The funeral will be held in St. Patrick's church, Manley, at ten o'clock on Thursday and interment will be made at College Hill cemetery. Since the return of the family from California about the first of February where he spent some months for his health, Mr. Bourke has gradually grown weaker until death's messenger called and relieved him of his suffering. He was conscious up to a short time before his death and his last hours were free from pain. Thomas Bourke was born in Chester county, Iowa, in June, 1871. In the fall of 1879 he came to Nebraska and has since that time been a resident of Cass county. Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.

One of the horses was cut up pretty bad but he thinks it will come out all right. The building outlook for Greenwood is good. Material of different kinds is considerably cheaper than it was last summer.
