Gives Details of What He Asserts is Game Worked Upon Confiding Interior Districts -- Fortune for a Nebraska Man Miscellaneous State News.

LINCOLN, Oct. 9 .- State Superintendent W. K. The letter is upon blank paper without a letter head and Superintendent Fow-

lows: "MINNEAPOLIS, Minn., Oct. 4, 1901.-State Superintendent of Public Instruction, Lincoln, Neb .- Dear Sir: In your state today there is a clever scheme being worked by uperts in selling charts to rural districts. The chart costs less than \$3 to manufacture, including stand. Notwithstanding they are highly polished and contain much color, they are not worth \$10 to any school.

"The plan is to visit rural districts only and sell for \$30 to \$50. The selling price depends on the cost of bribing the majority of the board. The agents have to qualify before they operate and they are 'past masters' in finding out susceptible members of the board. The bribe is anywhere from \$5 to \$10 per member. As soon as the county is worked all time paper is sold to local banks at 10 to 25 per cent discount. An expert agent is worth to his firm \$5,000 a year. In some cases county superintendents recommend the price, but if they condemn the thing, the agents ostensibly leave the county; then their leader calls his men from other parts of the state and they rush the county to a finish, oft- person at all informed in registration entimes before the superintendent is methods could have said from the aware of it.

"M. F. BURDETTE." As long ago as last April Superintendent Fowler published the following in the Nebraska Teacher:

"A chart agent has been roaming the counties west of Lincoln during the past month, not only seeking whom he might devour, but devouring all, or nearly all, of those he saw. The gentleman claims to have a recommendation from the state superintendent, but the records and letter copybooks of this office show nothing of the sort. We think he is mistaken. and his conduct impels us to the following decision for self-protection. Henceforth, we will refuse to write, dictate, grant or sign any testimonial or recommendation whatsoever of any school charts, without regard to their merit, color or prospect of servitudethat is, usefulness."

THE LAST YACHT RACE

Columbia Wins Three Straight and the American Cup Will Stay.

LIPTON VERY MUCH DISAPPOINTED

Last Race Proves Hardest of All-Shamrock Leads Most of the Way-Outdone, However by Time Allowance-Lipton Gives Three Cheers for Columbia.

NEW YORK, Oct. 5 .- With victory flags flowing from its towering mastheads and the ends of its spreaders in honor of its concluding triumph in the cup races of 1901, the gallant sloop Columbia returned to its anchorage under the escort of the entire excursion fleet. It completed its defense of the honored trophy in another stirring race with Shamrock II over a leeward and windward race of thirty miles, crossing the finish line two seconds behind its antagonist, but winning on time allowance conceded by Liptens' boat by forty-one seconds.

For the second time it has now successfully foiled the attempt of the Irish knight to wrest from our possession the cup that means the yachting supremacy of the world. And plucky Sir Thomas Lipton, standing on the bridge of Erin, led his guests in three hearty hurrahs for the successful defender.

"Columbia is the better boat," he said, "and deserves to be cheered." The series of races just closed will always be memorial as the closest ever sailed for the cup and Sir Thomas, although defeated, will go home with the satisfaction of knowing that his golden yacht is the ablest foreign boat that ever crossed the western ocean.

During both series of races not an untoward incident has occurred and Sir Thomas will return to England far the most popular of all the foreigners who have challenged for the Americas' trophy.

Yesterday's race on paper was the closest of the series, but because of the flunking of the wind on the beat home as a contest of the relative merits of the yachts it is not to be compared with the magnificent, truly-run and royally fought battles of Saturday and those of Thursday last. The conditions of the race at the start yesterday were very similar to those of Thursday. The wind was strong and from the shore embroidering the sea with foam and piling up no swell-ideal conditions for the challenger.

The racers were sent away before the wind, each carrying penalty for crossing the line after the handicap gun. No official record is kept of the time after that gun is fired, but the experts with stop watches estimated Columbia's handicap at fifteen seconds and Shamrock's at thirty seconds. The contest of the yachts fleeing before the following wind was picturesque, but not exciting. The big racers, like gulls, with outstretched pinions, had every inch of canvas spread, all of their light sails, including bulging spinnakers and balloon jib topsails.

While taking his defeat gamely, Sir Thomas Lipton made no attempt to conceal the honest disappointment when he talked about the races on the Erin. "I am very disappointed." he said. "I cant' hide that. I thought within fifteen minutes of the finish that we had won. I was sure as my ed around the situation had changed and we had lost. It was a hard blow to be so near winning and then to lose. I should like to have got one race, just by way of consolation. It is a very hard thing to be beaten by a breath-by a few beats of the pulse.

Cnurchill Startles Them. LONDON, Oct. 5 .- Winston Spencer Churchill, speaking last night at Oldham, delivered himself of another sevore censure of the war policy of the government. Cattle-The supply of cattle was much

lighter than was expected, so that the

around on anything at all desirable. The supply for the two days this week is considerably short of the receipts of the same two days of last week. There were a few corn-fed steers on the market and they said 5000c higher without difficulty where the quality was at all desirable Packers all seemed to want them and as a result they changed hands quite rapidly. The commoner grades, of course, were not in as good request, but sti even those brought strong prices. A big proportion of the receipts was made up of cow staff, about forty cars being on sale. Packers, however, were all very liberal buyers, and as a result the market was active and a good dime higher than yesterday. There were a good many stockers and feeders in the yards today, but the demand was equal to the occasion. The choicer grades of heavyweights sold the best, the same as usual, and in fact advanced a dime. Although most everything in the yards was from the range country, there were very few grass steers good enough for killers, and the quality of those that did arrive was rather common. Packers, however, took hold in good shape and the market could be quoted 5@10c higher and active. Cows improved a dime and so also did anything at all good in the way of heavy feeders.
