### SOUTH BEND

Grace Sawyer of DeWitt spent the first of last week with her folks W. P. Sawyer and family.

Mrs. M. E. Lausing was a passenger on the Schuyler Friday evening to Ashland where she spent the evening with friends and relatives.

Mrs. Moorehead and Mary Sawyer were Louisville visitors one day last week.

E. Sturzenegger returned the middle of last week from his sojourn in New York state.

Mrs. Chas. Campbell and son Paul were visiting the home folks in Plattsburgh Friday and Saturday.

Samuel Patterson of Scotts Bluff was the guest of his sister Mrs. H. P. Long the past week.

The Whist club had their final gathering at the A. D. Zaar home where a royal time was had.

Alfonso Sturzenegger came in from Lincoln University to spend the Easter vacation.

The fish car expects to be taken out to Chadron very soon by Superintendent of Fishery O'Brien. Several of these trips are made annually to the streams and lakes throughout the state.

About twenty of the geology class from the state university are here during their Easter vacation collecting specimens for their work.

George Vogle received his appointment as enumerator of this precinct Wednesday.

Mrs. J. W. Berge and mother Mrs. Fountain left Thursday evening for a visit with the former's daughter Mrs. Elda Richardson of DeWitt.

Mrs. J. E. McHugh visited her people near Wabash Saturday.

Geo. Vogle, B. Dill, Clyde Berge were Omaha visitors Saturday.

J. J. Hill has accepted a lucrative position with Rudge Gungel firm in Lincoln and for the near future will make their home there.

Mrs. John Campbell visited her daughter Sarah in Louisville Wednesday.

The people of the community were shocked to learn of the sudden demise of Mrs. Maude Finton. Much sympathy is extended to her people during their bereavement. Several friends from in and around town went to Ashland Wednesday afternoon to pay the last sad respect to the deceased.

Miss Edith Moon of Elmwood was a passenger via C. R. D. & Schuyler to her home in Ashland Saturday.

There is a movement under way by the enthusiasts of the shooting irons to organize a gun club in the city to engage in the sport of trap shooting. J. W. Edwards is soliciting among the hunters of the town to see what the prospects are along that line and if enough young fellows are interested in the pastime a club will be organized at once and the grounds and traps will be secured.

There is a tract of land just southeast of the pumping station that seems to be the only available place in this locality for such a purpose and the owners of the land are to be seen today in regard to the renting of it for the summer. The land is a little

higher than the surrounding ground and it is seldom if ever covered by the overflow of the river.

If the club is formed, it is the intention of the promoters to have a permanent trap installed, and the one used at one of the neighboring towns a McCrea Automatic, has been examined. The local men found that the machine seemed to give perfect satisfaction, having been used for over three seasons, and they are in favor of investing about \$30 in a machine for this club.

The prizes and trophies for the meets have been looked up and it was found that the U. M. C. Company will present the club with a bronze trophy in the form of a dog, the champion hunting dog of the United States, which measures about nine inches in length and is engraved with the winners name when the season is over. The company also offers a gold medal for the person breaking 100 blue rocks in succession and for every additional hundred a small bar is added to the base of the medal.

The prospects seem to be bright for the successful launching of the organization, but if the proposition does not go through, it is very probable that one or two leaders in the sport will purchase an outfit on their own hook.

R. L. Mauzy hit out on No. 6 this morning to attend to some business matters at Burlington, Ia. His train was three quarters of an hour late today and yesterday it didn't arrive till noon, being over four hours late.

### Small Fire at Ledgway's.

At the sound of the fire bell and whistle the hose carts were called out about 11:15 this morning to the home of John Ledgway on Wintersteen Hill. The fire was extinguished some time before the apparatus arrived and the hose was not brought into use.

Mrs. Ledgway started a small fire in the heating stove about 10:30 and it is thought the wind drew some sparks out of the chimney which dropped on the roof, setting fire to the dry shingles. The blaze was noticed by Mrs. Ledgway who hurried to her neighbor's, W. D. Smith for help. When she returned the blaze looked so serious that an alarm was turned in, as the strong wind was in the right direction to fan the small flame into a serious fire.

The loss was very small as it was confined entirely to the outside of the roof but it could not be ascertained definitely whether it was four or five shingles of the house that were consumed.

### At Woodmen Meeting.

Two Plattsburgh members of the Modern Woodmen were in Omaha last night to attend the annual meeting of the lodge at which the state banner is presented to the lodge getting the largest number of new members during the year. The local people, Henry Goos and Dr. Cook returned this morning and reported a jolly time at the meeting. The banner this year was won by

the Omaha lodge, B and M. Camp 945 which secured 102 new members for the year, it's nearest competitor being Wisner which enrolled 95.

A number of the big officers of the lodge were at the meeting and at the presentation was made by Head Consul A. R. Talbot of Lincoln.

### New Veterinarian Here.

Herman Greeder, a veterinarian of wide reputation, is locating in this city from Ames, Iowa. Mr. Greeder has bought the Thomas South place just south of town and will move there with his family from the Iowa town and will open an office at the place for the conducting of his practice. The new doctor has had many years experience in the lines of business which he follows and was for eight years employed by the United States Government as an inspector. The Plattsburgh people join in extending the glad hand to the new man who will come into their ranks.

### Barnyard Reparte.

The proud gander and the cackling hen were arguing.

"But remember one thing," said the proud gander, "it was a goose that laid the golden egg."

"Tut, tut!" scoffed the hen. "With eggs at their present rate we can get enough for our output without laying golden stiffs and losing our heads in the bargain."

For even then the farmer was announcing to his son that eggs had advanced another 6 cents on the dozen.

**Stops Colds and  
Coughing Quick**

If you want to stop that cold right off and in the easiest kind of a way, just get a bottle of Dr. Bell's Pine-Tar-Honey. It's the largest selling Cold and Cough Medicine in the world because it stops coughs and colds quicker than any other known remedy or prescription, and it does that because it gets at the cause—kills the germs of cold—cuts the mucous and gets rid of it naturally.

It contains no habit forming drugs—nothing harmful—only real old fashioned pine-tar, sassafras, rhubarb, honey and other beneficial ingredients—all plainly stated on the bottle.

Made by the same known scientific

process for the past twenty years. You ought to take Dr. Bell's Pine-Tar-Honey just as soon as you begin to feel "coldy"—just the minute your throat begins to tickle—then you'd stave off these colds and coughs.

Keep it in the house—always ready—that's the right way. Every time you sneeze, shiver, "sniffle" or feel "full in the head" you need it.

At all druggists in 25c, 50c and \$1 bottles. Children take it readily.

Look for our trade-mark (the bell) and Granny Metcalfe's picture on every bottle. That identifies genuine Dr. Bell's Pine-Tar-Honey.
