WEDNESDAY, JULY 20, 1900.

BUFFALO BILL, a life-long democrat, is out for McKinley and Roosevelt.

CHINA having taken the initiative, Russia will show her what she can do.

FIFTY thousand people attended the Christian Endeavor convention in London yesterday.

It is reported that 10,000 Boers will emigrate to the United States as soon as the war is over.

PRESIDENT MCKINLEY and his cabinet think the situation in China does not yet warrant the calling of a special session of congress.

GENERAL WOOD has just returned from Havana and says Cuba is tranquil and that the people there have confidence in our government.

THE contest between Yerkes and Beckham for governor in Kentucky will be watched with the keenest interest by the entire country.

IT HAS been suggested that if the bolts that are being made by Bryan would be of steel or iron, the bolt industry would be materially accentuated.

JOHN W. YERKES has been nominated for governor of Kentucky by the republicans. In the delegation from Shelby county there were nineteen democrats.

THE mid-roads meet in Grand Island Friday and the fusionists are anxious to see how much influence they are going to have in the campaign this fall. It gives them the shivers to think of it.

AN EASTERN editor thinks that perhaps the reason for omitting any reference to the income tax in the Kansas City platform was the fact that during the past four years Bryan has himself become a man of income.

WHEN ex-Governor Bradley, in his speech nominating Yerkes for governor, said that he was for revolution, if revolution was necessary, to preserve liberty in Kentucky, the delegates stood on their feet and yelled.

GOVERNOR ROOSEVELT was royally received by the delegates to the convention of the National Republican League in St. Paul. The great crowd rose and cheered for six minutes when he was introduced to the convention.

ACCORDING to the United States weather bureau report the heaviest rainfall in Nebraska last Sunday was at Hartington—5.88 inches and the lightest at North Platte—12 inch. Prospects for large crops in the state are excellent.

JERRY SIMPSON fears the nomination of Stevenson will give Kansas to the republicans. The fact that the democrats in that state are organizing McKinley and Roosevelt clubs, would lead one to believe the gentleman's fears are well-founded.

THE number of Germans reported to have been massacred at Pekin is ninety-three. The Vossische Zeitung says: "There is no excuse for the nation which commits such crimes and none for the government which favors, tolerates or fails to prevent them."

GENERAL LEW WALLACE announces that he will not preside at the national anti-imperialist league meeting, in fact he says he will take no part in the meeting, not being in sympathy with it. He is going to support the republican ticket, although not in accord with President McKinley on some minor points.

THE Women's Bimetallic League of Lincoln has disbanded. Factions in the organization killed it. Its president's refusal to sign resolutions of sympathy for the Boers was one of the rocks which shattered the house divided against itself. Mrs. Deborah G. King, leader of one of the factions, wants to reorganize.

IN ANOTHER column our readers will find an account of the organization of a democratic McKinley & Roosevelt club. It starts out with a membership of forty, thirty-seven of whom voted for Mr. Bryan in 1896. If thirty-seven can be found in one community who have repudiated the theories of the false prophet, what may we not expect from the nation?

THE wounded and prisoners who fall into the hands of the Chinese are so frightfully tortured by them that Admiral Seymour, when so hard pressed in his retreat that he is unable to carry his wounded, asks them: "Which do you prefer, to be left to the mercies of the Chinese or to be shot by your own comrades?" It is said that when the admiral put this question, with tears running down his cheeks, the soldiers answered: "We prefer death to torture. Shoot us now that we may die like men."

DEMOCRATIC PLATFORM ANALYZED.

The woful wail again goes forth in the plank on the Cuban question, and adds one more item to the evidence in proof of the fact of the ignorance or wilful disposition of the Kansas City convention in its utter despair to make bold misrepresentations of the true situation. Rapid strides have been made in the pacification of the conflicting factions existing in the island. The conservative and radical elements now understand each other; the Spanish soldiers are removed and the first elements of self-government have been taught to the natives, and in further fulfillment of the pledges of the United States and of the republican party, a constitutional convention has been called for the purpose of drafting a constitution for the independent government of Cuba, and the Cubans are fully satisfied with the faith with which President McKinley has kept his pledges with them, and so they declare through the radical as well as the conservative press of the island. Thus none are dissatisfied except the calamity howling element of democracy. Democratic incompetency would lead them into irreparable blunders, for it is a well known fact that a person suffering from indigestion, dyspepsia, and with the complications of numerous chronic ailments, is incompetent to make sound business transactions—so it is with the present conglomerate democracy with its acute and chronic indisposition.

Where does Mr. Bryan stand on the inconsistent plank on the Philippine question? By article IV of the constitution it is provided that "all treaties made under the authority of the United States are made the supreme law of the land." And by the recent treaty with Spain, it is provided that "The civil and political status of the native inhabitants of the territories hereby ceded to the United States shall be determined by congress."

Senator Hoar, whom Mr. Bryan and the democracy have so often quoted in support of their utterances (for they have no policy) on the Philippine question, says: "He (Bryan), through the votes he controlled, bought 10,000,000 people and paid for them at \$2 a head. He made it the law of the land—for all treaties are the law of the land—that the American congress should dispose of that distant, alien people, whether they liked it or not." This shows but one thing—that Mr. Bryan was guilty of "criminal aggression" then, or he is dishonest as to his "paramount issue" now.

Of the ten millions of people freed from the darkest imperialism not more than 10,000 at any time have denied or resisted the sovereign power of the United States—not more than one in a thousand—and these did so only at the incitation of the calamity howling demagogue in this country. To these agitators and inciters is due the blood of our noble soldier citizens, who had stricken dire imperialism from the Philippines, and who were endeavoring to establish peace and quietude in the islands.

The policy of the present administration is shown to be meeting the wishes of the Filipinos as shown by the recent movements of the late secretary of state and/or Aguinaldo, who says:

"The conciliatory policy pursued by the American government notwithstanding our marked hostility to them; the human treatment of prisoners and their release from prison after short detention only; the installation into public office of the more intelligent Filipinos; the increase in wages and the consequent betterment of the laboring classes; the liberal reform in our laws, and the granting to our towns of a marriage and municipal law eminently democratic, and such as we did not possess even under our own independent government; all this has increased the sentiment for annexation to an extraordinary degree and today there is among us the keenest competition for all government employments."

"Should the time come when our conflicting interests will lead brother to fight against brother we will then indeed be unfortunate and to be pitied. The Americans will dominate under these deplorable circumstances and we will be helpless."

Imperialism! Militarism! What? Who says imperialism and militarism? First Bryanarism, then anarchism, then militarism and then imperialism. There you have it. If this great, grand, free American republic ever becomes a military and imperial power with a tyrant ruler it will come about in this wise, and none other. The demagogue is the thing to be feared in a free country; the agitator, the incitor on insurrections, rebellions and revolutions for the purpose of gaining political distinction is a menace to free institutions and a danger to republics. He who stands ready to secretly aid and abet those attacking the flag of the nation, when some personal or political end is to be gained, is the one whom society must most diligently guard against. He who, by inheritance, traces his ideas and conceptions of government to the Knights of the Golden Circle and the northern copperhead organizations during the civil war is the one who is today screaming loudest for militarism and imperialism for the sole purpose of pulling the wool over the eyes of the masses. The encouragement of his influence to the bloody hand of anarchy at the Haymarket was the most prominent man in the hoodlum convention at Kansas City. Think of it. The monument erected to the memory of those policemen, who so faithfully stood as the defenders of innocent lives and property against the red hand of anarchy, is being pulled down, and hidden away in some out of the way corner of Lincoln Park. Never in the history of the world

has there been so bold and brazen an attempt to mislead the public. Sirs, it is as boldy deceptive as an instance of Satan rebuking sin would be.

The republican party has always stood for the citizen soldier, and so stands today. Men from the ranks of the volunteer soldiery today stand at the head of her ticket. Men, who did not join the army for the sole purpose of drawing their salaries and of having "kernel" added to their names, but men who said "Come, boys" and led their comrades in the thickest of the fight, that imperialism might be stamped out completely and effectually, and that freedom might be made a fact and not merely a name. This cry of "imperialism" and "militarism" in the mouths of copperheads, soreheads, anarchists and hoodlums is a mockery, an insult to every decent American citizen, soldier, and lover of liberty.

NEW BOND BETWEEN NATIONS.

The figures presented in the annual report of the secretary for the Christian Endeavor society have a wide significance. There are, it appears, 3,500,000 members of the organization attached to 59,712 local associations, which are distributed over all the continents. A partial table of the distribution may be put together from the report, as follows:

Table with 2 columns: Country, Members. United States 45,262, France 66, Great Britain 7,000, Jamaica 1,0, Australia 4,000, Mexico 110, Canada 4,000, Madagascar 62, Germany 168, Japan 73, China 181, Turkey 69, Africa 120, Spain 20.

South America has its quota also, and even with this incomplete showing of details we can readily imagine how great the work of the society must be, how splendid its promise. For it is troubled very little by vain debates over orthodoxy, and is bent only on carrying the noblest ideas of the Christian faith into its daily activities and impressing them upon members and non-members alike. To these tasks also it brings the energy and enthusiasm of youth, since its membership is largely drawn from the young, and we cannot doubt that it has an immense effect upon the development of individual character.

But in its recent development it is interesting principally as a strengthening bond between nations. Though its growth in the United States may seem to be disproportionately great, it must be remembered that it had its origin here, and has only just made its appearance in some foreign lands. In the process of time, however, we may expect that its increase will be enormous in all the British dominions, and that it will make a gratifying progress in every country where it has once been established.

This means that there will be a new and powerful influence extending around the world to combat national prejudices and stimulate the desire for a grand human brotherhood of all races which shall live at peace in the practice of Christ's precepts. Such associations are true civilizers indeed, and their evolution is a happy augury for mankind.

THE EXPANSION BUGRAK

"Now, as to expansion. It hardly seems worth while to waste any time upon what the Kansas City people call imperialism and militarism. The dominant note of the Kansas City convention was insincerity. The convention which nominated Mr. Bryan in 1900 was in character infinitely below that which nominated him in 1896. In 1896, for all their wild and dangerous folly, his advocates had at least the merit of sincerity in their bitter fanaticism. However wrongheaded, they believed and they stated it without fear."

"In 1900 their actions were determined purely by policy, and this pandering to the worst and most degraded passions in our national life, had enough in all conscience sake in itself, was rendered infinitely worse because robbed of every vestige of honesty and sincerity."

"It took them two days to find out what they believed about free silver, and this was the only plank concerning which they took the trouble to find out their beliefs at all."

"They reasserted the doctrines of anarchy which they had preached in '96, not because they longer believed in them, but because they hoped, by announcing them, to attract to themselves all men of unsound and violent mind."—Roosevelt at St. Paul.

"I COME to speak to you, not as a republican to republicans, but as an American to Americans."—Roosevelt.

GOVERNOR ROOSEVELT has promised to spend three or four days in Nebraska during the campaign. A special effort will be made to have him visit this city.

REPUBLICANS are confident they will elect C. H. Dietrich governor of Nebraska and hope to carry the state for the national ticket. They base their hopes on the general prosperity, the disaffection among the fusionists and the growing strength of the mid-roads.

GOLD democrats are announcing themselves as republicans. While not in exact accord with all the theories advanced by the party, they think republicanism will suit them much better than the democracy as promulgated by those in control of the party at present and likely to be for a number of years.

INFORMATION AND OPINION.

Not long ago a young man in Portland, Me., bought an old army musket to celebrate the Fourth. A little later he was giving the weapon an overhaul, when he noticed some scratches on the stock that looked like

After giving the stock a good cleaning it was found that the scratches formed the name "Samuel H. Gammon." As "Sam" Gammon is one of the Portland G. A. R. veterans whom everybody knows, the young man was naturally very much surprised at finding his name on the old gun. When the musket was shown Mr. Gammon he at once recognized it as the one he had returned to the government when he was mustered out of service thirty-five years or more ago.

The kissing bug is extending his osculation exercise. He wants something more responsive than human lips to test his powers upon and is now kissing bicycle tires. The effect upon the wheel is about the same as that experienced by running over a picnic ground after a skirmish, in which beer bottles furnished the principal weapons of war.

The democratic party has a world of sympathy for everybody. But the last time the democrats were in control their president stood up for a queen and against men who wanted to make Hawaii a republic.—Wichita Eagle.

POINTS FROM ROOSEVELT'S SPEECH.

The Chinese policy has been consistently against expansion. The Boxers in China are the precise analogues of the Aguinaldian rebels in the Philippines.

The election of Mr. Bryan would cause such financial chaos as to reduce this country to a condition of fearful and acute distress.

A more wicked absurdity than the Kansas City proposition for dealing with the Philippines was never announced by a political party.

Remember that expansion does not bring war. It ultimately brings peace. We are taking the only course consistent with our national self-interest.

If we are to retain the respect of mankind we must not do wrong, and must not endure wrong from others.

Study the Kansas City platform and you cannot help seeing that their policy is the policy of infamy. They (the democrats) pulled down our flag in Hawaii, just as they now wish to pull it down in the Philippines. The Kansas City convention had to rely on the vote of Hawaii before it could settle its views on the financial system.

We appeal to all good men who believe in civic decency.

The dominant note of the Kansas City convention was insincerity. President Jefferson secured the Louisiana purchase just as President McKinley secured the Philippines.

Of all idle chatter the talk of danger of militarism is the idlest.

Will Hold Encampment.

A dispatch in today's State Journal from Weeping Water says: The Baptist young people of southeastern Nebraska will hold their encampment here next Tuesday and Wednesday in the park, and the local committee has made excellent preparations for their entertainment. Considerable time will be given to recreation, and a strong program has been arranged, which needs only the recommendation of such names as Dr. H. O. Rowlands of Lincoln, Professor Alfred M. Wilson of the state university, Rev. C. W. Bristand of Omaha, Rev. C. E. Tingley of Blair and L. M. Denton, recently from Nova Scotia. Rev. W. D. Bancroft of Palmyra is the president, and is leaving nothing undone that will make the encampment a success.

BUCHANAN, Mich., May 22.—Genesee Pure Food Co., Le Roy, N. Y.—Gentlemen: My mamma has been a great coffee drinker and has found it very injurious. Having used several packages of your GRAIN-O, the drink that takes the place of coffee, she finds it much better for herself and for us children to drink. She has given up coffee drinking entirely. We use a package of Grain-O every week. I am ten years old. Yours respectfully, FANNIE WILLIAMS.

A person who drops anything from a moving train ordinarily says "good-bye" to it, but a noteworthy exception was recently observed on the Burlington railroad. A pocketbook containing \$109.25, a gold ring, four rubies and other valuables, was lost by a passenger on the St. Louis-Portland express. Just where was not known, and the train was advancing fifty miles an hour. From the first stop the loss was wired Superintendent Phelan at Alliance, Neb., who immediately sent out a searching party. The pocketbook and jewels were found near the track, three miles from Whitman, in a good condition as when lost. They were returned to the surprised owner the next day.

Funeral of Frank H. Wilson. From Wednesday's Daily.

The funeral services over the remains of Frank H. Wilson, whose sudden death has been a source of much sorrow and regret throughout the city, were held yesterday at the home of L. D. Bennett, conducted solemnly and impressively by Rev. Mr. Burgess. Beautiful hymns, sweetly and softly sung by the choir, soothed as best they could the sorrow that has fallen upon the family so terribly and unexpectedly.

The casket was almost hidden by the lovely fragrant floral tributes from sympathizing friends, each fragrant blossom bearing to those who read aright a message of resurrection and reunion—some time.

The grave was made beautiful by the loving hands of friends—the classmates of Lloyd and Madge Wilson working for many hours lining and covering with flowers and evergreens the rough earth and everything that might be repellent. The body was borne to its final resting place by intimate friends—J. R. Cox, Walter White, Judge Newell, T. E. Parmele, S. Waugh and J. D. Tutt acting as pallbearers.

It was a matter of regret that owing to the uncertainty as to when the remains would arrive many friends outside of the city could not be notified in time to be present. Mr. and Mrs. Elbert Duke and Mr. and Mrs. Fred Knapp, relatives from Omaha, were present.
