From our exchanges we learn that black diphtheria is raging in many parts of the state and has been the means of closing public schools in various towns. Where to Dine?
A hard question to answer for those who are unable to find a cook to suit them, for those whose stomach is, so to say, destroyed by various rich articles of diet and by strong liquors. They are then constantly looking for stronger stimulants, which increase their misery and their suffering. On the other hand many lost their appetite through a sickness, either unknown to them or not acknowledged by them. In either case Triner's American Elixir of Bitter Wine will bring them an energetic appetite, because it will go to the root of the sickness. It will cure the stomach and the intestines and give them proper strength to accept and digest any food. As soon as the digestive organs will start their regular work, the blood will get pure and rich, the nerves strong, the muscles elastic. For diseases of the digestion it is the only remedy you can rely on. At drug stores. Jos. Triner, 799 So. Ashland Ave., Chicago, Illinois.

Chickens in the Well.
William Sayles, living three miles south of town, cleaned out his well today, and his reason for so doing was on account of his horses refusing to drink the water. Among the articles he found at the bottom were several dead chickens with bricks tied to their necks. He had been using the water until the horses refused it. Now, the question is, who did the unpardonable crime? Evidently some one that "had it in" for Mr. Sayles.
