HE HAS MOVED.

Gradually Acquiring Information Concerning Methods of Collecting a Bill.

"When we moved into the country," said Mr. Chaugofair, "I almost wondered at the absolute confidence of the boss of the moving party. It was a long haul, two or three vans, and the bill a matter of \$40 or \$50, but they moved everything out of the vans into the house clean before the boss driver presented the bill. I wondered what it was all about, and I thought I should say then that he would call at the office and settle or something of that sort. But, then, I knew I was going to pay; that it had been perfectly safe to get the stuff in and collect the bill afterward of me, and I made up my mind that they were keen men, who knew people when they met them, whom they could trust and whom not."

"Well, after some years we moved back. Same concern moved us in, but they didn't know us at the office any more than if they had never heard of us. Arrived in the city, the men with the vans—it was a different crew from that that took us out—began loading in the things just as the men that moved us out had done in the country. Nobody said anything about pay, and I wondered again what would happen if they got the stuff all in and then the owner didn't pay. But they kept on hustling the things in just as if they felt perfectly easy and secure about that."

"After awhile the stuff was pretty much all in—practically all but the piano—and I wondered why they hadn't brought that in before, because I had seen it loaded, and I knew it was one of the last things loaded on at the very rear end of one of the vans. So I went out to see, and there was the piano, right where I had seen it when it was put aboard, at the extreme rear end of the van, while all the stuff in front had been taken out, carried around the end of the piano and on into the house. In front of it the van was empty."

"Passing through the hall, I met the head driver, the boss of the party, and he, just casually meeting me in that way in the hall, handed over the bill for the moving, and I paid it on the spot. Then, everything else having been moved in, the whole gang tallied on to the piano and walked it right into the house."

"Of course it may have only just happened that the piano wasn't moved in until I had paid the bill, but this didn't give me quite such a flattering opinion of myself as the other way had, but it more than confirmed my original opinion of the shrewdness and ability of the van folks. They made few mistakes and took even fewer risks."—New York Sun.

The Neighborliness of Neighbors. Talking about neighbors—people generally do, you know—quite a good story turned out the other day. Whether or not it is true must be left to the reader, but certainly it is not untruthful.

toast bread

and keep it dry. There'll be no danger of its molding. But moisten the bread with water, and see the result, in a short time it is covered with mold. It is just so with consumption. Its germs will not grow in the lungs unless everything is suitable to them.

Weakness, poor blood, loss of appetite, coughs and colds often prepare the ground for the development of the germs of consumption. To destroy germ-life the system must be kept in a well-nourished condition. Do not lose flesh. Take Scott's Emulsion, with hypophosphites, as a preventive. It furnishes the reinforcements necessary for the body to conquer in the easiest possible form. The oil is in a state quickly taken up and rapidly transformed into the organs and tissues.

When you ask for Scott's Emulsion and your druggist gives you a salmon-colored package with the picture of a man and fish on it—you can trust that man with your prescriptions!
