

Talk About Diamonds

Their brilliant glitter scarce outrivals the polish you can put on a Murzluff shoe. Good leather, well-tanned leather, -that's the reason. It does more than shine -it wears, it fits, it "feels good" whether you walk across the street or across the continent. It's a shiner, a stayer, a soother. Costs money? Of course-not as much as you'd think, though. Put one on and give its tongue a chance to talk. You'll do the talking after you've worn a pair and we'll sell a lot more.
