A Serious Fracture Is Sustained By E. W. Kennedy—Catholic People Give Their First A Most Enjoyable Surprise—Other Happenings Of Interest to News Readers.

The trial of the case of Hugh Roberts vs. John Harrington was the attraction in police court this morning. Quite a bit of testimony was produced to show the extent of the injuries received by the plaintiff at the hands of the defendant. After due consideration of all the facts in the case, Judge Archer fined Mr. Harrington the sum of \$100 and costs, and as defendant was unable to produce the necessary wherewithal, he will be given lodgings in Jailor McBride's nosterly.

About a week ago, it will be remembered, Roberts was brutally assaulted by Harrington, because the former killed the latter's dog. A warrant was immediately sworn out for Harrington's arrest, but as Roberts was unable to appear, the case did not come up until this morning.

A Serious Fracture. E. W. Kennedy, who resides on Oak, between Sixth and Seventh streets, met with an accident Saturday which resulted in the fracture of his hip bone. He was coming down the stairs at his home when he accidentally slipped and fell, striking the hip bone with such force as to cause a very serious fracture. A physician was immediately summoned, and at last accounts, Mr. Kennedy's condition was not of such a nature as to cause his friends any uneasiness.

Father Hor Surprised. The young ladies of the St. Anges society planned a very successful surprise party last night in honor of their priest, Rev. Mathias Bor, at the home of Mr. and Mrs. Swoboda on 14th and Main street, where the priest has made his home for a number of years. The surprise was to remind him of his "names-day," which occurs February 24, but at that date he will be in Wahoo. Father Bor received several useful presents, among them being two handsomely enlarged photos of his mother and father.

The evening was spent mostly in music and social chat. A bountiful supper was served and all departed for their homes at a late hour, reporting a most enjoyable evening.

The Department Store. Colonel Thrasher has been doing some tall hustling to get his building rented to Mr. Tourtelotte, the department store man, and to him credit is due for getting a new firm in town.

The new store will not have two rooms at present to start with, owing to the one adjoining having been rented to other parties. The manager put a force of men to work in the Neville room putting up shelving and getting things in readiness for the immense stock of goods which he has purchased and already ordered shipped to this place.

Mr. Tourtelotte appears to be a very affable gentleman and no doubt will be a very valuable addition to the business interests of the town.

While the invitation hymn was being sung one young man went forward and was happily converted. Subject tonight "Is God Willing to Save Us?" Come early if you wish a seat.

A Sad Death. A few months ago everyone in this part of the county felt shocked over the shameful assault suffered by Peter Curtis down near Union.

The boy lingered for days between life and death, but finally recovered. It was during his illness, while he was unconscious he struck his mother a vicious blow in the side which knocked her across the room. From the injury sustained she never recovered, and after lingering with much suffering, she died at an early hour this morning and will be buried tomorrow.

What appeared to be a tragedy at one time seems to have turned out one after all, and if Melkia is the man who assaulted the boy he ought to get the severest penalty the law dictates.

Was An Interesting Lecture.

The department of Household Economics of the Plattsmouth Woman's club held an extremely pleasant and instructive meeting last evening. On motion the regular business was laid aside, and Mrs. MacMurphy presided with her lecture with practical demonstrations. The importance of building up the human body with healthful food and the intelligent preparation of the same was dwelt upon at some length.

She asserted that every mother should understand the human body and how to select and prepare food to build the nerves, sustain the brain, etc. With the mother rests the responsibility whether her child shall become a physical wreck, a business failure, a drunkard, or a tramp—these dire disasters can be avoided by properly understanding the elements of the body and the character of building material each element may need, and a child built of standard material will become a standard being harmonious in each department of his wonderful structure. Mrs. MacMurphy further demonstrated her theory by the preparation of some delicious dishes, built on a scientific plan and daintily prepared, which those present were allowed to taste and were thoroughly appreciated.

Mrs. MacMurphy is an agreeable speaker and those who missed the lecture of last evening missed a good thing. The evening closed with a little social visit and an animated discussion of the various health foods in use.
