Telephone Company Barred Out.

As predicted by the Journal last week, the city council of South Omaha has barred out the Plattsmouth Telephone company from entering their town by insisting on conditions which the local company will not comply with. The council was willing to grant a franchise but demanded a royalty of \$300 per year for the first two years, \$500 per year for the next three years, and for the next five years \$750 per year. The telephone company will not agree to these terms, and the matter will be submitted to a vote of the people at the April election.

While the South Omaha council is wholly right in insisting on pay for the use of streets by the telephone company, it is grossly unfair in demanding pay from one company and allowing a competing company to operate free. The Nebraska company feels the keen opposition of the independent company, and will spare no efforts to keep them out of the South Omaha field, and some interesting times may be looked for when the matter is submitted to a vote of the people.

Council Engages Counsel.

Mayor T. E. Parmele and Councilmen Ed. Fitzgerald, T. M. Patterson, August Bach, John Lutz, and City Attorney A. J. Beeson went up to Omaha last Saturday and held a conference with the attorneys for the bondholders of the gas and electric light company. Their visit was fruitless in regard to effecting a settlement, the bondholders' attorney offering the city a jug-handled proposition to the effect that the city was to assume the payment of the bonds and the interest rate on the same would be cut from six to three per cent. In other words, if the city will generously assume the indebtedness of the Plattsmouth Gas and Electric Light company, amounting to \$30,000, the holders of the bonds will only charge the city \$900 per year, instead of \$1800, for the privilege of so doing.

The council desires to avoid a lawsuit if possible. They do not want to pay out several thousand dollars to lawyers for defending a case in which the city has no interest whatever, but apparently do not know how to proceed in the matter. They are afraid to entrust the case to the city attorney alone, and at the last meeting decided to pay two additional lawyers a retainer of \$200, which decision has since been rescinded for the reason that it was feared another cipher would have to be added to the retainer fee before the city was through with the lawyers, unpleasant memories of the high school bonds, county-seat and water company cases looming up as horrible reminders of past litigation. Apparently, neither the mayor nor council wants to assume the responsibility of hiring additional counsel to look after the city's interest in the case, and each seek to shift the responsibility on the other.

Doings in District Court.

In the case of William J. Jones vs. the Duff Grain company, wherein the plaintiff sued for personal damages sustained by him in a runaway at defendant's elevator at Greenwood, the jury found for plaintiff and assessed his damages at \$1,250.

The case of Thomas P. Sammons vs. Thomas Sullivan was tried on Saturday and the jury found for plaintiff, awarding him a judgement for \$20. This was a suit for damages caused by slander, the plaintiff having been charged with stealing corn.

In the case of the County of Cass vs. John P. Ryan and others, a tax foreclosure, the sale of the town lots in Greenwood was confirmed and deed ordered made to the purchaser.

On Monday morning George Walker entered a plea of guilty to the charge of burglarizing a store at Avoca, and Judge Jensen sentenced him to imprisonment in the penitentiary for a term of four years.

Frank Work, alias Dr. Koch, also plead guilty to horse stealing, having hired a rig at a Nebraska City livery stable which he sold to Dave Woodward at Weeping Water. Judge Jensen also sentenced him to a four year term in the penitentiary.

In the case of Christian Mockenhaupt vs. Robert T. Rochford, a case growing out of the failure of the latter in the hardware business at Louisville and where a receiver for the business was appointed, the final report of the receiver was accepted without objection, the receiver discharged and his bondsmen released from obligation.

In the case of Adolph Steinkamp vs. Henry Gabel, a personal damage suit growing out of the shooting of plaintiff by defendant near Louisville several years ago, the former order of the court was set aside and the case re-

Through Cars to California.

The Burlington's through car service to California is as follows: Standard sleepers—daily, Omaha, Lincoln, Hastings and Oxford to San Francisco, connecting at latter city with fast train for Los Angeles.

Tourist sleepers—personally conducted—every Thursday, Omaha, Lincoln, Hastings and Oxford to San Francisco and Los Angeles.

Tourist sleepers—personally conducted—every Wednesday and Thursday, Kansas City, St. Joseph, Wyome, Superior and Oxford to San Francisco and Los Angeles.

All these cars run via Denver and Salt Lake City, passing the magnificent mountain scenery of Colorado by daylight.

The tourist sleepers are of the very latest design. They are wide vestibuled and lighted by gas. The seats have high backs, and the aisles are carpeted. The linen is clean and of good quality.

If you expect to spend the winter in California, it will pay you to write for "California Tours, 1901-2," a 40 page folder which will be ready for distribution early in November. It contains just the information the California traveler needs—maps of California and the various routes to it, a list of California hotels, estimates of the cost of a month's stay, information in regard to excursion trips, climate, out-of-door sports, suitable clothing, etc. Free. Al. Primrose, advance agent for Primrose & Dockstader's minstrels, was in town on Wednesday, and while here renewed acquaintance with Ed Oliver, a boyhood friend of thirty years ago, when they both were employed as bell boys at a hotel in London, Canada.

The price of farm land in Cass county is steadily advancing, with good prospects for a continued advance. At present prices for good land range from \$40 to \$75 per acre, according to improvements thereon, and not much land is for sale, while there are several tenants for every piece of land that is for rent. The good prices for all farm products during the past few years is the cause of the advance in land prices, and farming lands is very desirable property to own just now.

The case of Charles C. Parmele and others against Lafayette O'Neill and others has been settled and dismissed.

Judge Jensen adjourned district court on Wednesday until next Monday when cases that have been set for trial will be heard. The judge is somewhat under the weather, and will probably adjourn court until the first week in December, when the remainder of the cases set for trial at this term will be heard.

The North Platte Valley.

Northwest Nebraska offers some wonderfully good opportunities to the man or woman with a little money to invest in irrigated land. Excellent irrigated land can be had now for \$12 to \$15 an acre, but it is plain to those watching the development of the north Platte valley that this low price is just about to fade away. The farmers of this valley are now reaping an abundant harvest. Alfalfa, corn, wheat and garden vegetables yield good profits.

There are also good openings in the livestock business. If you are interested in the north Platte valley, write for our booklet describing it. It is free. J. Francis, general passenger agent, Burlington Route, Omaha, Nebraska.

Robbed Near Nehawka.

Wednesday morning's World-Herald says: John Weir, a Nebraska City bill poster, arrived home from the vicinity of Nehawka, where he had been posting bills, in a most pitiable condition, and is now confined to his bed. According to history, on Saturday evening, while a mile and a half south of Nehawka, he was set upon by five masked men, who beat him insensible and left him for dead, after rifling his pockets. They cut the ivory rings from his harness and threw them into the rear of the wagon, where he remained until Sunday morning without having regained consciousness. When he arrived home Monday evening a physician had to be called to dress his injuries. The robbers only secured \$2.75 in money and what trinkets he had in his pockets.

Getting Ready for New Bridge.

A force of railroad civil engineers arrived in town Monday morning from Lincoln, and have since been at work doing the preliminary work, getting levels and running lines, for the new railroad bridge which the B. & M. will build over the Missouri river near their present bridge. Just what kind of a bridge will be built, whether it will be an entirely new structure or an enlargement of the present one, is not definitely known outside of railroad official circles, but it is quite probable that an entire new double-track bridge will be built, to be in unison with the double tracking of the entire main line of the Burlington system. Work on the new structure will be begun as early as possible.

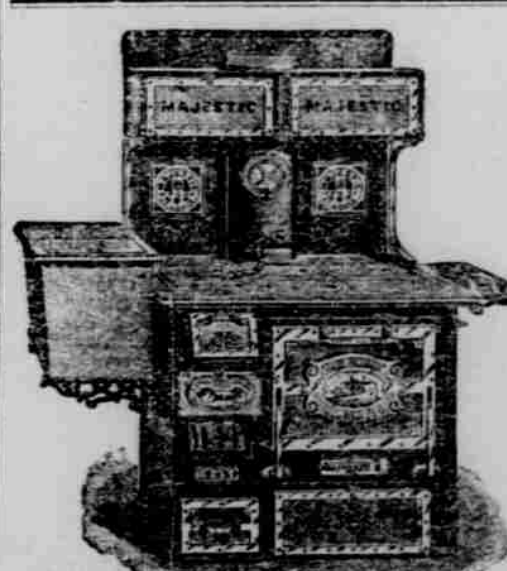

On the Iowa side of the river the country in the vicinity of the bridge is thickly studded with surveyor's stakes, preparatory to putting in side tracks and switches for the purpose of unloading material for the new structure.

Editor Lee J. Mayfield, of the Louisville Courier, J. A. Clements, of the Elmwood Leader-Echo, and Charles L. Graves, of the Union Ledger, were in the city on Monday. The latter took in the show at the Parmele that night, and was tickled all over at the crack "Uncle Josh" made about living at Rock Bluffs.
