## STEAMBOAT "LORA" COMING

The Boat That Made Trips From Kansas City to St. Louis Last Season

The Omaha World-Herald of this morning gives the Omaha & Missouri River Transportation company a jab in the short ribs as follows:

"By reason of the long continued inaction of the seventeen directors of the new steamboat company, incorporated as the Omaha & Missouri River Transportation Co.—in not meeting and getting organized and beginning business—the city has lost a first-class opportunity to stir up some early steamboat sentiment, to get a practical demonstration of the commercial navigability of the river and to get some good advertising for the city, at small expense.

"The steamboat Lora, that made trial trips from St. Louis to Kansas City last year and there gave the incentive for the organization of a steamboat company with \$200,000 capital is coming to Omaha to go into the excursion business this year. The owner wanted to bring a cargo from St. Louis to Omaha, but no efforts were made in Omaha to secure one for him. He will christen his steamboat the Omaha upon arrival here, and would have done so at the St. Louis end, had there been any objection in it for him.

"So the steamboat is coming up as the Lora, with a cargo—not for Omaha—but for Kansas City, from which point it comes without a cargo to Omaha.

"But the directors are now beginning to set up and take notice, and will meet to complete organization Friday afternoon at 4 o'clock at the Commercial club. John L. Kennedy and Charles H. Pickens are both being mentioned for the presidency of the company."

### Wonderful Eczema Cure.

"Our little boy had eczema for five years," writes N. A. Adams, Henrietta, Pa. "Two of our home doctors said the case was hopeless, his lungs being affected. We then employed other doctors but no benefit resulted. By chance we read about Electric Bitters; bought a bottle and soon noticed improvement. We continued this medicine until several bottles were used, when our boy was completely cured." Best of all blood medicines and body building health tonics. Guaranteed at F. G. Fricke & Co.'s drug store. 50.

### Classed as Insurance Companies.

Under an opinion of Attorney General Thompson fraternal beneficiary societies are to be classed as insurance companies and they will not be compelled to file lists of agents under the new law passed at the last session of the legislature. This law imposes on all corporations except railroads and insurance companies the duty of filing lists of their agents with the secretary of state in order to permit service in case of suit. As the fraternal beneficiary societies are counted as insurance companies the state auditor is permitted by law to accept service for them.

### My Best Friends.

Alexander Benton, who lives on Rural Route 1, Fort Edward, N. Y., says: "Dr. King's New Discovery is my best earthly friend. It cured me of asthma six years ago. It has also performed a wonderful cure of incipient consumption for my son's wife. The first bottle ended the terrible cough, and this accomplished, the other symptoms left one by one, until she was perfectly well. Dr. King's New Discovery's power over coughs and colds is simply marvelous." No other remedy has ever equaled it. Fully guaranteed by F. G. Fricke & Co., druggists. 50c and \$1. Trial bottle free.

### More Improvements.

The Journal is informed that Tony Trilet is arranging to extend his shop building twenty feet in the rear and full width of the building, put in a plate glass front, steam heat and hot and cold bath room. With these improvements Tony can boast of one of the finest barber shops in the state of Nebraska. The Journal feels a pride in noting the prosperity of its friends, and can but add "let the good work go on" in other branches of business.

### Good Words for Chamberlain's Cough Remedy.

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips of Barclay, Md., writes "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has had a cold since she was two months old. About a month ago I contracted a dreadful cold myself, but I took Chamberlain's Cough Remedy and was soon as well as ever." This remedy is for sale by F. G. Fricke & Co. and A. T. Fried.

An old soldier writes about ARIOSIA Coffee: "Your coffee is the best and richest coffee I ever drank since I left the service, from '61 until I received your coffee yesterday." A soldier knows coffee by the taste, and the way it makes him feel, and would sooner go without his bread than without his coffee. Arbucks' ARIOSIA was the first roasted, packaged coffee, packaged for

protection of consumers, roasted and the pores of each berry sealed with a coating of fresh eggs and pure sugar, to hold the goodness in and make the coffee settle clear and quickly. Better than "fresh roast." Warming a little develops the flavor and makes the grinding easy. Our enormous coffee business, exceeding the next four largest firms in the world together, reduces our

## FOR DISTURBING THE PEACE

Arraigned in Justice Archer's Court and Assessed \$10.00 and Costs.

Last night at about the hour of midnight, Policeman Slater received a hurry-up message to the west part of the city, as there seemed to some domestic troubles existing at the home of Mr. and Mrs. Louis Mazac. Policeman Slater lost no time in reaching the scene of disturbance, and found two women at the rate, the wife of Louis and her mother, and both were crying, complaining of very cruel treatment at the hands of the former's husband. Louis was immediately placed under arrest and as he promised to appear in Justice Archer's court this morning, he was permitted to remain at home.

Last evening both women complained of all sorts of cruel treatment, but neither would appear in court this morning to assist in the prosecution, but Judge Archer found sufficient evidence to enter a charge of disturbing the peace and therefore assessed against Louis a fine of \$10 and costs, in all amounting to something over thirteen dollars.

### "Shamrock" in Trouble.

The Plattsmouth Boat Club, composed of Groveron Dovey, Ray Travis and Frank Smith, have experienced no end of trouble since they came into possession of their new boat, known as "Shamrock," the Second. They were not only turned over into the water a few days ago, but have had various other lines of grief: the latest of which was a little experience with river rats. The last time the boys took a short pleasure ride on the Big Muddy they anchored their boat near the side of a rock, and the continuous incoming tide kept the boat in an up and down motion, sufficient to wear a hole in the side of the boat, which was only discovered last evening by Smith and Dovey, and was pretty well patched up ere the news was broken to Travis, and when Ray appeared upon the scene they explained to him that the damage was done by river rats, and the only thing for them to do was to secure traps and endeavor to catch the boat-damaging little animals, and young Travis was elected to secure the traps. Ray did not tumble to the joke until he had made an effort to secure the traps at various Plattsmouth stores. Don't mention "river rats" to Ray or you will have trouble on the spot.

### Resigns This Week.

Harry Graves, who has been connected with the Journal force for the past three months, will resign his position tomorrow night. He is called home to accept a partnership with his father in the publication of the Union Ledger, and will take entire charge of the mechanical department of that paper. In further explanation we print what The Ledger has to say in regard to the change: "With this issue The Ledger will close its 18th year, and next week some younger energy will be added to its management, Harry Graves, the editor's son, resigning from the Plattsmouth Journal force and returning to become a partner in the business of this office. The present editor has been 'tied up' with the work almost continuously the past seventeen years, and preservation of health renders it necessary that most of the mechanical work be shifted to younger shoulders."

## ACT QUICKLY

The Delay Has Been Very Dangerous in Plattsmouth

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills. Plenty of evidence to prove this. Mrs. K. Andersen of 1322 Lincoln Ave., Plattsmouth, Neb., says: "I can say a good word for Doan's Kidney Pills. My daughter suffered from pain in her back arising from a disordered condition of the kidneys. She complained often of the trouble and had for a long time. We learned about Doan's Kidney Pills and procured a box at Gering & Co.'s drug store. I am pleased to say that this remedy proved one of great merit. Its beneficial effect was apparent from the start, and by the time my daughter had used the one box, she was much benefited every way."

For sale by all dealers. Price 50 cents. Foster-Milburn Co. Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

### Sentence Arrested.

A Nebraska City special of April 25, says: "An order of the supreme court arresting the carrying out of the sentence of the district court against John P. Bridges, who was convicted of incest with his fourteen-year-old daughter and sentenced to the penitentiary for ten years, was received by the district clerk last evening and the bond of the prisoner fixed at \$5,000. A proper showing will be made before the supreme court on May 7, that the bail is excessive and an attempt made to get it reduced. The convicted man is still in jail here and is trying to secure his release until the supreme court can hear and decide the case."

### Fire Near Maple Grove.

Last Wednesday Mr. Tolson, living on the George Colving place, fired a field of corn stalks to burn them off. The wind blew rather fierce for this sort of business and it was but a short time till the fire spread so fast that it reached Mr. Tolson's home and before it could be gotten under control or could be subdued, it reached the smoke house and the shop in which Mr. Tolson made brooms, was destroyed, together with some machinery. Mr. Tolson is a poor man and we understand that his loss will reach several hundred dollars.

## Louisville

From the Courier.

Born to Mr. and Mrs. Stulken, April 11, a boy.

Henry Kilgore, formerly employed on the steam shovel at the National stone quarry, is here from California visiting friends.

The retiring village board was very thoughtful in having the town pumps repaired and put in good shape before going out of office.

Rev. Field of Union, preached at the Baptist church here Tuesday evening. Arrangements are being made by the local congregation to have Rev. Field preach here every two weeks.

Someone either accidentally dropped a match or purposely set fire to the leaves and dry grass at the lower edge of River View cemetery about 5:30 Sunday afternoon. The wind was blowing from the southwest and the fire ran over the cemetery doing much damage to the shrubbery and plants. Had it not been discovered just at the time it was, the building at the cemetery would have been burned. It was an occurrence much to be regretted as the damage to shrubbery was quite general all over the main part of the cemetery. There should be a heavy fine imposed on anyone setting fire in the cemetery without proper facilities to control it.

WINE OF CARDUI

**ROYAL Baking Powder** is indispensable to the preparation of the finest cake, hot-breads, rolls and muffins.

Housekeepers are sometimes importuned to buy other powders because they are "cheap."

Housekeepers should stop and think. If such powders are lower priced, are they inferior? Is it economy to spoil your digestion?

Alum is used in some baking powders and in most of the so-called phosphate powders, because it is cheap, and makes a cheaper powder. But alum is a corrosive which, taken in food, acts injuriously upon the stomach, liver and kidneys.
