

THEFT OF A GOLD WATCH.

HOME OF PAT EGAN IS VISITED BY A YOUTHFUL BURGLAR.

Frightened Away Before Completing His Work—Pleasant Birthday Party in Honor of Etta Twiss.

This morning about 9 o'clock a burglar entered the home of Pat Egan, on Marbo street, between Fourth and Fifth, and carried off a gold watch. The burglar was seen to enter the Egan residence by Mrs. McCallan, a near neighbor, but no particular attention was paid to the occurrence at the time.

The burglar must have been frightened away before he finished his work, as there were \$65 and a lady's gold watch in a drawer near the one from which the other watch was taken.

As yet the officers have no clue as to the whereabouts of the intruder, but the lady who saw him enter the Egan residence has furnished a very good description of him. He is described as of short built, rather heavy set; wore a pair of corduroy pants and a black hat; and was about nineteen years of age.

A Birthday Party.
A large number of the young friends of Miss Etta Twiss gathered at the home of that young lady last evening to celebrate her twelfth birthday anniversary. Miss Jennie McElwain, her Sunday school teacher, assisted in entertaining the little folks. After spending a short time there very pleasantly, the crowd journeyed in a body to the Methodist church to listen to the revival services. Following is a list of those who made up the jolly crowd:

Rosalia Hall, Della Johnson, Etta Twiss, Mable Poissal, Maggie Warren, Lydia Perry, Minnie McKay, Jennie Stultz, May Larson, Anna O'Neill, Roanna Harvey, Earl Kuhney, Joe Perry, Roy Boyd, Fred Summers, Ted Whiles, Harley Weld, Eddie Oliver, Ray Chriswiler, Ed Larson and Freddie Stultz.

"Pulse of New York."
"Built to Amuse" is the catch line of this season's version of the "Pulse of New York," which comes to the opera house Saturday night, February 19. The old play has always been a great favorite with the American theatre patrons, and this, its seventh consecutive year, promises to be as great a hit as its first. To keep abreast with the demands of the times the entire play has been liberally enameled, and the second act, "The Bowery Dive," is entirely devoted to high-class vaudeville features. In this act twelve specialties are presented, prominent being Wm. A. Lang, the singing and dancing comedian, last year principal comedian of Hanlon's "Superba," Stella Mayhew, mimic and story teller, the wonderful Thompson Tots, Lillian, 5 years, Etel, 3 years; Mudge Maitland, phenomenal lady baritone singer; H. V. Bond, Hay Rube; Edgar Way and Berynce Stanhope, comedy sketch artists; Gotham quartet and others.

Warga Offended.
John Warga, it seems, was presented a valentine at the shops by Frank Slavicek yesterday, and under the picture was written that it looked like the man who stole the lumber. Warga was insulted and swore out a warrant for Slavicek's arrest, charging him with disturbing the peace. He was arrested and taken before Judge Archer this morning, who, after hearing the statements, threw the case out of court. The only peace disturbed, apparently, was Warga's peace of mind. The whole show was a laughable farce for the usual police crowd, which seemed to enjoy it immensely.

An Interesting Sermon.
The large and attentive audience which gathered at the Methodist church last night to hear Rev. A. H. Lemon's discourse on "The Love of God" was well paid for the effort. The speaker received marked attention from those present, and was much encouraged by the show of interest taken. The solo by Prof. Travis was a special feature of the service and as usual was enjoyed by all. The subject tonight is "Morality and Christianity." All are cordially invited to attend.

Initiation of New Members.
The A. O. U. folks were out last night not by scores, but by hundreds to witness the initiation of eighty-nine new members, which took place at the Fitzgerald hall. Deputy Grand Master Workman O. J. Vandyeke was present and gave an interesting lecture. The state medical examiner, Dr. Ralph, of Omaha, was also present. Over one hundred names were presented, but owing to informalities in the papers but eighty-nine were initiated. This number was divided up among the four lodges in this city.

Mr. Ward L. Smith, of Frederickston, Mo., was troubled with chronic diarrhoea for over thirty years. He had become fully satisfied that it was only a question of a short time until he would have to give up. He had been treated by some of the best physicians in Europe and America but got no permanent relief. One day he picked up a newspaper and chanced to read an advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He got a bottle of it, the first dose helped him and its continued use cured him. For sale by all druggists.

Card of Thanks.
We desire to thank the many friends who were so kind and helpful during the illness and at the death of our beloved wife and mother.

Col. Charles Graves of Union has been out of the editorial harness for about a year, but he can't stand prosperity and will probably start up the Ledger again in a few weeks. If a gold cure were instituted for the newspaper habit it could do a good business, as the disease seems as incurable as any manly we know of.

"Pulse of New York" at White's opera house next Saturday evening should be well patronized, as it is one of the best shows on the road. Wm. A. Lang, formerly with Hanlon's "Superba," is with this company and will introduce some of his songs and dances. The Gotham quartet also travel with this troupe. See them. Hear them.

Colonel Woodring has left the willow mat crowd to others and goes to Central City, where work has been begun on the new B. & M. bridge across the Platte at that town. Over 1000 feet of the bank on the east side has been covered with this matting and tons of stone has been dumped in on it to more perfectly protect the bank. The B. & M. will be in good shape this year for high water.

Colonel Charles How, armed with a grip as large as a saratoga trunk, menudera toward the depot today wearing a look that betokened great responsibilities. On enquiry we learned that the president had wired him to go to Havana as a submarine expert and investigate the cause of the explosion on the Maine. Charles's first thought was to charter a balloon and go at once to the scene, but he finally concluded to await the arrival of a train, and will follow the popular Burlington route as far as his pass will carry him.

A Nut for L. G. Todd.
EDITOR OF THE NEWS: The friends of free silver and greenbacks say that a silver dollar or greenback is legal tender, and will pay as great a debt as a gold dollar; therefore why not have more silver and greenback dollars? In order to have silver and greenback dollars as good as gold dollars, they must be convertible into gold dollars at the option of the holder. The government is now floating them with gold, but it is all it can do to float what are now in circulation. Suppose they pass the free silver bill, how would they float the avalanche of silver dollars that would pour into circulation.

The gold now in circulation as legal tender would be withdrawn and held as a commodity and bought and sold as such. We should have silver monetalism, and silver dollars would be constantly growing cheaper. It would demoralize all home and foreign commerce and end in a financial revolution.

NEWS FROM THE KLONDIKE

WILL SAMPSON'S SAFE ARRIVAL AT DAWSON CITY.

In a Letter to His Sister, Mr. Sampson Gives Some Valuable Information In Regard to That Country.

[The following letter was written by W. L. Sampson to his sister, Mrs. Burkel, in this city.]
DAWSON CITY, Northwest Territory, Dec. 5, 1897.—I thought I would write you today, as there is talk of a mail going out soon. I am well and hearty and have an appetite like a gristmill. I have written you several letters since I arrived here, and sent them by parties going out over the ice, but they will be a long time getting there, if they ever do, so thought I would write again. I arrived here October 15, had not a cent in my pocket and was nearly frozen. I put up my tent and went to look for a cabin to keep our grub in, and found that cabins were worth from \$500 to \$1,500 apiece—rent being from \$40 to \$50 per month—so the only thing we could do was to build one. Barber and myself went at it, and it was five weeks before the structure was completed—all this time the thermometer was ranging at from 40 to 20 degrees below zero. The night before Thanksgiving it was 60 below and we were about to freeze, when the opera house took fire at 2 a. m. and we rushed to the fire. That is all which saved us from freezing.

On Thanksgiving day we moved into our new quarters, and since then have been as snug as a bug in a rug. This is a great country, and there is no question but what it is the richest mining camp the world has ever seen. If a man can't make a stake here he can't anywhere. It is a common thing to see men selling their claims for from \$5,000 to \$100,000. Three claims sold yesterday for \$360,000. Everything is staked in this district, but there are plenty of opportunities for us to get all the claims we want between now and spring. I don't want to locate before January 1, as I will have to begin work in nine months and if I have to go out in the spring I could not get back in time. Grub of all kinds is scarce and very high. Flour is worth \$75 per fifty pounds; beans \$2 per pound; wood \$40 per cord, and it costs \$5 per hour for the use of a horse—and there are a large number of horses here, too. A man with a dog team can make \$100 per day freighting supplies up to the mines. A team of eight dogs can pull 2000 pounds more than a span of horses. They are killing hundreds of moose and caribou and bringing them in here, and still it is worth \$1.50 per pound. Reel is \$1 a pound, so you see it costs something to live here. A man without his own grub cannot get a day's work. So Barber and myself were among the fortunate ones and went right to work. We have plenty of everything. They want to force everyone out of here and keep anyone from coming that they can. This is a hard country at present. We have about four hours' daylight and the sun shines three-fourths of an hour, and the latter part of this month it doesn't shine at all.

I forgot to tell you about the window we put in our cabin when we got the cabin ready for the winter. Barber went down to get a sash and they wanted \$75 for a single sash, so I sent him back with a gunny sack, and he swiped a sack full of pop bottles and I made a frame and put them in and corked between the necks, and now we have the finest "pop bottle" window you ever saw. Our cabin is as warm as toast and we are very comfortable. One good thing about this country the wind doesn't blow at all. I haven't felt the cold any more here than in Nebraska when the wind was blowing. But old-timers say the winter here is the best season of the year, the summer very hot and the mosquitoes awful bad.

A person could not be more completely shut out of the world and civilization than they are here. It is five months since I left Tacoma and I have not heard a word from the outside. Well I expect to make a stake here and if I come out this year it will be for supplies and will go right back again. Will have you meet me at Tacoma when I come out, as I won't have time to go east this time. Remember me to all inquiring friends. Love to all the folks. Hoping to hear from you soon I am your affectionate brother,
W. L. SAMPSON.

A GOOD LETTER.
From the Clerk of the Circuit Court.
FERNANDINA, Fla., Feb. 28, 1896.
MR. GEORGE SURREL, Drugist, City.
Dear George:—Please send a bottle of Chamberlain's Cough Remedy. I would not feel easy if I knew there was none of this valuable Remedy in the house. I have given it a fair test and consider it one of the very best remedies for croup that I have ever found. One dose has always been sufficient, although I use it freely. Any cold my children contract yields very readily to this medicine. I can conscientiously recommend it for croup and colds in children.

Yours respectfully, GEO. E. WOLFF.

After the water gets to the boiling point let boil for fifteen to twenty minutes. Use cream and sugar to suit the taste. If you have not cream use hot milk.

A lady said: "The first time I drank Grain-O I did not like it, but after using it for ten days and forming the habit, nothing would induce me to go back to coffee." This is the experience of all. If you will follow directions, measure it every time and make it the same, and try it for ten days, you will not go back to coffee.
