THE BURLINGTON'S NEW TIME CARD

The Time Was Faster Five Years Ago Than at the Present.

The Lincoln Journal says that while the new time card, effective on the Burlington tomorrow tightens up train schedules considerably, the new schedule will not be nearly so fast as trains were run five years ago. Compared with the schedule now in effect and the schedule to be made effective on Sunday, the miles per hour made by passenger trains show a slight increase as the following figures set out:

No. 1 now makes 32.4 miles per hour between Lincoln and Kenesaw, while on the new card it will make 34 miles per hour. Other trains running between these two points on the new time card will make the following time: No. 3, 35.5; No. 2, 27.4; No. 6, 32.9. Compared with the present time, No. 3, 35.5 miles; No. 6, 30.6; No. 2, 26.9.
No. 41 now makes 30.2 miles an hour between Lincoln and Ravenna, and No. 42, 23.1 miles an hour. On the new card these trains will make 32.2 and 29 miles an hour, respectively.

Trains were run much faster five years ago than they will be run on the new time card. Here is a comparison of time in hours and minutes consumed between stations named, as shown by the time card of December 7, 1902, and the time card of November 10, 1907:

No. 1 Pacific Junction to Lincoln	1:10	1:50
No. 3 Omaha to Lincoln	1:15	1:55
No. 7 Omaha to Lincoln	1:28	1:50
No. 2 Kenesaw to Lincoln	3:20	4:03
No. 1 Lincoln to Kenesaw	3:24	3:15
No. 6 Kenesaw to Lincoln	3:13	3:24
No. 3 Lincoln to Kenesaw	3:06	3:08
No. 89 Lincoln to Crete	39	35
No. 41 Lincoln to Ravenna	3:25	4:05
No. 42 Ravenna to Lincoln	3:45	4:15

Was Too Smooth For Us All.

When a newly married couple succeeds in outwitting us in the matter of getting married and getting away without us knowing it or in getting license for marriage and covering the matter up so we are not able to get the news, we simply take off our hat as they pass and say, "we have been done." Now we want to acknowledge the smoothness and tact of our friend, Carl Humphrey, the successful traveling salesman for Swift & Co., in getting into the city after his marriage at Nebraska City, and having been in the city since, and the papers not having got on to it. We found out Thursday by the pointer given by a friend, and called him up over the phone, only to hear a merry peal of laughter at our expense for not having gotten the news before. Mr. and Mrs. Humphrey will make their home in the city, while Carl will continue on the road with his employers. This paper extends to the newly married people the best wishes for their happiness and prosperity, and hopes that they may attain the highest for their ambition and desires. We are not expecting any cigars, for the way we were outwitted—put the cigars on us.

Poisoned by Sardines.

A special from Ashland, under date of November 7th, says: "Ptomaine poisoning, the result of eating canned sardines for supper last night, came near ending the lives of Mrs. Arthur R. Clarke and her mother, Mrs. Ellen Moulton. The effects of the poison were not noticed until 9 o'clock, when Mrs. John A. Reece, who happened to be at the Clarke home, summoned medical attendance, the victims being helpless. The doctors worked until 1 o'clock in the morning with the patients and believe they are now out of danger, but will be confined to their beds yet for a few days. Mr. Clarke was in Lincoln at the time."

Serious Accident at Eagle

A special from Eagle says: "D. W. McClurdy, a farmer living two miles north of that place was thrown from a buggy in a runaway Thursday night, and received internal injuries which may prove fatal."

Improving Their Trackage.

The Burlington road is making some improvements in its trackage in the city, raising what is known as the town or team track, which by the continual use and the unloading of refuse from the cars which were being loaded and unloaded had raised the ground on each side of the track until it was left much depressed.

Saw the East at Leisure.

D. H. Mills, wife and daughter, Mamie, came in yesterday from an extended trip to the east, where they have been since the first of October. These people left Weeping Water, their home, going first to Peoria Ill., where Mr. Mills had lived forty years ago, having come to this town in 1868, crossing the Missouri river before there was a bridge here. After a short time here they went to Weeping Water, where they have lived since. At Peoria they visited at the old home where he had spent nineteen years of his early life. Mr. Mills speaks of the industries at Peoria, saying that one-tenth of the internal revenue derived from all sources in the United States comes from that place. From there they went to Smithfield, in Jefferson county, Ohio, where they visited with Mrs. Mills' brother for about a week, then visited Norfolk, Virginia, for a week. After this they went to Washington, D. C., where they visited for ten days with a cousin of Mr. Mills, T. J. Smith, who is an employee in one of the departments at the national capitol. On their return they made the trip from Washington to Pacific Junction in a little less than 39 hours.

Dancing Proves Fatal

Many men and women catch cold at dances which terminate in pneumonia and consumption. After exposure, if Foley's Honey and Tar is taken it will break up a cold and no serious results need be feared. Refuse any but the genuine in a yellow package. F. G. Fricke & Co.

Puts the Ban on Raffles

Everything from kisses to doughnuts frequently raffled at "church" socials have been declared illegal by the fire and police board of Omaha, and the chief of police has orders to arrest any saloonman who offers a turkey as a prize or a young woman who has a pair of rosy lips as a reward for the lucky one.

All the trouble was brought about by Harry Fisher secretary of the Omaha Meat Dealers' Association, who appeared before the board and asked that the chief of police be instructed to use his influence to prevent laboring men paying \$5 to \$7 for turkeys which they could purchase at the meat market for much less. The secretary gained his point and former Congressman J. L. Kennedy sustained him when he suggested that church raffles were just as sinfully as billiard hall raffles.

He Fought at Gettysburg

David Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take \$500 for what they have done for me." Grand tonic for the aged and for female weakness. Great alterative and body builder; sure cure for lame back and weak kidneys. Guaranteed by F. G. Fricke druggist, 50c.

Mrs. Casper Ritter, of Deadwood, S. D., who has been visiting in the city for some time, the guest of her sister, Mrs. Joseph Droege, departed this afternoon for her home. Mrs. Droege accompanied her as far as Omaha.
