The Average Man

Is not a Man of Wealth.

He has an income, while he re-

tains strength of mind and body, upon which he and his family are able to live with comfort,

It is to this average man that the advantages of a bank account should appeal with the greatest force. The time to save money is early in life—the earlier the better. A bank account helps a man to save and gives him a safe place for his money. Men can save something out of their earnings if they resolve to do so.

Addresses a Very Small Audience in That Village Last Night.

MURRAY, Neb., October 25-(Special to the Journal.)-Congressman Pollard addressed an audience here last night, not to exceed 75 in number, all told. His reception was a sort of "frost," and his speech caused no enthusiasm. Several county republican candidates were present, and among them was Martin L. Frederich, candidate for county commissioner, who recited the little speech prepared for him by the Plattsmouth republican ring, which created some amusement for the younger persons present. Taken all in all, the meeting was declared by many an entire failure as to attendance and enthusiasm.

To keep the body healthy you must have plenty of nerve force; if you have not, the organs work imperfectly, the circulation is sluggish, digestion bad, appetite poor, kidneys inactive, and aches, pains and misery are the penalty.

You can keep the system strong with Dr. Miles' Nervine. It assists in generating nerve energy; it strengthens the nerves and makes the whole system strong and vigorous.
