

AGREEABLE RECEPTION.

Arrival of American Troops on the Island of Negros

Soldiers Who Arrived on the Transport Senator and Ohio Are Disembarking, and All Preparations Being Made for an Aggressive Campaign Before the Wet Season Begins.

MANILA, March 6.—The rebels have been concentrating in the vicinity of the reservoir. Today a patrol of Company G, Second O ego volunteers, was taken in ambush.

Two men were wounded, but the Oregonians held their ground until the remainder of the company, assisted by two companies of the First Nebraska regiment, flanked the enemy, killing thirty and wounding several more.

Two battalions of the Twentieth regular infantry have reinforced General Hale's brigade.

All the native huts have been destroyed at Marquina and the country there is pretty well cleared, but the rebels were returning in small bodies at sundown.

Apparently they have secured a new supply of smokeless ammunition recently, as there has been a noticeable difference during the last few days.

The Spanish commissioners who are endeavoring to secure the release of the Spanish prisoners in the hands of Aguinaldo have returned to Manila to offer \$2,000,000 for their release.

Reception of Troops at Negros.

WASHINGTON, March 6.—A cablegram from General Oils at Manila received in Washington today indicates the satisfactory and agreeable reception accorded to the American troops which recently landed at the island of Negros.

They were sent there by General Miller in command of Colonel Smith to take formal possession for the United States, which he did, without trouble.

Previous to the time the troops arrived a commission from the island visited General Oils, saying they were willing to surrender, and asking that he make the arrangements under his protection.

The obligatory disavowal to General Miller by the natives is gratifying, as it is believed there will be no trouble in dealing with the natives of that island. General Oils' dispatch follows:

Following from Manila this inst. Government, Congress and inhabitants of Negros to General Miller, Manila—We affectionately salute you and congratulate you on your happy arrival of Colonel Smith and troops under his orders and beg you to send this salute and congratulations to General Oils, Manila, as representative of the government of the United States in the Philippines.

LACSON. 4 p. m.—The troops which arrived Saturday on the transport Senator and those arriving yesterday on the Ohio are disembarking and all preparations are being made to proceed with an aggressive campaign before the wet season sets in.

The rebels, anticipating the American advance, are busy in throwing up defenses in every direction and it is reported that they are leaving men and supplies in every position.

As a result great dissatisfaction prevails among tribes ordinarily unfriendly to the Tagalos, particularly the Ilocanos, who assert their desire to assist in conquering the Tagalos if furnished with arms.

Movements of Transports. The following order has been issued regarding the movements of transports: "The Arizona will sail for San Francisco, via Hong Kong, with all the sick on March 9; the Newport, via Nagasaki, Japan, with all the returning officers and their wives on March 10; the Scamals, via Nagasaki, with discharged soldiers on March 11, and the Morgan City, via Nagasaki, on March 12."

The civil members of the United States commission who arrived here Wednesday afternoon from Hong Kong on the cruiser Baltimore landed today and are now installed in quarters especially provided for them on the Malate water front.

While awaiting the arrival of Colonel Charles Deady, former United States minister to China, the other civil members of the commission will devote their time to sightseeing and getting familiar with local conditions. Until Colonel Deady arrives the commission will be incomplete and can do nothing officially.

General Onslaught Expected. There is some reason to expect important news from Manila within the next fortnight. It has developed that General Oils has practically completed his plans for a grand onslaught on the insurgents, which is expected to deprive them of offensive power at least. It is probable that he will form a large part of his force into columns, as soon as his reinforcements are all at hand and will push these in parallel lines straight through the jungles, clearing out the insurgents in every direction as the troops move forward.

The American troops are getting

GOOD ORDER IN MANILA

Arrival of Fresh Reinforcements Makes Change For Better.

Sharpshooters Outside Are Very Active and Cause Much Annoyance to American Troops—Transport Valencia Sails for Manila via Honolulu—Has Money to Pay the Soldiers.

MANILA, March 6.—10:35 a. m.—The United States transport Ohio arrived yesterday.

In the last two days there has been a very noticeable change in Manila for the better, probably due to the arrival of reinforcements for the American troops. Numbers of people are seen upon the streets and the amount of business transacted in the stores has marvelously increased.

Yesterday the Luneta was blocked with carriages for the first time since the outbreak and the band of the Twentieth regulars played a number of airs and it was hard to believe that a state of war existed.

Outside the city there was desultory firing throughout the day and at various points the sharpshooters were most annoying.

At San Pedro Macati the rebels are very active, erecting entrenchments in front of the position occupied by the Washington troops, although a two-gun battery of the Sixth artillery repeatedly shelled them.

The enemy are fully alive to the fact that Mausers have a much longer range than the Springfield and are continuously taking "hot shots" in comparative safety.

The American soldiers dislike their passive resistance and are eager for the excitement of an active campaign.

Despite the heat, the health of the men in the trenches has improved remarkably.

Assistant Engineer Winship of the gunboat Bennington was wounded in both legs yesterday by a volley from the shore.

The Maritime steamer El Cano has arrived from Iloilo with advices that all is quiet there and that business is brisk.

The natives in the interior, the steamer reports, are levying upon the supplies in the hands of the natives and seriously interfering with the work upon the plantations.

Money For Manila Soldiers. SAN FRANCISCO Cal., March 5.—The transport steamer Valencia sailed today for Manila via Honolulu.

It carried about 150 recruits for infantry, artillery and hospital corps and was laden with supplies of all kinds for the troops in Hawaii and the Philippines.

The most important items of the cargo was \$1,500,000 in coin, under the charge of Major Eugene Coffin, paymaster of the United States army.

This vast sum will be used for the payment of soldiers and all but a fraction of it will be disbursed at Manila.

The Valencia also carried to the Orient Surgeon R. J. Meadory and Second Lieutenants Munson, Minus, Burchfield, Baudill, Karr, Perron, Vorkie, Maury, Harris, Foster and Somers.

These officers were recently graduated from West Point ahead of their regular time and have been assigned to duty with various companies in the Philippines.

CANADIAN BOATMEN. An English army officer who visited Canada some years ago tells how he was ferried across the St. Lawrence at Quebec one January day when the river was full of moving ice.

Under such circumstance the passage of a river is likely to turn out a pretty lively experience.

Huge fields of ice were hurrying down the current, and looking at the distance between my side and the other, I could hardly see how we were to escape being knocked to pieces.

However, I resigned myself to my fate and to my French-Canadian crew; and they, five in number, as soon as I was ready, began sliding the canoe down the beach into the river, each springing in and snatching his paddle as the boat was launched.

Four of the crew knelt in the front part of the canoe, working their paddles furiously and yelling like so many demons.

OF INTEREST TO ALL NEBRASKANS

Doings of the Legislature Will Be Watched With Great Interest.

Everybody is interested in the work of the lawmakers now in session at Nebraska's capitol, and the only way to keep posted on their movements is to subscribe for a Lincoln paper.

The State Journal prints the full proceedings of the legislature and gives a concise report of all other happenings all over the world.

It contains more Nebraska news than any other paper in the state. For its Sunday issue it has a corps of the best writers the country affords.

The Journal and THE EVENING NEWS are furnished to Plattsmouth subscribers for the small sum of 20 cents a week.

THE NEWS contains all the local happenings of the day, and the two papers make a combination no one can afford to overlook.

A trial subscription will convince you. Order by telephone No. 85 or call at the office of THE NEWS.

Volcanic Eruptions. Are grand, but skin eruptions rob life of joy.

Bucklen's Arnica Salve cures them; also old, running and fever sores, ulcers, boils, felons, corns, warts, cuts, bruises, burns, scalds, chapped hands, chilblains.

Best Pile Cure on earth. Drives out pains and aches. Only 25 cents a box. Cure guaranteed. Sold by F. G. Fricke & Co., druggists.

The Scientific Mother. It is a baby's inalienable right to have what it wants, and a certain Washington mother—she is a physician, says the Post—seems to be ingenious enough to ward off a possible disappointment.

The mother has scientific ideas about the bringing up of babies. One of those ideas is an outing every day, and the baby is so accustomed to her daily excursion that she makes her displeasure felt if she is deprived of it.

Tuesday was rainy. Baby couldn't go out, and since Mohammed could not go to the mountain, the mountain was brought to Mohammed.

All the windows were opened and baby was trundled back and forth, snugly wrapped in her little cloak. But the floor being perfectly smooth, baby knew she wasn't out of doors, and wept.

The scientific mother pondered the matter. Then she took down certain volumes of her medical library and put them on the floor to represent curbstones, and smaller pamphlets to serve as general inequalities of the pavement.

The baby was wheeled over the floor, and baby felt her accustomed jolts. She fancied herself outdoors and promptly went to sleep.

Going Down Hill. People suffering from Kidney Diseases feel a gradual but steady loss of strength and vitality.

They should lose no time in trying Foley's Kidney Cure, a Guaranteed Preparation. F. G. Fricke & Co.

Choate's Retort. When Joseph H. Choate, as a young man, was once arguing before a magistrate, the latter cut in with: "What you say is fit only for an ignoramus."

Mr. Choate replied: "I am addressing your honor."

Tommy's Sister Is Not Slow. Staylight—Tommy, do you think your sister is fond of me? Tommy—I don't know. She gave me a quarter to set the clock half an hour fast.

Romance of a College Student. A very bright and exceedingly humorous serial training of student life in a college town will begin in the April Ladies' Home Journal.

It is by Mrs. Charles Terry Collins, a novice in fiction, who has written with charming freshness, cleverly picturing student life, the students' games and sports, their social diversions, etc.

Into the deliciously droll story Mrs. Collins has subtly woven a most interesting, happy romance, from which the story takes its name—"A College Courtship."

Pneumonia is the quick agent of death. Fully one-third of recent deaths have been from pneumonia following La Grippe.
