KEEP this in mind, the best is none too good for Plattsmouth. Let us try a nonpartisan city government. Is your citizenship above your partisanship.

WE BELIEVE in a non-partisan judiciary, a non-partisan school board, and a non-partisan city government. Do you? If so, then vote for the candidates on the citizens' ticket.

THE Plattsmouth Journal has just gone through two huge fits of hysterics because many of the best citizens of this city have seen fit to nominate a non-partisan ticket, and the republicans endorsed it. We would suggest that the Journal take a few doses of the oil of decency and cut out its spasms of silliness.

THERE is a difference between being one of the incorporators and being a stockholder. The incorporators are the ones who issue the stock and put it on the market. Every business man who can afford it and who is willing to do so, should join the incorporation and agree to take a certain amount of stock. Let everybody get busy and build the interurban.

COUNCIL CANDIDATES.

The city council is the legislative department of the city government. It levies the taxes, makes the appropriations, passes the laws governing the city, allows claims, makes contracts, in fact, is the most important department of the city government.

Messrs. George E. Dovey and J. P. Falter are certainly capable and efficient business men who have achieved success in their own business and will be able to give the city the benefit of their past business experiences. They should receive the unanimous support of the voters in the First ward.

Fred Ramge, of the firm of Kunsman & Ramge, is too well-known to need introduction. Everybody knows Fred and all who know him admire him. There is little doubt but that he will be elected councilman from the Second ward.

L. G. Larson, the carpenter and contractor, has served in the council before and will no doubt be elected by a fine majority at the coming election.

C. M. Parker, of the Fourth ward, is a capable and bright young man and is employed in the B. & M. shops. He is a man of good judgment, good business ability and will make the Fourth ward a splendid councilman.

The Fifth ward will doubtless be represented in the next council by August Gorder. Mr. Gorder is recognized as a man of extraordinary business judgment and has made great success of his own business. He is always careful and is absolutely honest and no better man could be found anywhere to serve the city than August Gorder. He is entitled to the support of all good citizens who have the best interests of the city at heart.

No finer list of candidates for council could be found and we predict that they will be elected, as they certainly should be.

Look the citizens and republican tickets over and note the personnel. They look to us like a good list of men to elect to office in this city.

By ACTUAL count at the republican convention held Friday night the resolution endorsing and nominating the same candidates who were nominated by the Citizens Convention was carried by a vote of 28 to 1. That seems to be a fair representation of the disaffection.

THE Journal is just passing through the greatest historical fit of alarm for the welfare of the republican party. Had the citizens' ticket been nominated, and the republicans had placed a clean, straight ticket of good men in the field, it would be having its usual hysterical fits of heaping abuse on such candidates.

A MAN should interest himself in public affairs. There is no happiness in mere dollars. After they are acquired, one can use but a moderate amount. It is given a man to eat so much, to wear so much, and to have so much shelter, and more he cannot use. When money has supplied these, its mission, so far as the individual is concerned, is fulfilled, and man must look further and higher. It is only in wide public affairs, where money is a moving force toward the general welfare, that the possessor of it can possibly find pleasure, and that only in constantly doing more. The greatest good a man can do is to cultivate himself, develop his powers, in order that he may be of greater service to humanity.

MARSHALL FIELD.

DR. C. A. MARSHALL and H. N. Dovey have for some time served as members of the school board. Their services have been valuable and at one former election they were nominated by both the republican and democratic parties and were unanimously elected. They have been nominated by both the citizens convention and the republican convention and they will certainly be elected.

I WILL NOT FORGET.

This pause before the city campaign begins is or ought to be the time for all good citizens to make good resolutions. Such as:

I WILL NOT FORGET

That the welfare of my home city is above party and the group of politicians who reap all, or nearly all, the profits of victory.

I WILL NOT FORGET

That my first duty is good citizenship, and that this duty should take precedent over party affiliation.

I WILL NOT FORGET

That good clean business government is the first essential to the welfare of any city.

I WILL NOT FORGET

To exercise my own intelligence merely for party's sake.

I WILL NOT FORGET

That the welfare of the whole city depends proportionately on my individual vote.

WHEN you pull down the town in which is your home, your business, you are pulling down yourself, and when you build up your own town you build up yourself and your neighbors. Try and banish from your mind the mistaken idea that good things are away off in some other locality. If you investigate you will find knackers there, too. Give your home town all the praise it can legitimately bear. It will certainly do you no harm, and will cost you nothing, and above all, patronize home institutions.—Louisville Courier.

But no chains will pay less than 45 per cent ad valorem.

nomination of Dr. E. D. Cummins. Dr. Cummins has been one of the active and influential citizens of this city for many years. He has a number of times been nominated by the Democratic party and always elected to office. He is clean, capable, and industrious, absolutely honest and should be elected mayor of this city. If elected, he would give this city one of the most business-like administrations in its history. Dr. Cummins has been a member of the school board for a number of years and has been one of its most attentive, careful and energetic members. In whatever office or capacity he has served the people in the past, he has always given the office his most careful and considerate attention. Every good citizen in this city should cast his vote for Dr. E. D. Cummins, for Mayor.

PERSONALLY, we have always liked Billy Clements, and we were more than glad to see the citizens convention nominate Mr. R. W. Clements for city treasurer, and equally glad to see him also nominated by the republican convention. He has served as city treasurer and as such made a faithful and efficient officer. Such men are entitled in city affairs to the support of all good citizens and we predict that Mr. Clements will be elected as the next city treasurer. Vote for Billy Clements.

IN THE selection of Emmons J. Richey for city clerk by the citizens convention and also by the republican was a wise selection. Mr. Richey is one of the bright, capable and industrious business men of this city. You always find Emmons jolly and good natured. He is careful, and intelligent in his own business and will make a very efficient and accommodating city clerk. The boys and business men all know Emmons and we predict for him a rousing majority at the coming election. Vote for Emmons J. Richey.

LAST, but not least, we come to our old friend Judge Michael Archer. Judge Archer has served this city as police judge for a number of years and while he may have made some mistakes his services have always been considered of the highest kind. Judge Archer has

certainly received a high compliment, having been nominated by the democratic, citizens and the republican conventions. He does not need to worry about his election. Being thus elected he will be under no obligations to any party and he should therefore be able to give the people of this city absolutely impartial and unprejudiced services.

You may find some fellow who says he is a republican and that he is dissatisfied with the republican endorsement of the Citizens ticket. When you find such a fellow just look him over carefully and see if he was not seeking office, of if he has not had the habit of voting for democrats for revenue.

JOURNALISM.

"Every owner, editor, or reporter of a conscientiously and ably conducted newspaper or periodical is an asset of real value to the whole community. It would be difficult to overestimate the amount of good which can be done by the men responsible for such a publication—responsible for its editorial columns, responsible for its news columns, responsible for its general policy. We have many newspapers and periodicals big and little, of this kind. But we also have many that are not of this kind."—Theodore Roosevelt.

SENATOR E. J. BURKETT's fight for better committee assignments has borne good results. It will be observed from an inspection of the senate committees, that much new blood has been added to important committees. Senator Burkett has secured a place on the Appropriations committee. It will be remembered that while in the house he was a member of the appropriations committee. Senator Norris Brown was appointed on the military committee.

THE editor has advocated the building of an interurban railway because he believed it to be right. He has advocated an equal opportunity for all who want to become parties to the in-

THE matter of organizing and incorporating the Plattsmouth and Cass County Interurban Railway should be taken up by all the business men in this city and a home company should be organized and incorporated with all the business men who desire to become incorporators. This will insure the stability of the corporation and also insure the building of an interurban railway. The editor of this paper talked with a financier from Chicago, a few days ago, and he said that if the business men were back of the proposition they need not worry about financing it; that he could procure the funds for building and equipping such an enterprise. He said that he had built and

financed some interurban railways where the opportunities and prospects for business were not nearly so good as the local proposition here. The business men should become the incorporators and organize such company and incorporate it, so that they shall become the owners of the franchise and issue the stock, and sell the bonds, if such were necessary to raise the funds for this enterprise. There is no reason why all the business men in this city should not become members of the incorporation. We urge the speedy organization of such a company.
