. Lincoln is to be congratulated upon securing this, one of the largest and most interesting gatherings of representatives and practical agriculturists ever assembled in the United States. The National farmers' congress is de up of one delegate and one al-rate from each congressional istrict in the United States, two delegates and two alternates from each state at large, the heads of all state agricultural societies and agricultural colleges; and this year one member from each local agricultural society in the United States, so that the representation and attendance should be the largest ever held in the history of the organization. The effect of this congress is to advance and build up all the agricultural interests of the nation, giving it the recognition that its importance demands. It is non-political, and this accounts, in a measure for its success before our national congress in securing the passage of such important measures as the interstate commerce taw, the enlargement of the signal service, the making of the secretary of the agricultural, a Charles Vandeventer's Close cabinet office, aside from the prominence given to various questions elating to monopolis, trusts, combinations unjust discriminations

Call From Death.

Vandeventer Still Alive.

Sometime after dark Saturday night Chas Vandeventer was the victim of a peculiar stabbing affray. The peculiar part of it is he will not tell who the would-be assassin was or where it was done at.

Wm. Dunston met Vandeventer near Herrmann Spies' residence and he told Dunston to hurry down Response, Hon. A. W. Smith of town and send Dr. Schildknacht to Kansas, president of the National his home saying that "I have been stabbed.

Dr Schildknecht went as quick as possible and upon examination found that he had been stabbed just below the left nipple, and that the weapon that done the work was a snarp one, as the wound showed that it was a "clean cut" and also if the weapon had not struck a bone would have pierced his heart.

Vandeventer refused to say who it was that had assaulted him, but did say this much, however, that the Introduction of memorials and man who did it jumped down off a hayrack, and also said that "if I had "Independence of Agriculture and nating revolver with me it would Transportation," Hon. W. Pope Yea- | have been settled." What he meant by that the readers can judge for themselves.

Vandeventer had been drinking and it is said that he is quarrelsome when under the influence of liquor, but why he refused to tell who did it is a mystery that can only be solved by him.

The wound bled so that it satnrated his clothing from head to ! f ot, and after he reached home he fainted from loss of blood. It is reported that Vandeventer says it is his turn next, and if this report is arue and he means it further devel opments may be expected.

Dr Schildknecht says he will be able to be around in a few days.

For the Full Amount.

The first case under the valued poricy law passed by the last legis lature has been on trial in Nebras ka City for several days. Last Feb. ruary the store building of Henry Bachler was burned. He was in sured in the insurance company of North America for \$1,500. The company refused payment on the ground that the building was not entirely destroyed and could be repaired at a nominal cost. A verdict was brought in Monday awarding the plaintiff the full amount with iut rest from date of fire.

Will Pave Yet.

The curbing on Sixth street will all be put in place in a few days and there is still some hope, of the e eet being paved this winter. If this paving is done it will not be with Atchison brick.

The council and board of public works have been criticised a good deal of late on account of the paying not being put in before Councilman Murphy wrote to Atchison regarding the brick and they write back that they have orders in for 63,000 more brick than they can furnish and that the orders were in before the order from Plattsmouth, If arrangements can be made, the paving will probably be done with St. be brick, the same as Omaha is having to do.
