WE HAVE heard of reform edi-"I KNEW a man once in Tennestors, but when a paper comes out see who made a fortune attending and refers to one as a "Reformed Editor," that is a new one on us. Of all the people who inhabit the earth, there are none so little in need of reformation as an editor. In fact, we cannot recall an editor who can be improved upon. Of course we mean an editor, not a broken-winded politician, jackleg lawyer or school teacher, who happens to be placed at the head of a newspaper. IT COST Anna Gould over a million dollars to learn that she had no use of a French count, or rather noaccount. She has commenced proceedings for separation. Serves the girl right, and yet the money snobs appear to be very anxious to purchase bankrupt titles for their worthy President with his "square daughters. THE constitutional amendment proposed by the last legislature to create a railroad commission, probably will be endorsed by the next democratic state convention. It would seem that Chairman Tom Allen has so intimated. Railway commissioners will also be nominated.

Some republican papers are guying the democrats because they have adopted the republican idea of nominating a candidate for United States senator. The same republican papers are advocating the election of senators by a direct vote of the people. That was the democratic idea advanced long ago.

THE Fairbury Journal is in favor of paternalism in the strictest sense, notwithstanding the fact that the Journal is popocratically inclined It is in favor of the government furnishing insurance at cost. When the government furnishes transportation, freight and passenger rates at cost, supplies us with insurance, why not operate the coal mines and the butcher shops, the grocery store and the bakery? If the government takes upon itself the responsibility of providing for us, what incentive will be left for us to work for ourselves?
