More Improvements.
Mr. C. Heisel informs a Journal reporter that he and his sons have let the contract to remove the old machinery from the Plattsmouth Mills and replace it with new works of the very latest improvements. As Mr. Heisel says: "The machinery will be up to date, and another story will be added to the building. When completed the mill will be one of the best in the state." This is certainly good news to the people of Plattsmouth, and to repay Mr. Heisel for his valuable improvements, they should make it a point to hereafter use only Plattsmouth flour, which undoubtedly will prove as good as any made in Nebraska or elsewhere.

Robbed the Grave.
A startling incident is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed, at F. G. Fricke & Co's drug store.

SEVERE ATTACK OF GRIP.
Cured by One Bottle of Chamberlain's Cough Remedy.
"When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterprise, Shortville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would or could knock out the grip, simply because I never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only to be of late duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all druggists.

Wortman's Appointment.
(Ashland Journal.)
Prof. C. S. Wortman, jr., has been appointed school superintendent of Cass county by the board of commissioners, vice W. C. Smith, resigned. The Journal congratulates the board on its choice. Prof. Wortman is an excellent young man in every respect, and a thorough educator. He has had considerable experience, serving as principal of schools at Laurel for two years and as superintendent at Hartington for two years, giving entire satisfaction in both places. When appointed he was doing university work at Lincoln. He was appointed on the 13th inst., and will assume the duties of the office on the first of April. We extend our hearty congratulations.

(Louisville Courier.)
When the county commissioners appointed C. S. Wortman as superintendent we were inclined to think that perhaps they had made a mistake and that he was not qualified for the place, but we learn by making inquiry that he has a good first grade certificate and has had considerable experience as a teacher. He has also been a student in the state university and is better qualified than either of the other two or three democrats who were applicants for the place. We never felt as some that the place would go to a republican, from the fact that Mr. Smith was a democrat and two members of the board of commissioners were also democrats. Had Mr. Smith been a republican we feel sure he would have been succeeded by a republican. In the light of all these existing conditions we at no time expected to see a republican receive the appointment. Mr. Smith has made an excellent officer and it was with genuine regret that his many friends learned of his determination to quit the ranks of educators.

A Presentiment.
Many people are unbelievers in presentiments, and make sport of anything of the kind ever coming to pass, yet we learn of one that undoubtedly proved true in this city. A married man who is employed on the works at the B. & M. bridge got up as usual last Saturday morning, making arrangements to go to his work, when his good wife approached him and begged him to lay off that day. When asked why she desired him to do so, she told him that she dreamed the night previous that a terrible accident had overtaken a number of workmen on that structure, and did not want him to go to work that day. He laughed at her, but finally, in order to pacify her he concluded to lay off that day, and he did. The accident that happened that evening was almost as it appeared to her in her dream. Did she save her husband from injury, and perhaps death, by this presentiment? It would look that way.

The Mystery of Life.
Professor Loeb of the university of California devotes most of his time to experiments in order to remove the hitherto impenetrable veil covering the mystery of life. After the mystery of life and death will be unveiled he believes life could be prolonged at will. We cannot believe that possible. To preserve the vital strength and the regular action of all organs by Triner's American Flixir of Bitter Wine means not only to prolong life, but to make comfortable. This remedy strengthens the stomach and brings it to activity; thus the food will be easily digested and changed into pure, rich blood—the guaranty of health. It is the best blood purifier, prepared by nature; it contains only natural grape wine and natural herbs, nothing else. At drug stores and at the manufacturer's, Jos. Triner, 789 south Ashland avenue, Chicago, Illinois.

Mr. and Mrs. J. W. Pittman, of Union, were in the city Monday, and Mr. Pittman availed himself of the opportunity to call on the Journal and renew his faith in our democracy for another year. Mr. Pittman is one of the pioneers of Cass county, coming here in 1859, and is one of our most highly respected citizens as well as staunch democrats.

Dr. T. P. Livingston returned last Thursday from McCook, where he went the previous Tuesday on business connected with the B. & M. railroad. While there he visited C. A. Dixon, a victim of the Minden wreck, and who has since died as a result from the injuries sustained. The unfortunate man had been in the employ of the B. & M. for about forty years, and for a number of years was an engineer running out of Plattsmouth. He has a number of relatives living here.

Superintendent of Schools.
C. S. Wortman assumed charge of the affairs of the office of county superintendent of schools yesterday, to which position he was recently appointed to fill out the unexpired term of W. C. Smith. Mr. Wortman, in company with Commissioner Falter gave the Journal a call Saturday morning. He has the appearance of a gentleman in every sense of the term, and we believe will fill the position to the entire satisfaction of all interested in good schools. Mr. Wortman will get his family removed here this week.

Now's the time to take Rocky Mountain Tea; it drives out the microbes of winter; it builds up the stomach, kidneys and liver. A wonderful spring tonic that makes sick people well. Gering & Co.

TO MAKE CONNECTIONS.

The Independent Telephone Managers Meet in Lincoln.

The following is taken from the Lincoln Evening News of Friday, March 26th, 1903:

"It has been understood all along that the proposed new Western Union Independent Telephone company maintained friendly relations with the independent telephone systems of the state, which had sought in vain for connections with Omaha, Lincoln and other cities which would materially increase the value of the rural service to patrons, and there were probably no more highly pleased people to be found anywhere than were the promoters of independent telephone systems in this section at the announcement that an independent company had broken into Lincoln.

"At a meeting of the Bills brothers with E. H. Pollock, manager of the Plattsmouth telephone company and E. C. Hansen of the Fairbury company held yesterday mutually satisfactory arrangements were made to connect the last two companies with the Lincoln exchange of the new independent company. The plans as formulated at the meeting will open up to Lincoln subscribers of the new company close to two thousand phones, subscribers to the Plattsmouth and Fairbury companies. Besides the Plattsmouth company has already exchange arrangements with companies in southwestern Iowa, northwestern Missouri and northern Kansas. Including these companies Mr. Pollock said last night that it would put Lincoln in communication with 290 towns. Another result of the conference will be the withdrawal of the franchise ordinance in the granting the Plattsmouth people right of way for a toll station in Lincoln.

"The impression has gone out, that we are fighting the Bills company," said Mr. Pollock last night. "This is not true; we are working in perfect harmony and to correct this false impression we have decided to withdraw the ordinance. We will make direct connection with the Lincoln company, arrangements for which were made today."

Mr. Pollock's company has extended its line to Havelock and will begin work as soon as possible to build it to the city limits.

Mr. Hansen of the Fairbury company expressed great satisfaction at the outcome of the conference.

"I consider it the greatest event in independent telephone circles except the granting of the franchise to the Bills people that has happened. There was a good chance for a rupture in case either party stood out for his own interests to the detriment of the others. If that had happened it would have been disastrous to the independent interests. We have been looking for a long time for a way to get into a good wholesale center. Heretofore our patrons have been unable to reach any wholesalers except in St. Joseph. This agreement will give us just what we were after. It was consummated without the least friction."

The territory in which the Plattsmouth and Fairbury companies operate comprises practically all of the counties east of and including Saline and Jefferson and as far north as the night previous that a terrible accident had overtaken a number of workmen on that structure, and did not want him to go to work that day. He laughed at her, but finally, in order to pacify her he concluded to lay off that day, and he did. The accident that happened that evening was almost as it appeared to her in her dream. Did she save her husband from injury, and perhaps death, by this presentiment? It would look that way.

Mr. Hansen who is secretary of the state association said that a meeting of the association will be held in Lincoln at which Colonel J. Hill will confer with the managers of practically all of the local companies of the state regarding connections. He expressed the opinion that within a short time the Lincoln exchange will be connected with every village and hamlet of any importance in the eastern part of the state. The independent companies are so situated that they have close to 12,000 telephones in operation over the state.

The Plattsmouth company have besides the main exchange at Plattsmouth systems in Havelock, Weeping Water, Louisville, Elmwood, Eagle, Union, Murray and Ashland. They are now installing a system at Nebawka. It is rapidly expanding especially in farm lines.
