A New Cure for Consumption.

Dr. Wright, a great scientist, announced to the world that he found a new cure for consumption and that it will be possible both to prevent and to cure the disease by vaccination. We hope the experiments which are being made now in all parts of the world will be successful, but even then it will always be of the utmost importance to keep the body strong. The only way to do that is to keep the digestive organs strong and in perfect working order. As soon as the digestion is irregular, Triner's Elixir of Bitter Wine should be used. It will make the digestive organs strong and able to accept and digest and food and convert it into rich blood, the foundation of life and health. It is beneficial in all cases where appetite and strength are needed. By keeping strong you cannot get consumption. At drug stores, Jos. Triner, 799 S. Ashland Ave., Chicago, Illinois.
