From the last issue of the Ledger we infer that Union is infested with those abominable nuisances "knockers." If the Great Ruler of the Universe has any respect for the balance of mankind He would remove these town killers from the face of the earth. They are a misery to themselves and a pest in every town.

The Nehawka Register has again changed hands, for the better, it would seem, from the appearance of the last issue, which looked more like a paper than it has for some months. E. A. Kirkpatrick is responsible for the amount of local matter in the last issue. If he would keep right on furnishing local grist he would undoubtedly benefit the readers of the Register. There is one consolation here in Nebraska, however, if a man falls in the newspaper business he can always get a job on a railroad section.
