Sailors of the nored as incapable of being mined and cut ers said it was the worst storm treated at a profit.-Thomas Tonge, in they every encountered.

Return to the White House.

CANTON, Sept. 1 .- To an accompaniment of enthusiastic cheers from the crowd that lined the station platform the special train that carried President and Mrs. McKinley steamed out of the station tonight at 9 o'clock. The president from the rear platform bowed his acknowledgments for the hearty cheers. The train is due in Washington at 10 p. m. Saturday. The president assured his friends here that he had a really restful visit and that he had thoroughly enjoyed the brief sojourn at his home and the intercourse with his old friends.

Dr. Rizey expressed his belief that Mrs. McKinley is steadily recovering and women in the state of New York from her indisposition of a month or shows that 69.2 per cent of them so, although her state of health while here was such that she could see but few people. The publish the membrane covering the bone, are skin of the limbs and sometimes of the

It is curious to note that scurvy at-The cause of the disease is undoubtedly proper diet, but just what kind of improper diet has not yet been deciddren who are fed on artificial food, yet nursing infants who have never had anything but mother's milk sometimes er have the least sign of scurvy.

If the doctor is called before the disease is far advanced, the treatment is usually satisfactory. It consists essentially in a change of diet, someimes even a change to artificial food, if the child has hitherto been nursed exclusively; but this change is something that needs careful study, since it will have peculiarities of its own in almost every case. The addition of some fruit juice especially that of oranges, limes or grapes, to the new diet is generally of great value, and somemodifications of the previous diet.

A Drink for the Soldlers. One of the most frequent causes of suffering among soldiers who march under a hot sun is intense thirst, Few sensations are more distressing than the parched and burning feeling that attends this condition of things. Experiments and tests of various sorts show that cold tea is one of the very best beverages for thirsty soldiers. The infusion should not be strongjust enough to be bright and refreshing. It is, of course, made with sterilized water, and if supplied to the army in moderation would do more to Jules Verne, the French author, who drink water when passing through the wrote "Twenty Thousand Leagues Un- enemy's country, or where there is der the Sea," and many other books they resert to enlitten liquers then Water Advocate. they resort to spirituous liquors, than well known by boys, has been busier which nothing is more demoralizing. six more books than the number of years he has lived. Perhaps Miss a stimulant. It is in addition what Braddon, among English writers, with housekeepers call "tasty," and leaves Garrison, H G a stimulant. It is, in addition, what housekeepers call "tasty," and leaves a pleasant feeling in the mouth and throat. Army officers almost always look with concern upon anything that interferes with a plentiful supply of excellent drinking water. In camp For wounds, burns, scalds, sores, skip interferes with a plentiful supply of it is only tolerable, boiling answers very well. Persons who are in the Try the Stag brand working pants. GUNS THAT DON'T KILL.

Guns have plenty of uses apart from killing. For instance, the signal gun of a ship is intended solely for announcing her arrival on a coast.

Again, in desert countries, where water is difficult to collect out of a mere dampness of sand, a gun barrel sunk into the ground will collect moisture in the bore, and many a life has been saved by a timely suck at the muzzle. in many an English town the 1 o'clock gun fired by electricity from
