

A MOTION TO DISBAND

The Cuban Assembly Considering Such a Proposition.

General Gomez Reports That the Cuban Army Consists of 42,000 Privates and Non-Commissioned Officers—American Lieutenant Kills a Cuban Major.

HAVANA, March 21.—Major F. Martinez of the Cuban forces, who was shot last evening at the Hotel Inglaterra by Police Lieutenant Emil Cassin, the former trumpeter of the Rough Riders, is not expected to live. Cassin has been placed in jail. His action is generally condemned as unwarranted and as due to his excitable temperament.

The Cuban army has 13,259 men, all told. This number includes corporals and sergeants, but excludes commissioned officers. These figures are the result of the official inquiry instituted under the direction of the department commanders for the use of the military administration. The reports of the governors of the provinces are as follows:

Santiago, none; Puerto Principe, 200; Santa Clara, 4,769; Matanzas, 2,200; Havana province, 2,460, which includes 375 in the city of Havana, and Pinar del Rio, 3,500.

Official Holds Old Records.

General Gomez originally reported that there were 42,000 privates and non-commissioned officers. General Klotz, inspector general of the Cuban army, was to have presented an accurate muster roll to Governor General Brooke, but he has not done so. As a creature of the Cuban military assembly he has joined with it against General Gomez. His muster rolls, in whatever form they may be, have been given to Senator Rafael Portuondo, president of the executive committee of the assembly, but the governor general has assurance that they will soon be turned over to him.

Brigadier General Ernst will represent the military in distributing the \$3,000,000. It has not been decided whether the whole amount is to be distributed pro rata. The plan proposed has been to give each man \$100, the balance to be retained by the American government.

The statement that there are no Cuban soldiers in Santiago has occasioned considerable surprise here, as it was supposed there were many Cubans still in arms there. Nevertheless this is the report of Major General Wood, the military governor.

Assembly Talks of Disbanding.

In today's session of the Cuban assembly a motion was made in favor of disbanding the Cuban army and dissolving the assembly, with permission to the Cuban soldiers to accept gifts of money from the United States if they so desired. After considerable argument, the gist of which was that the assembly could not discuss matters of such importance without previous consideration on the part of the individuals, it was decided to postpone the public discussion until Friday.

Another motion was introduced in favor of changes in the organization of the Cuban army, but the discussion of this was postponed until tomorrow. As a matter of fact today's session was devoted almost entirely to questions of order arising from the various motions made.

Senor Mora, civil governor of Havana, has issued a document in which he summarizes the laws regulating public gatherings and parades, and attempts to show that he acted within the law in the course he took in regard to the parade of March 12, in honor of General Gomez, a course which was primarily responsible for the ill-feeling between the police and people, which culminated in the bloody affrays of last Sunday and yesterday. Senor Mora says that if the law is bad it should be repealed, but that so long as it is in force it should be observed.

Postmaster General Emory Smith spent five hours today with the governor general. At 3 o'clock this afternoon the temperature was 76 degrees Fahrenheit.

Mrs. Shriner a Victim.

In the list of injured at the fire in Omaha Tuesday is the name of Mrs. Ed Shriner. Mrs. Shriner's maiden name was Miss Mafford, and was a resident of this city for many years, being employed as teacher in the city schools. She was married in 1890, since which time she has resided in Omaha, her husband being an engineer on the Burlington. This morning the fire says that her body and hands were badly burned and that she sustained a bad cut on the head, and will probably die.

Walter W. Scott, who is among the list of injured as having sustained burns upon his face and hands, was also a former resident of Plattsmouth, and is the father of Jesse Scott.

An Enjoyable Party.

About twenty members of the Knights and Ladies of Security lodge called at the home of Mr. and Mrs. R. F. Dearval last evening to enjoy a sort of a farewell party in honor of these two members, who expect soon to remove to the state of Michigan. Social conversation was indulged in and refreshments served and a general good time was enjoyed.

Among those present were Messrs. and Mesdames C. A. Dickson, J. H. Thrasher, H. C. McKenna, C. A. Marshall, J. M. Leyda, Bennett Christweiser, C. H. Smith; Mesdames Celia Shroyck, Alice M. Eaton; Misses Lillian Shroyck, Mabel Eaton and R. B. Windham.

Elwin Jeany, William Dales Denier and S. D. Esola of Elmwood are in the city attending court.

IN THE HOLY BONDS OF WEDLOCK.

Marriage of Fred Gorder and Miss Etta Baier Wednesday Evening.

From Thursday's Daily. At the home of the bride's parents in Nehawka last evening at 8 o'clock the Methodist minister of that place solemnized the marriage of Fred H. Gorder and Miss Etta Baier. E. T. Cassel of Lincoln acted as best man and Miss Louise Gorder, sister of the groom, was bridesmaid.

The bride is the daughter of Mr. and Mrs. O. Baier of Nehawka and her womanly manners has won for her many warm friends. The groom is the eldest son of the late Fred Gorder of this city and is one of Weeping Water's most successful business men, having been in the implement business for a number of years. The young people were the recipients of many useful presents.

THE NEWS extends congratulations and best wishes and bespeaks for them success in married life.

Victims of the Omaha Fire.

The following in regard to the condition of the two former Plattsmouth people who were injured in the terrible fire in the Patterson block, Omaha, Tuesday afternoon, will be read with interest:

"Mrs. Ed Shriner was seen at her home, 1416 South Fifth street, where she is under the care of a physician, who says unless she is injured internally, and he does not think she is, she will recover. Her face is very badly burned and her hands were burned to the bone. One of her ankles is badly sprained and is swollen so that it is impossible to tell whether or not any bone is broken. Mrs. Shriner is in good spirits and says she proposes to get well. She says she owes her life to Herold J. Cathroe, a carrier of The Bee, who broke her fall when she jumped from the window. She is very heavy, weighing in the neighborhood of 200 pounds, and is unable to account for the manner in which he did it, but says he caught her as she was about to strike the sidewalk.

"W. W. Scott, 1415 South Sixth street, is now at St. Joseph hospital. His hands and face are paining him, but his injuries are not serious."

Is It Malaria or Alum?

Languor, loss of appetite, indigestion and often feverishness are the common symptoms of a physiological condition termed "malaria." All these symptoms may be and frequently are the effect of the use of alum baking powders in food making. There is no question about the poisonous effect of alum upon the system. It obstructs digestion, prostrates the nerves, coagulates and dehydrates the blood. All this has been made clear, thanks to physicians, boards of health, and food commissions. So "highly injurious to the health of the community" does the eminent head of the University of Pennsylvania, Dr. Barker, consider the alum baking powders, that he says "their sale should be prohibited by law."

Under these circumstances it is worth the while of every housewife to employ the very little care that is necessary to keep so dangerous an element from the food of her family. A pure cream of tartar baking powder, which is the only kind that should be used, ought to cost about 45 cents to 50 cents a pound. Therefore, if you are paying much less, something is wrong; if you are paying 25 cents or less per pound, the powder is certainly made from alum.

Always bear these simple facts in mind when purchasing baking powder.

Real Estate Transfers.

Following are the real estate transfers of the county as recorded in the office of Recorder of Deeds Hay: N H Meeker to A D Wilson, s.w. 1/4 16-11-90, \$4,500; G H Catter and wife to H C Catter, n.w. 1/4 16-11-90, \$3,000; O and E K Norton to L Gorn, s.w. 1/4 16-11-90, \$2,400.

The Best and Cheapest.

The New York Independent, the leading weekly newspaper of the world, and one whose pages exercise the widest influence, is entering upon its fiftieth year of publication. The Independent emphasizes its fiftieth year by changing its form: to that of a magazine, and by reducing its annual subscription price from \$3 to \$2; single copies from 10 to 5 cents. The Independent in its new form will print 3,640 pages of reading matter per year at a cost to subscribers of \$2, while the prominent magazines, which sell for \$4 a year, print only about 2,000 pages. The subscriber to the Independent gets 82 per cent more of equally good reading matter at one-half the cost! It is not only the leading family weekly newspaper but by far the cheapest and best. A free specimen copy may be had by addressing the Independent, 130 Fulton street, New York.

The Battle of Nations.

On Oct. 16, 1813, the French army, under Napoleon I., numbering 130,000 men, was attacked at Leipzig by 200,000 of the allied forces under Princes Schwartzberg, Blucher and Bernadotte. The battle was renewed on the 18th and 19th, and in the end the French were obliged to retreat, leaving 25,000 prisoners in the hands of the allies. The total French loss was upward of 60,000 men, and that of the allies 46,000. After this tremendous conflict, called the "battle of the nations," the allies entered Leipzig, and Napoleon commenced his retreat toward the Rhine. The fiftieth anniversary of this battle was celebrated with much enthusiasm throughout Germany, Oct. 18, 1863.

There is no such evidence of popular satisfaction as the evidence of successful experience. The "Gut Heil" 5 cent cigar has won this enviable reputation—the best cigar ever produced and sold for a nickel.

AGUINALDO A BOASTER.

Says He Will March Into Manila In Twenty Days.

Rebels Are Saving Their Money And Are Reported to Be Concentrating in the Vicinity of Malabon For Forward Movement—Natives Thought to Be Preparing For a Decisive Movement.

MANILA, March 22.—5 p. m.—While apparently inactive since Sunday, really the opposite has been the case with the American forces. A reorganization, entailing many changes, has been in progress since the abandonment of the flying column. General Wheaton's and General Hall's brigades have not been assigned, but the Oregon regiment, the Minnesota regiment and the Twenty-second regiment have been concentrated at the camp on the Luneta, at the water front, in readiness for immediate transportation when the plans of the military leaders have been formulated.

Our troops are entrenched and the situation is practically unchanged. The enemy has refrained from making any attacks recently, and it would appear that the rebels are saving their ammunition for a decisive movement.

According to a prisoner captured by our troops Aguinaldo has announced that he will personally conduct the reserves at Malolos and march into Manila within twenty days, unless the Americans withdraw in the meantime. The concentration of rebel forces in the vicinity of Malabon gives color to the statement of the prisoner.

Advice received from Cebu by a coasting steamer say everything is quiet there.

The United States transport Sherman from New York on February 3 has arrived here. One child, two sailors and two privates died on the voyage and one man was drowned in the Mediterranean.

Transport Sherman in Port.

WASHINGTON, March 22.—General Otis has cabled the War department announcing the arrival of the transport Sherman at Manila. The Sherman sailed from New York with the Third infantry and four companies of the Seventeenth infantry, under command of Colonel J. H. Page. The troops are reported as arriving all well and in good condition.

The Solace has also arrived at Manila, forty-three days from Norfolk. This is eleven days less time than the Buffalo and very fast time. The Sherman followed the Grant through the Suez canal and preceded the transport Sheridan over the same route. The Sheridan is expected to reach Manila in about two weeks.

These three vessels will add about 5,000 fresh regular troops to the military forces in the Philippine islands and are expected to aid materially in the plans which contemplate the subjugation of the insurgents before the opening of the rainy season about the middle of April.

Through Tourist Sleepers to the Northwest

The Burlington Route has established a twice-a-week tourist line from Kansas City to Butte, Spokane, Tacoma and Seattle.

Cars leave Kansas City, Lincoln and Grand Island every Tuesday and Thursday, arriving at Seattle following Friday and Sunday. They are upholstered in rattan. The bed linen and furnishings are clean and of good quality. The heating, ventilating and toilet arrangements are all that can be desired and each car is in charge of a uniformed Pullman porter, whose sole duty is to attend to the wants of passengers.

Cars run through without change of any kind and the berth rate from Lincoln to Tacoma or Seattle is only \$5. To intermediate points, it is proportionately low.

Montana and the Puget Sound country are now enjoying a period of unexampled prosperity. As a consequence, travel to the northwest is rapidly attaining large proportions. This new tourist car line has been established with a view of caring for the Burlington's share of it in the best possible manner.

Berths, tickets and full information can be had on application to any Burlington Route ticket agent or addressing J. Francis, G. P. A. Omaha, Neb.

The Eyes of Snakes.

One of the most curious facts with regard to snakes is that their eyes are never closed. Sleeping or waking, alive or dead, they are always wide open. This is because there are no eyelids. The eye is protected only by a strong scale, which forms part of the epidermal envelope, and is cast off in a piece with that every time the reptile moults. This eye plate is as clear and transparent as glass, and allows the most perfect vision, while, at the same time, it is hard and tough, so as to perfectly protect the delicate organ from the thorns and twigs among which, in flight from enemies or in pursuit of prey, the reptile so often hurriedly glides, as any close observer of the habits of the snake can readily discover.

For Chills.

Procure a beef bone that contains a good deal of marrow, remove this and melt in a jar set in boiling water. When melted, strain and allow to cool. Then mix in the following proportions: Two ounces of white wax, four ounces of beef marrow and four ounces of Venice turpentine. Cut up the fat, set them with the turpentine in a jar in boiling water and melt over the fire. When liquid, stir in four ounces of sweet oil and pour into small jars or moulds in which the salve can be stored for future use.

Drink Grain-O.

after you have concluded that you ought not to drink coffee. It is not a medicine but doctor-order it, because it is healthful, invigorating and appetizing. It is made from pure grains and has that rich brown color and tastes like the finest grades of coffee and costs about 1/2 as much. Children like it and thrive on it because it is a genuine food drink containing nothing but nourishment. Ask your grocer for Grain-O, the new food drink. 15 and 25c.
