Ralph White, local manager of the Nebraska Telephone company, carried around with him for several days a very bad eye, the result of the end of a wire flying up and striking him near the left optic, while at work stringing a line on Chicago avenue Friday. The labor organizations of Nebraska City are making arrangements to have a big time in that city next Sunday. After a general meeting, in which a program will be carried out, a parade over the principal streets of the city will be in order.  
There seems to be no truth in the report that Milton Polk, formerly of this city, had gotten lost in a snow storm on his way from Lead, S. D., to Thunder Mountain. It was one of these supposable canards that usually "die a bornin'." No danger of Milt getting lost in such a little thing as a snow storm.  
Spring freshets will soon be a source of much anxiety to the merchants on Main street again, and it looks to a man up a tree as though some maneuvers were being made to prevent a repetition of the floods of last season. May Their Fondest Hopes Be Realized.  
Word comes from Louisville that arrangements are being made to prospect for coal. It will be remembered that several weeks ago what has been declared an excellent quality of anthracite coal was discovered near that city, but the owner of the land, not being in shape financially to continue work of investigation by boring, some of the citizens of Louisville have interested themselves in the matter to the extent of securing men of capital also interested. Mr. John Latimer, the architect on the new school building has also taken considerable interest in same, and has been instrumental in securing several Omaha gentlemen with the necessary means to proceed with the work of unearthing the dusky diamonds; and the Journal hopes that the fondest expectations of all interested may be fully realized.

A. M. Stratton and wife are here from Weeping Water visiting the latter's mother.  
Phillip Wurttenburger, foreman of B. & M. car repairing shops, at Deadwood, S. D., came in Monday evening for a brief visit with Plattsmouth friends.  
Carl Humphrey, who has been in the employ of the Wear Commission Co., at this place and at Auburn, Neb., is now with the Campbell Company at Omaha.  
The B. & M. has had a number of men at work this week repairing its sewers. It would also be a good idea for the city to be on the lookout for their sewerage ere the spring rains fit in.  
Mrs. Clara Zuker and Miss Rose Shaal, of New York City, who came west to attend the wedding of Miss Sarah Shaal, which takes place in Omaha next Sunday, visited several days in this city, the guests of Mr. and Mrs. M. Fanger. The ladies are sisters of the prospective bride.  
August Anderson, of the B. & M. car repairing department is minus a couple of toes since last Monday. A heavy iron bar leaning against the side of the building was in some manner jarred loose, and being in close proximity, it fell on one of his feet mashing two of the toes so badly that amputation became necessary.  
Before fully recovering from the first operation Mrs. P. E. Ruffner had another performed, that of removing a goiter from the neck, which operation was performed only a few days ago. While the last was also a serious operation, the Journal is pleased to learn that she is getting along as well as could be expected under all circumstances.

A Beautiful Country Wedding.  
A very pretty wedding occurred at the home of Mrs. Mary Schaefer, four miles south of Cedar Creek, on Wednesday afternoon, February 25, 1903, at 2 o'clock. The bride, who was led to the hymenial altar, being Miss Mary Schaefer and the lucky bridegroom Mr. Henry Lautenschlager. Promptly at the hour named, the words were pronounced by Rev. Fred Spreigel that joined in connubial bliss two happy hearts, in the presence of a large number of relatives and friends of the contracting parties. After the ceremony refreshments consisting of all that goes to make up a most beautiful wedding feast, was served, of which all present partook and enjoyed. Mr. and Mrs. Lautenschlager were the recipients of numerous useful and valuable presents, a list of which is promised for the next issue of the Journal. Our information regarding the wedding was received by telephone, and it is impossible to give a complete notice of the happy event as we would like. However, the Journal wishes the bride and groom happiness and prosperity as they journey hand in hand through life, and may their pathway always be strewn with the choicest of flowers.

The measles have ceased their work of demoralization for lack of victims. We trust parents and pupils will do all in their power to see that work lost while detained at home is made up. We want our usual percentage of promotions. On account of the time lost by the quarantine we decided not to give our regular patriotic programs this month.  
We are pleased to note the improvement in many cases where the cards were marked "fair" or "poor" since the parents have received the reports. This is another proof to me that these reports should reach the parents more frequently.  
Parents whose children are not doing satisfactory work are sure to interview the teacher. Do you, whose child's report is commendable, think to give a word of cheer to his teacher as you have occasion?  
I wish each one who reads this report would determine to visit some room this month. E. L. ROUSE, Superintendent.

Wasted Affections.  
A somewhat of a sensation comes from Louisville in the shape of a threatened breach of promise suit, in which Mrs. Amelia Sherman figures as plaintiff and demands the sum of \$10,000 for a failure to carry out the promises made by Mr. Chas. Gaebel, who is "old enough and ought to know better." From what the Journal is able to learn the lady in the case claims that Gaebel promised to marry her, and has failed to carry out the promise to do so and to love and protect her the balance of her days. Both are old residents of Louisville and well connected. The culmination of the suit will be looked for with considerable interest by those who are well acquainted with both parties, and as is usually the case in such trials, some startling disclosures are expected by the most credulous neighbors.  
A special dispatch from Des Moines, Iowa, under date of February 23, states that the trial of Frank Baird began at Knoxville, Iowa, on the same date, and that the application for a continuance had been refused by the judge. Our readers will no doubt remember the circumstances in this case, as a full report of the particulars appeared in these columns several weeks ago. Baird being a former resident of this city, the final outcome will be watched for with considerable anxiety.

Gaebel, who is "old enough and ought to know better." From what the Journal is able to learn the lady in the case claims that Gaebel promised to marry her, and has failed to carry out the promise to do so and to love and protect her the balance of her days. Both are old residents of Louisville and well connected. The culmination of the suit will be looked for with considerable interest by those who are well acquainted with both parties, and as is usually the case in such trials, some startling disclosures are expected by the most credulous neighbors.  
A special dispatch from Des Moines, Iowa, under date of February 23, states that the trial of Frank Baird began at Knoxville, Iowa, on the same date, and that the application for a continuance had been refused by the judge. Our readers will no doubt remember the circumstances in this case, as a full report of the particulars appeared in these columns several weeks ago. Baird being a former resident of this city, the final outcome will be watched for with considerable anxiety.
