A Choice Wyoming Irrigated Land Proposition.

No better irrigation project can be found anywhere than the I A PRELE, located just across the river from Douglas, a thriving town of some 2,000 people, and in the midst of a great sheep and cattle country. Coal, oil, natural gas, gold and copper are found in the immediate vicinity.

We have an option on water for several sections; the choice of this fine tract of land containing 28,000 acres, and can offer it whereby the land, together with this perpetual water right can be had for \$20 per acre.

After this block of stock is sold, water including the land will cost \$30.50. These lands are equal to any in the state, and their location is CHOICE. They are sure to be worth \$50 to \$100 per acre just as soon as title to them is had, and they can be taken in 40, 80, 120 and 160 acre tracts.

PRODUCTION UNDER IRRIGATION.
Wheat . . . 40 to 60 bushels per acre
Oats . . . 60 to 130 " " "
Barley . . . 60 to 80 " " "
Speltz . . . 50 to 70 " " "
Potatoes . . 300 to 900 " " "
Onions . . . 400 to 650 " " "
Alfalfa, seed 5 to 12 " " "
Alfalfa . . . 5 to 8 tons " " "

It is not "hot air" when we say this is the best land proposition offered today.

Representatives of the company will be at the Perkins hotel Thursday, February 15, to furnish further information concerning the project to those who are interested. Investigate this. We will leave Omaha in special car with party for Douglas, Tuesday, February 20. Railroad fare for round trip, \$11.70.

These are not patent medicines, but have been prepared by Mr. Jones after years of experience, and were recommended thirty-six years ago by best known stockmen in Iowa, with the county seals of Jefferson county, Iowa, and Cass county, Nebraska, attached.
