Two games of base ball on the home grounds next Saturday. Manly will play our second team, while the first team will endeavor to entertain the Ashland team.

Chickens thieves visited the home of Paul Schewe Monday night about 12 o'clock, but were frightened away by Paul's starry Winchester shotgun. He took a shot at the intruders and they left in a hurry.

Two games of base ball were played on the home diamond last Saturday. Alvo and Murdoch's first teams crossed bats, with the final score 10 to 4 in Alvo's favor. Immediately after the first game Murdoch's second team locked horns with the Elmwood boys and in a fast and fierce ten inning game our boys won with the close score of 11 to 10. The features of the game were a couple of neat double plays by Elmwood and the brilliant fielding of Amgwert and Chas. Long for the locals.

Weeping Water

(From the Herald.)

Dr. Hengate reports the birth of a daughter to Mr. and Mrs. Geo. Durfield, Thursday, June 7, 1906.

Mr. and Mrs. Troy Davis and Mrs. S. M. Davis are in Boston, attending the dedication of the Church of Christ Scientist.

Mrs. L. A. Moore of Plattsmouth, vice-president of the federation of women's clubs, was a visitor in town with Mrs. I. N. Woodford from Saturday until Monday.

Mrs. John Domingo returned from Lincoln Monday. She had been up to superintend the work of moving Jesse out to Dr. Bailey's sanitarium. She reports Jesse as about the same.

The Weeping Water band has been engaged to furnish music for a Fourth of July celebration at Elmwood. They are planning on a big time there and we can assure them that they will have good music.

Word has been received here that the Nebraska National Guards will go into camp at Fort Riley, Kan., August 3 to 13. The company here is in a rather weak condition and needs a number of men to fill it up to the standard required by the government.

H. G. Race on his trip to Chase county with W. H. Pool, played the latter a mean trick. Harry substituted a pillow that he found on his bed at the hotel, for some of Will's alfalfa, and put it in his grip. Mr. Pool took care of the grip and opened it up in his office for inspection. Inside the pillow he found a splendid article of excelsior, that being the substitute for feathers in the mired soaked west.

Another Boxing Contest. It seems that all the boxing contests in San Francisco have been declared off on account of the earthquake and in the east since the arrest of Britt and McGovern, and all the sports will have to come to the middle west. Clarence English, the Omaha favorite in fistdom, has in the past thirty days already pulled off two successful bouts at Cut-Off-Lake, (no man's land) under the auspices of the Lake Athletic Club, and they have proved highly entertaining to the large crowds that have attended. Next Sunday afternoon at 3:00 o'clock is the scheduled time for a twenty round bout between Guy Buckles, the undefeated lightweight champion of Omaha, and Eddie Courtney, the Missouri champion—winner take all. It is needless to say that this will be a go worth going miles to see, for the mere mention of it being under the management of Clarence English, is enough to assure the sport-loving people that it will be strictly on the square and they will get a run for their money. Take the Courtland Bench car and follow the crowd, if you want to see one of the finest fistie encounters ever pulled off in these parts. Good preliminaries, good seats and only one block from car line. Admission \$1.00.

Death of Former State Superintendent. A special from Peru, under date of yesterday, says: "A. K. Goudy, formerly state superintendent of public instruction, was found dead in the barnyard at his home on the Daily camp near here last night. Death was due to heart disease. Mr. Goudy's health had not been good for years. Several years ago he suffered from an attack of paralysis of the brain, which greatly affected his memory, but did not seem to impair his health otherwise. He was a prominent educator and served two terms as state superintendent of public instruction."

A Curiosity From California. A curiosity in the shape of part of a trap door spider's home was brought back from California by Mrs. W. K. Fox, who attempted to secure the entire den of the spider, but after digging down nearly a foot into the earth, she gave up further thought of this, as the retreat continued on down as far as she could see. The door is very firmly secured by a hinge of mud and tiny fibers, at the outlet, and falls back over the opening as soon as it is released.

This spider, which by the way is very poisonous, will replace the trap door during a day, when the original is destroyed, or removed.

Didn't Know It Was Loaded. A special from Louisville gives the following particulars of a sad affair that occurred in that village last evening: "At about 6 o'clock this evening John Bradbury was shooting birds in his orchard with a .22-caliber rifle. He laid his gun down for a moment, when his little daughter picked it up and, not thinking it loaded, pointed it at her older sister, Bessie, and pulled the trigger. The ball took effect in the middle of the back and lodged in the middle of the right lung. Little hopes are held out for her recovery. The unfortunate young lady was a graduate in the 1800 class of the local high school."

Another Runaway. A few moments after seven o'clock this morning, ere many people had made their appearance upon the streets, another runaway occurred which came very near proving disastrous. Carl, son of A. F. Hunger, came in from the farm last evening to attend a lodge meeting, and drove a horse to the buggy that had never been driven single before, but seemed to be bright coming to town. This morning the animal was hitched up again back of the restaurant and came out of the alley onto Fifth street and down to Main. The moment he struck Main street the animal gave a plunge and started to run down Main. The young man held on bravely and run the animal upon the sidewalk, and struck the corner of the building occupied by Jackson, the second-hand man, where it was stopped suddenly. Luckily but little damage was done, except a broken shaft, and a few bruises on the horse.

A Pleasant Meeting. The Ladies' Aid society of the Christian church held their weekly meeting with Mrs. Homer McKay Wednesday afternoon. The usual work and business of the society were dispensed with and those present were delightfully entertained by Master Marion Dodd, who favored his audience with many pretty songs. Little Marion sang in his usual sweet and pleasing manner and received much merited praise. Mrs. Dodd, Miss Gwendolyn Black and Elmer Youtzy also favored the company with instrumental numbers, after which the hostess, assisted by her daughter, Miss Minnie, and the Misses Lesley, served a dainty lunch. The ladies departed, voting Mrs. McKay a very pleasant hostess.

AGITATING BOAT LINE AGAIN

Many Dwellers Along the Missouri's River Banks Want to Form a Company.

A special from Rulo, of June 13, makes the following statement: "Business men at railway stations near the river, as well as at points remote from railways along the Missouri's banks are agitating the boat and barge line proposition with more fervor as the time passes on. Len Walters of Corning, Mo., and Fred Liebman of Fargo, Neb., as well as capitalists at other points, such as Craig, Barada, Nebraska City, Council Bluffs, Omaha and St. Joseph, are behind the movement, and expect it to gain such headway that a company with a large capital will be formed at an early date for the furthering of the work. They declare that the use of the Missouri river for transporting heavy commodities is an absolute necessity and that such an easy means of transportation should be used.

"They say that a boat and barge line will do away with congestion of freight at large points. Transportation will be about half what it is now. They claim that they can keep the Missouri in navigable condition for less than half what the railroads will have to pay to construct grades, build bridges, digouts and maintain their track in running order. There will be no taxes to pay and much less danger of accident. The river is as good for navigable purposes as ever, and when these boats begin to operate the river will not form bars in their pathway, as it now does; besides this, the river used to and will now maintain its channel and cut less in its banks with a boat line in operation.

"Plans to call a meeting for the purpose of forming a company to push the work are now under consideration. If the Kansas City company that is now forming with \$200,000 capital can not be induced to push their operations to Omaha, Neb., so those interested parties can join them, a distinct boat and barge line will probably be formed to operate on the Missouri river above Kansas City."

Carl, son of A. F.
