Eighty-First Birthday.
While many were celebrating the One Hundred and Thirty-first Anniversary of American independence, there were others enjoying the anniversary of one of our oldest and most respected citizens, Thomas H. Pollock was 81 years old yesterday, and in honor of the event his children dropped in to assist him in celebrating the event. Those who were present on the occasion besides Grandpa and Grandma Pollock were: T. H. Pollock and family, Mr. and Mrs. C. C. Parmele and family, and James Pollock of Omaha. It is needless to say that it was a most enjoyable event. Mr. Pollock seems to be in the enjoyment of excellent health for one of his age, and the Journal hopes he may live to enjoy many more birthday anniversaries.

Sure Pension Getter

As a pension-getter Judge Archer is a success. Here is one instance of this fact. Mrs. Martha A. Hester, aged 68 years, was deserted by her husband in Omaha seventeen years ago, leaving her with a household of children to care for. The husband was and is now drawing a pension, but just exactly where he is cannot be learned. A few months since she thought she would make him divide his pension, if there was any possible way of doing so. Mrs. Hester employed Judge Archer to look after the matter with the result that a few days ago he was informed that the woman who was thus deserted was justly entitled to one-half of the pension granted the deserting husband, and that she would be entitled to same from December 1, 1906. In fact, she ought to have had the whole business from the date he left the poor woman with a half-dozen children to rear by hard work. Mrs. Hester is now living in St. Louis.

Ruling on Primary Law

A special from Lincoln under date of July 3, says: "To the county attorney of Thayer county General Thompson has given the following opinion in answer to the question: "Does the new primary election law apply to the nomination of precinct officers in counties under commissioners organizations?"

"Section 2 of the primary law provides that all candidates for elective offices shall be nominated by a primary except such as are expressly exempted by the provisions of the act. Subdivision 3 of said section 2, is as follows: "This act shall not apply to special elections to fill vacancies, nor to municipal elections in cities having less than 25,000 population, village, township and school district officers, nor to members of school boards nor members of boards of education."

It will be seen from this that precinct officers are not exempted from the provisions of the act. This no doubt was an oversight on the part of the one preparing the bill. I can see no good reason why township officers should be excluded and precinct officers not. Inasmuch as all elective officers are to be nominated by the primary except such as are expressly exempted, the exempted, cannot be held to apply to precinct officers.

Section 32 of said primary law would seem to bear out this construction. In that section it is provided in what manner a tie vote on precinct officers may be determined, thus indicating that precinct officers came within the purview of the law. For these reasons I consider that the primary election law applies to precinct officers.

Thrown From Buggy.

Adolph Wesh, the well known and popular old German shoemaker, was quite badly injured yesterday evening out near the M. P. tracks, by being thrown from his buggy into a wire fence. The old gentlemen, in company with his son-in-law were driving out in that direction, and in passing under the railroad tracks, the train came along and frightened the horse, which suddenly shied to the side of the road and the occupants of the buggy thrown to the ground, becoming entangled with a near-by wire fence. Mr. Wesh was pretty badly bruised about the head and shoulders and one arm dislocated, and his right hand which came in contact with the wire fence was badly lacerated in the palm, as if he might have caught the same for support. Mr. Wesh struck the ground with such force that he was rendered unconscious for some time, and it was feared the accident had resulted fatally, but this morning he is able to be heard around town, and carries numerous bandages and has many sore spots as the experience of his sudden tumble. The young man came out of the accidental affair a little more fortunate, and with the experience of a few minor bruises and a number of bad rents in his clothing he was uninjured. Perfectly well satisfied with the damage already done it is said the old horse stood near the scene of the accident until assistance arrived, and consequently no damage was done to the vehicle.

Teachers Want More Pay

Reports show that the Summer Normal at Peru is being well attended. Educators throughout the state are making an earnest effort to obtain better pay.

Spurred on by the hope of better pay, the teachers of Nebraska are laboring earnestly each summer in the summer and junior normals of the state in order to be better prepared for their next year's work. Last year 6,000 teachers enrolled in the summer schools and junior normals, and State Superintendent McBrien is satisfied that the attendance this year will aggregate 6,500. One of the principal reasons for this splendid attendance is found in the fact that last year salaries of teachers in Nebraska were increased \$350,000. During the coming year the increase will aggregate \$300,000 more, making a total of more than \$600,000, in two years.

Much of this increase has been given to the county teachers who have been the worst underpaid people in any profession. However, the city teachers have also caught the fever and are insisting on a raise from the school boards if they continue to "sit in" at the game. Superintendent Davidson of Omaha is authority for the statement that the increase in wages of Omaha teachers will amount to \$37,000 next year. In Lincoln provision has been made for an increase that will cost the taxpayers about \$20,000 extra, but will more fully recompense the teachers.

Besides these voluntary increases in the salaries of the teachers of Nebraska, the state will pay \$50,000 for lengthening the school years of weak districts. It will also pay \$50,000 for normal training in high schools.

Tom Allen in Town

T. S. Allen, chairman of the democratic state central committee, was in the city Friday looking after some matters in probate court, and we were most agreeably surprised when he stepped in upon the Journal force. Tom is one of the favored few with this paper, and we count upon him as being one of our best friends. His visit with us was rather brief, but we were glad to see him just as much as if he could have staid longer. Come again, Tom.
