THE "ART GARLAND" FIREPOT "DOES THE BUSINESS."

T'S THE easiest I thing in the world to make a firepot WRONG—so easy that you'll find most all of them wrongwrong construction -wrong principle.

For 70 years there has been no improvement on the actual "BUSINESS END" of a stove until this twopiece revolving firepot was placed in "GARLANDS"

LOOK AT IT!

NOTICE IT'S MADE IN TWO PIECES---

That's to allow the air to pass into the fire instead of all coming in at the bottom.

HOT FIRE WHERE YOU WANT IT---

At the outside edge instead of the middle, where you get little radiation from it.

THE LOWER PIECE REVOLVES---

Just put the crank on, give it a turn, and the firepot is as clean as a whistle.

NO POKING-NO FUSSING-NO MUSS-NO DUST-WILL SAVE YOU A TON OF COAL EVERY YEAR YOU USE IT.

Just a Little Late.

For reasons known to several parties, including the Journal publisher, we failed to make mention of the party given at the home of Mr. and Mrs. G. W. Rhoden on Saturday evening, the 24th of September. The occasion was written up, or rather the names of those in leaving no last will and praying for adminisattendance and given to a friend of the Journal, like the letter to mail for his the 17th day october, A. D. 1907; that if they wife, it remained in his pocket for fall to appear at said court on the said 17th day of October, A. D., 1907, at 10 o'clock on said a week, and was later handed to anoth-grant letters of administration to George er friend, who in turn gave the letter Pearson, or some other sultable person and to us, and when we arrived home we W. S. Smith has been on the sick list found only a list of names and could not publish the same owing to the fact that we knew nothing of the occasion.

Now, it is better late than never and here we wish to state that affair was a very pleasant one, being planned by Mrs. Glen Rhoden and Miss Louise surprise on Mrs. Rhoden's fourty-seventh birthday, and it was a genuine success in every particular. The visit-D. J.
