

MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Bardstown, Ky.—"I suffered from ulceration and other female troubles for a long time. Doctors had failed to help me. Lydia E. Pinkham's Vegetable Compound was recommended, and I decided to try it. It cured my trouble and made me well and strong, so that I can do all my own work." Mrs. JOSEPH HALL, Bardstown, Ky.

Another Woman Cured. Christiana, Tenn.—"I suffered from the worst form of female trouble so that at times I thought I could not live, and my nerves were in a dreadful condition. Lydia E. Pinkham's Vegetable Compound cured me, and made me feel like a different woman. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold to suffering women."—MRS. MARY WOOD, R.F.D.3.

If you belong to that countless army of women who suffer from some form of female ills, don't hesitate to try Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. For thirty years this famous remedy has been the standard for all forms of female ills, and has cured thousands of women who have been troubled with such ailments as displacements, fibroid tumors, ulceration, inflammation, irregularities, backache, and nervous prostration.

If you want special advice write for it to Mrs. Pinkham, Lynn, Mass. It is free and always helpful.

NEBRASKA NEWS AND NOTES.

Items of Interest Taken From Here and There Over the State, The Midwest Life.

A few evenings ago the president of the Midwest Life was gratified to answer an inquiry by phone as to whether or not his company wrote women. An agent of an eastern company had been trying to sell the wife of the questioner an endowment policy. The husband was a believer in the "Stand up for Nebraska" idea in life insurance as well as in other things, and when informed that the Midwest Life issued insurance on women an appointment was readily made for a representative of the company to call. These are the acts which are appreciated as it is the practical standing up for Nebraska institutions which counts. Surely the people of Nebraska are under no obligation to help make the big eastern companies bigger. That is something which can be left to their own people.

The Midwest Life issues all of the standard forms of life insurance policies at reasonable rates. Write for particulars. Home office 1007 "O" street.

Catholics are building a \$4,000 church at Ansley.

York is doing an unusual amount of building this year.

Florence, Douglas county, is preparing for an old-fashioned celebration on the 4th of July.

The corner stone of the new Roman Catholic church at Blair was laid with imposing ceremonies by Bishop Boncum.

Merrick county is now without a single saloon, the last one in the county, that at Silver Creek, having closed last week.

At Beatrice, Ferreno Bertuca, charged with the murder of John Preuhs, an 11-year-old boy at Wymore, was held to the district court without bail.

The Midwest Life, old line, always is ready to give a reliable man a good agent's contract either for full or part time. Write N. Z. Snell, president, Lincoln, Nebraska.

The Midwest Life of Lincoln will be three years old May 1, 1909. It has \$1,500,000 of insurance in force and is increasing its assets and insurance each month. Agents wanted. Write the home office.

Chicago dispatch: Alleging loss of \$935, Theodore Langston, aged 76, of Tecumseh, Neb., appealed to the chief of detectives and asked help in finding Miss Mary Bodey, a dashing brunette, with offices in the Schiller building, where she carried on a real estate and brokerage business. Langston said he had given her \$935, and that she had promised to marry him, but disappeared.

DOLLAR WHEAT HAS COME TO STAY

IN LESS THAN FIVE YEARS CENTRAL CANADA WILL BE CALLED UPON TO SUPPLY THE UNITED STATES.

A couple of years ago, when the announcement was made in these columns that "dollar wheat" had come to stay, and that the time was not far distant when the central provinces of Canada—Manitoba, Saskatchewan and Alberta—would be called upon to supply a large part of the wheat consumption in the United States, there were many who laughed at the predictions and ridiculed the idea of wheat reaching the dollar point and staying there. Both of these predictions have come to pass. Dollar wheat is here—and it is not only here, but is here to stay; and at the same time, whatever unpleasant sensations it may arouse in the super-sensitive American, Central Canada is already being called upon to help keep up the bread supply, and within the next five years will, as James J. Hill says, literally "become the bread-basket of our increasing millions."

There are few men in the United States better acquainted with the wheat situation than Mr. Hill, and there are few men, if any, who are inclined to be more conservative in their expressed views. Yet it was this greatest of the world's railroad men who said a few days ago that "the price of wheat will never be substantially lower than it is today"—and when it is taken into consideration that at that time wheat had soared to \$1.20, well above the dollar mark, the statement is peculiarly significant, and doubly significant is the fact that in this country the population is increased at the rate of 65 per cent., while the yield of wheat and other products is increasing at the rate of only 25 per cent. For several years past the cost of living has been steadily increasing in the United States, and this wide difference in production and consumption is the reason.

This difference must be supplied by the vast and fertile grain regions of Manitoba, Saskatchewan and Alberta. There is no absolutely no doubt of this. Even the press of the country concedes the fact. Results have shown that no other country in the world can ever hope to equal those provinces as wheat producers, and that no other country can produce as hard or as good wheat. Said a great grain man recently, "If United States wheat maintains the dollar mark, Canada wheat will be well above a dollar a bushel, for in every way it is superior to our home-grown grain."

With these facts steadily impinging their truth upon our rapidly growing population, it is interesting to note just what possibilities as a "wheat grower" our Northern neighbor possesses. While the United States will never surrender her prestige in any manufacturing or commercial line, she must very soon acknowledge, and with as much grace as she can, that she is bound to be beaten as a grain producer. It must be conceded that a great deal of the actual truth about the richness of Canada's grain producing area has been "kept out of sight," as Mr. Hill says, by the strenuous efforts of our newspapers and magazines to stem the exodus of our best American farmers into those regions. It is a fact that up to the present time, although Canada has already achieved the front rank in the world's grain producers, the fertile prairies of Manitoba, Saskatchewan and Alberta have as yet scarcely been scratched. Millions of acres, free for the taking, still await our American farmers; and when these millions are gone there are other millions in regions not yet opened up to immigration. A few years ago the writer, who has been through those wheat provinces several times, laughed with others of our people at the broad statement that Canada was bound to become "John Bull's Bread Basket." Now, after a last trip (and though he is a staunch American) he frankly believes that not only will Canada become John Bull's bread-basket, but it will within the next decade at least BECOME THE BREAD-BASKET OF THE UNITED STATES. Perhaps this may be a hard truth for Americans to swallow, but it is a truth, nevertheless. And it is at least a partial compensation to know that hundreds of thousands of our farmers are profiting by the fact by becoming producers in this new country.

The papers of this country have naturally made the most of the brief period of depression which swept over Canada, but now there is not a sign of it left from Winnipeg to the coast. Never have the three great wheat raising provinces been more prosperous. Capital is coming into the country from all quarters, taking the form of cash for investment, industrial concerns seeking locations, and, best of all, substantial and sturdy immigrants come to help populate the prairies. Towns are booming; scores of new elevators are springing up; railroads are sending out their branch lines in all directions; thousands of prosperous farmers are leaving their prairie shelters for new and modern homes—"built by wheat"; everywhere is a growing happiness and contentment built by wheat—the "dollar wheat," which has come to stay. Notwithstanding this, the Canadian Government is still giving away its homesteads and selling pre-emptions at \$3.00 an acre, and the Railway and Land Companies are disposing of their lands at what may be considered nominal figures.

Some time ago an office boy, answering the telephone for the first time in his life, and not knowing how to use it, was told that when the bell rang he was to answer it.

The answer came back: "I'm 105."
"Go on," said the boy. "It's time you were dead."

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken off and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness caused by catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.
