Osteopathy Good for Some Things. "Yes, osteopathy is good for some things." Gall-stones are removed osteopathically. Headaches, backaches, limbaches and many other aches yield readily to this treatment. Insomnia is usually curable. Women's ills find a better escape through osteopathy than through any other agency; asthma and goitre are among the ills curable in probably half the cases, and the new school made its early fame relieving or curing old chronic ills of various sorts that otherschools of practice had abandoned as "incurable cases." Diphtheria, constipation, dyspepsia, colds, lagrippe, pneumonia and fevers are all the legitimate field of this new drugless science. Does not this statement prove to your mind that osteopathy, at least, is not a very limited practice, as many infer? Osteopathy is not only good for some things but it has the entire field of diseases, acute and chronic, to labor in; and it claims jurisdiction over disease in its various forms up to the hour when an appeal to surgery is necessary. Dr. Meelian is the local Osteopath in Plattsmouth. Call on him and talk your case over with him.
