During the fore part of the winter she was kept at home by the sickness and death of Mr. Newham and since then she has been very ill for some time, but we are glad to note that she is improving although quite feeble yet.  
 Fred N. Hugunin of St. Louis, Mo., superintendent of time service and watch inspector for the Missouri Pacific railroad company, was here last week and appointed T. C. The company has never had a time inspector at this place but contemplated naming such an official here for some time.  
 A meeting for the purpose of organizing a poultry association was held at Sheldon's hall on last Saturday afternoon, and to say a great deal of interest was shown by those present is employing a term of but mere significance. About twenty fanciers were there and at the opening of the meeting Dr. Hungeat was chosen chairman and W. W. Davis, secretary. The rules of various like organization were first read to acquaint the members with the aim and purpose of such associations and then business was done in a proper manner.  We said last week that Fred Rose had killed twenty wolves within the last few months. That was a mistake. Mr. Rose has killed that many wolves on and about his place but not within the last few months. We are sorry we misrepresented Mr. Rose—we don't think the wolves care much about it.

**Thunder Mountain.**

Reports from the New Thunder Mountain Gold Mine grow steadily better. There will undoubtedly be a great rush into the district this year. Last year the news concerning the new discoveries of free-mining ore had only begun to leak out and before October more than 20,000 claims were filed. From every quarter there will be people going to Thunder Mountain, and all will want reliable information as to the best route and how soon the trail will be open. Many who cannot go will want to invest in a good property there, and the time to do that is now when money is needed for mine equipment. The Thunder Mountain Gold Mining and Milling Company has a splendid property of 120 acres, across which there is a tremendous vein of free-mining ore 30 feet wide and running right into Rainbow Peak. Mr. Charles J. Perkins, General Manager of the Company, spent all last summer in the district. He is now at the Company's eastern offices in New York, where he will remain until some time in May purchasing equipment and describing the property to all who wish to buy shares. He also possesses full information regarding the district and makes it a point to answer all questions about it, without charge, so that all who are interested may write and get this information free and at first hand. The Company which Mr. Perkins represents made its first public offering of stock in January, and so many subscriptions have been received that a great deal of the equipment for the mine has been purchased and prepared for shipment as soon as the way is opened for travel. It is estimated that fully three millions of dollars of machinery and equipment is now on the way to Thunder Mountain for various companies. One of the companies sold stock a year ago at 60 cents a share and now it is not to be bought for \$3.00 per share. Thirty other mines are opened and are getting into richer ore every day. The property which this Company owns is second to none in the district, and the more one learns about it and its officers the greater the desire becomes to own some of its stock. For information regarding it, price of shares, etc., write to THUNDER MOUNTAIN CONSOLIDATED GOLD MINING AND MILLING COMPANY, New York Life Building, New York City.

**Cured by One Bottle of Chamberlain's Cough Remedy.**  
 "When I had an attack of the grip last winter (the second one) I actually cured myself with one bottle of Chamberlain's Cough Remedy," says Frank W. Perry, editor of the Enterpriser, Shortville, N. Y. "This is the honest truth. I at times kept from coughing myself to pieces by taking a teaspoonful of this remedy, and when the coughing spell would come on at night I would take a dose and it seemed that in the briefest interval the cough would pass off and I would go to sleep perfectly free from cough and its accompanying pains. To say that the remedy acted as a most agreeable surprise is putting it very mildly. I had no idea that it would of could knock out the grip, simply because I never tried it for such a purpose, but it did, and it seemed with the second attack of coughing the remedy caused it to not only to be of late duration, but the pains were far less severe, and I had not used the contents of one bottle before Mr. Grip had bid me adieu." For sale by all druggists.
