## COLONIZATION OF THE SOUTHWEST

### Aid and Inducement Offered by the Missouri Pacific Railway.

The Missouri Pacific Railway is bending every effort towards developing the agricultural, mineral and industrial resources of the west and southwest. To attain this end, it asks the aid and co-operation of every farmer, miner, merchant and professional man along its lines.

The development of the products of any section of the country means just so much more capital to be spent in that section. Prosperous neighbors make a prosperous community, especially if they have their interests at home.

It is this class of persons that the Missouri Pacific Railway asks the patrons along its lines to invite to their sections.

You furnish the names and addresses and we will furnish the necessary descriptive and illustrated literature to induce them to settle in your community.

We wish to colonize the west and southwest, and offer every inducement in the way of excellent transportation facilities and low rates to all prospective settlers and homeseekers.

H. C. TOWNSEND, General Passenger and Ticket Agent St. Louis, Mo.

**THE DR. FORD'S BLACK-DRAUGHT THE ORIGINAL LIVER MEDICINE**

A sallow complexion, dizziness, biliousness and a coated tongue are common indications of liver and kidney diseases. Stomach and bowel troubles, severe as they are, give immediate warning by pain, but liver and kidney troubles, though less painful at the start, are much harder to cure. The doctor Black-Draught never fails to benefit diseased liver and weakened kidneys. It stirs up the torpid liver to throw off the germs of fever and ague. It is a certain preventive of cholera and Bright's disease of the kidneys. With kidneys reinforced by The Doctor's Black-Draught thousands of persons have dwelt immune in the midst of yellow fever. Many families live in perfect health and have no other doctor than The Doctor's Black-Draught. It is always on hand for use in an emergency and saves many expensive calls of a doctor.

Aullin, S. C., March 10, 1901. I have used The Doctor's Black-Draught for three years and I have not had to go to a doctor since I have been taking it. It is the best medicine for me that is on the market for liver and kidney troubles and dyspepsia and other complaints. Rev. A. G. LEWIS.

Dr. Butler received word last week from A. W. Beach, who is in Lorain, Ohio, at the home of Will Jones, stating that Mr. Jones' mind had become deranged. Will has had two sun strokes and the doctors think the effects resulting from them and worry over business matters has brought on this condition. He was taken to an asylum a few days ago, where his friends hope he will be cured. Mr. and Mrs. Beach are with Mrs. Jones and will remain there for the present. This is sad news and Mrs. Jones and the children have the sympathy of many friends here in their former home.

The Plattsmouth telephone company have issued a new book for the county. It shows 109 phones in Weeping Water and 46 on the 3 farmers, lines connected with the central station at this place. George Kennedy, the company's electrician was here last week and made arrangements to have a new and larger cable put in, which will accommodate at least 50 more phones than the present cable. New subscribers are being added in town as fast as the company can get connections made, while in the country not now served, the farmers are anxiously awaiting the advent of the service in their respective neighborhoods.

Lewis Crabtree has been on the sick list since Saturday. Dr. Brendle waited on him and he is convalescent.

J. F. Cook went out to Kearney last week, and as he has not yet returned there is some apprehension least wolves may have made a light meal of him.

Our mail carrier is again at his post, or post wagon, and delivery of mail on route No. 3, goes merrily on.

The infant child of Mr. and Mrs. Wm. Wenke was taken sick a few days ago. Dr. Gilmore was called, and it is greatly improved.

Measles, probably from lack of material to work on, seem to have taken flight, as there have no new cases developed here lately.

Wm. Wenke made a flying trip to Weeping Water (if such a trip were possible on the M. P.) on Tuesday.

John Schlotman hauled hay on Monday and Tuesday. He reports the roads in fair condition for heavy wheeling.

Mynard camp M. W. A. 5306, went to Plattsmouth on Tuesday evening to witness the goat riding by a few who think they are some at riding his Williamskip. A great time was had of which we will give you "more anon."

MR. TODD DENIES REPORT. It is very seldom indeed that a person has an opportunity to read his own obituary, but that is the condition of affairs that came near confronting our venerable friend L. G. Todd who resides a few miles northeast of town. Yesterday morning messages came here from Plattsmouth and other places asking as to Mr. Todd's death, but how the report originated we are unable to learn. No news came from Mr. Todd's home, and yesterday afternoon the Ledger sent a special reporter to investigate. Mr. Todd was found to be very much alive, and was somewhat amused over the incident. To settle all doubt he sent us the following statement:

"AT HOME, March 26th. Editor Ledger: I have been creditably informed that L. G. Todd of Union was a dead man, cause not known. If it is a fact that the said Todd was dead he has hopped from death into life without serious loss of mental or physical force. We sincerely hope no Todd has died.

Yours truly, L. G. TODD."
