He misses the strenuous life, but it's home.

## Rear-Admiral Highborn Praises Pe-ru-na.

ADMIRAL'S WORDS CARRY WEIGHT.

CHRONIC CATARRH OF THROAT.

REAR-ADMIRAL HIGHBORN is one of the best known admirals of our navy. His statement concerning Peruna will have much weight as it goes out into the world. What he says is echoed by many other naval officers of high standing.

#### WHAT THE ADMIRAL SAYS.

Philip Highborn, Rear-Admiral United States Navy, writes from Washington, D. C., as follows: "After the use of Peruna for a short period, I can now cheerfully recommend your valuable remedy to any one who is in need of an invigorating tonic."—Philip Highborn.

#### AN EVERPRESENT FOE.

The soldier and the sailor are especially subject to catarrh in some form or phase. Exposed as they are to constant changes, subject as they are to various vicissitudes, and all kinds of climate, wet and dry, night and day, they find catarrh to be their most insidious and everpresent foe. In the barracks and on the field, Peruna is equally efficacious. Taken at once after exposure, it should prevent catching cold.

#### PE-RU-NA A RELIABLE REMEDY.

After a cold has become established, Peruna will break it up as quickly as any other remedy known. Even after a cold has become settled in some organ of the body, Peruna can be relied upon to promptly dispel it. Peruna will relieve catarrh, whether acute or chronic, but a few doses taken in the first stages of the disease will be more effective than when the disease has become chronic. If you suffer from catarrh in any form, do not neglect it. Take Peruna at once. Delays in such matters are dangerous.

Hello, Jim, we welcome you home.

# Royal Baking Powder Absolutely Pure

Made from Pure Grape Cream of Tartar

In baking powder Royal is the standard, the powder of highest reputation; found by the United States Government tests of greatest strength and purity.

It renders the food more healthful and palatable and is most economical in practical use.

Housekeepers are sometimes importuned to buy alum powders because they are "cheap." Yet some of the cheapest made powders are sold to consumers at the highest price.

Housekeepers should stop and think. Is it not better to buy the Royal and take no chances—the powder whose goodness and honesty are never questioned?

Is it economy to spoil your digestion by an alum-phosphate or other adulterated powder to save a few pennies?

ROYAL BAKING POWDER CO., NEW YORK
