WHEN YOU USE-G.O. Taylor Whiskles

YOU USE THE HIGHEST TYPE OF MEDICINAL WHISKIES IN EXISTENCE.

A stimulant for use in the sick room, such as the G. O. Taylor brand, which is sold by more family druggists and prescribed by physicians more than any other brand of whiskey sold in competition with it, is safe to stand by.

An old distiller caught adulterating his rum from the pump, by way of an apology said: "Water never hurt anybody." His statement was not wholly true, for much disease, suffering and lingering illness has been the traced to the use of impure water.

Physicians prescribe "G. O. T." for lung and throat troubles, as a flesh producer, with eggs and milk, after lingering sicknesses. Licensed dealers everywhere will sell you G. O. Taylor Whiskey if you insist on having it.

It is not sold in bulk. Look for our firm name signature over the cork and on the label.
