REFUND OF BONDS.

Secretary Shaw Makes an Important Announcement.

WASHINGTON-The secretary of the treasury Thursday published a circular announcing on and after April 1, 1903, he will receive for refunding under authority of section 11, of the WHAT THE NEXT STEP WILL BE act of March 14, 1900, to an amount not exceeding \$100,000,000, any of the bonds of the 3 per cent loan of 1908-General Had to Report Regarding 1918, and the 4 per cent funded loan of 1907. They may be surrendered at prices yielding to the investor an income of 214 per cent per annum, Booth of the Salvation Army a great and the new bonds will be issued in exchange at a premium of 2 per cent. Accrued interest on both old and new bonds will be calculated to date of

exchange. There are now outstanding about \$97,000,000 3 per cent bonds and \$233,-000,000 fours of 1907, which are affected by the circular issued Thursday. There are also outstanding about

\$446,000,000 of the 2 per cent consols of 1930, issued under the act of March 14, 1900. These 2 per cent bonds were issued in 1900 at par under provisions of the refunding act. If the new bonds were to be issued now at par there would be a profit to the owners of the bonds, taking the present market valuation as a basis, of about 4 on it. per cent for the 3 per cent bonds surrendered, and about 5% per cent for the fours of 1908.

The secretary desires to obtain an equitable share of this profit for the government, which is the reason for charging a premium of 2 per cent under the new bonds to be issued.

The circular will contain full partie ulars for the guidance of those who desire to avail themselves of the privilege of refunding and will be sent to each owner of registered bonds of the two loans in question.

The 5 per cent bonds of 1904 will not be received for refund under this circular, but will be reserved for re demption. They mature February 1 1904. NEW YORK-The offer of Secre tary Shaw seemed to come as a sur prise to bond brokers, some of whom professed to be unable to understand its scope or purport. It was generally looked upon as an emergency or relief measure, inasmuch as the offer will release from \$5,000,000 to \$8,000,000, the amount depending entirely upon the proportion of 3s or 4s turned in.

One broker thought the proposition was designed to induce banks to increase their circulation. Nobody could trace any connection between the offer and the coming Panama canal payment.
