### The Doctor Away From Home When Most Needed.

People are often much disappointed to find that their family physician is away from home when they most need his services. Diseases like cramp colic, cholera morbus require prompt treatment, and have in many cases proven fatal before medicine could be procured or a physician summoned. The right way is to keep at hand a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. No physician can prescribe a better medicine for these diseases. By having it in the house you escape much pain and suffering and all risk. Buy it now; it may save life. For sale by F. G. Fricke & Co. and A. T. Fried.

Down sixth street they came, and clearing everything as they went. At last they got to Main street turning their corner, ran into the plate glass window at Freid's drug store breaking a hole in it and freeing themselves from the wagon, went lickerty larrup, on the pavement upsetting, bales of wire and other things on the walk, leaving the walk at about Schaippacasse's store and went diagonally across and ran into the sprinkler wagon in front of Bookmeyer's striking with such an impact as to knock down both horses, and the water wagon running on to one while the other was stunned and could not get up and were easily caught. The damage to all concerned for which the runaway was responsible is considerable.

## CELEBRATED KUPK CASE SETTLED

Compromised by C. S. Polk Paying to Heirs \$6,000 and Costs

The celebrated Polk-Kupke case which has been hanging fire for so long has at last been settled, and is not now in the court for future adjudication. In this case, Kupke and others brought suit for the setting aside of a purchase of certain lands in this county, which C. S. Polk had secured from the plaintiffs in this action, through means that were not altogether considered fair, for a sum away below what the property was worth. At the trial in the district court here, the verdict was rendered against the defendant, Polk, and in favor of the plaintiffs, the Kupke heirs and others. Upon an appeal to the supreme court, the decision of the lower court was confirmed. Upon this the defendant secured a new trial, and a second contest in the district court resulted in the rendering of a verdict in favor of the defendant and against the plaintiffs. This was likewise appealed and had been argued before the supreme bench, but no decision had been handed down when it was settled between the parties at suit. Certain conditions were agreed upon, and a certain date stated upon which they should be complied with and have been complied with and the case entirely settled by Polk paying to the heirs \$6,000 and the costs.

## CLERGY MUST PAY FULL FARE

Western Passenger Association Issues New Regulations

The western passenger association has issued the following new rules relating to passenger business in states where a reduced fare law is in effect:

"No reduced rates will be made on account of clergy, charity or for inmates of soldiers' homes, to, from or through the states of Nebraska, Illinois, Minnesota or Missouri after June 30, or Iowa after July 3, 1907, effective with the new two cents per mile local passenger fares in Illinois on July 4, 1907. Clergy certificates will consequently not be honored for clergy half tickets or any reduced rate tickets from, to or through any of those states, but may be honored locally in accordance with the current regulations between stations in other states—in Wyoming, in South Dakota, in Wisconsin, in upper Michigan, and between stations in Wisconsin and stations in upper Michigan, until further advice.

"Conductors will, therefore, not honor half tickets in connection with clergy certificates in, to or through Nebraska, Illinois, Minnesota or Missouri after June 30, nor in or through Iowa after July 3, 1907.

"Interstate fares now current will continue in effect until further advice or until superseded by new tariffs taking effect July 1, 1908, or later, and which are being prepared as rapidly as possible under the difficult conditions including extent of territory and large numbers of rates involved. Interstate excess baggage rates to points to which present interstate fares in tariffs prior to March 1, are in effect, will continue to be made on the scale in General Excess Baggage Tariff G. P. D. 248-96, applied to such interstate fares, until superseded by new interstate fares in later tariffs, which will give the schedule for excess baggage rates applying thereto.

"Round trip tickets—Agents in states having two cents per mile fares will note tariff instructions providing for sale of round trip tickets with limit of thirty days at double new one-way fares, and will please call attention of passengers to such daily round trip rates, which are as favorable as hitherto made for the majority of special occasions, and will endeavor to sell round trip tickets whenever possible, and especially when meetings, fairs or other occasions drawing considerable attendance might render it inconvenient and possibly difficult to purchase return tickets at destination."

Too bad that the relation between fire-crackers and lockjaw can't be shifted somehow to shut off the verbosity of Fourth of July orators.

Wheat is a dollar again, but the wheat raiser is temporarily out of that food-stuff and will be so circumstanced until it goes to about 60 cents. 'Twas ever thus.

We are going to write a scathing article about the outlandish shapes of women's hats just as soon as we learn why a man buys a high crowned soft hat and then punches it full of dents.

The defense at Boise City will at least be spared the trouble of producing witnesses to prove that Orchard's reputation is bad. No witness could think of as much to say against the murderer as he has told against himself.

The small boy can now be seen with his nose flattened against the show windows in which are displayed firecrackers, torpedoes, rockets and other accessories that go to make a glorious 4th the way that he understands it. He will probably be on crutches the day after, but will have had the time of his life.

### A Cheerful Worker

It is certainly a pleasure to see a workman performing his duty in a cheerful manner. His cheerfulness often keeps the whole shop in good humor, even those looking on work as an inevitable evil. The cheerful man seems to do his work without getting tired, while the grumbler working with disgust goes home from his work exhausted, morose, discontent. It is plain that he is not healthy. His digestion must be bad and he needs Triner's American Elixir of Bitter Wine. Why? Because this remedy will put the organs of digestion in perfect working order. It will drive out of the body all those particles that interfere with proper nourishment; it will make new blood which will carry food to every part of his body. It will make him accept and digest any food and enjoy it—it will make him cheerful. Use it always, when your appetite declines or when you feel that everything goes wrong. At drugstores, Jos. Triner, 739 So. Ashland Ave., Chicago, Illinois.

## BURLINGTON RELIEF GOES TO CHICAGO

And the Medical and Surgical Corps Will be Put on the Fee Basis

It has been only a short time, comparatively, since the Burlington began to concentrate its departments in Chicago and handle the business of the big road entirely from the windy city instead of having a double set of officers, one set east of the Missouri river and the other set west.

In this time, however, a number of departments which were run independently west of the river have been absorbed by the Chicago end of the great trunk line. The last change is in the handling of the relief department.

The Lincoln News says that after August 1st Dr. T. P. Livingston of Plattsmouth will not wear the title of medical director of the system west of the river. The entire management of the relief department will be in the hands of Superintendent Redfern and Assistant Superintendent Denny at Chicago. Officers of the operative department will not have jurisdiction then.

The medical and surgical corps of the relief will not be paid salaries or transportation after this date, as is the practice now, but the fee system will prevail.

There are something like seventy surgeons and physicians in the service of the road west of the river now, and many of them have little to do. The latter were given transportation in place of cold cash for their services.

The relief department of the Burlington was organized in 1889, and has been in existence over eighteen years. During this time it has paid out \$5,572,061 in benefits. The department has nearly 24,000 members, which is a little over 50 per cent of the number employed on the whole system. It is explained that the per cent of membership is kept down because of the numerous changes in some departments of the road. Besides section workers and quite a large number of elderly employes are not listed on the insurance rolls.

## EIGHTY-FIRST MILE STONE

Grandma Atwood and Some Friends are Celebrating the Same Today

A number of the friends of Grandma Atwood are assisting Saturday in the appropriate observance of the fact that she has arrived at the eight-first milestone in the journey of life. In this Aunt Sarah Atwood is to be congratulated in that in those eighty-one years she has crowded many of pleasure, some no doubt of pain, for where is there a life without it? Many friendships has she made who are happy to see her at this period of her life able to receive and enjoy the congratulations of those around her. Grandma was born in the state of New York and removed to Illinois while yet young, and to this state and to the city of Plattsmouth, April 15, 1822, and has since lived here. A woman of such disposition and character of Aunt Sarah cannot help but be a blessing to all who know her.
