A Neat Window.

One of the neatest windows in the city is that of Dovey's dry goods department. The east window in this department has been handsomely decorated with a line of baby goods which will repay looking at. There is the Stork, symbolical of the brand, and in the center of the window stands a large, handsome doll nicely dressed in up-to-date baby clothes. There is a full line of baby goods represented in the window which does high credit to the window dresser.

Best Man for the Place.

M. A. Bates of Plattsmouth, Mo. is a popular candidate for the representative position in the next legislature. He is a well known and successful business man and a highly respected citizen. He is a native of Iowa and has spent most of his life in this state. He is a member of the Republican party and is a strong supporter of the platform of that party.

New Postage Stamps.

The bureau of engraving and printing has completed designs suggested by Postmaster General Meyer for a new issue of United States postage stamps. The new stamps will be of the following denominations:

One cent, two cents, three cents, four cents, five cents, six cents, eight cents, ten cents, fifteen cents, fifty cents and one dollar. The two dollar and five dollar denominations now in use will not be reprinted. It will be some weeks before all the denominations will be put on the market. However, the two cent stamps will be first distributed, and it is expected that shipments to postmasters will commence sometime in November. The new issue has been designed with the object of obtaining the greatest simplicity commensurate with artistic results. The profile has been taken in each instance instead of a full view, giving a bas-relief effect. All the stamps are of a similar design, containing a head in an ellipse, the only decoration being laurel leaves on either side of the ellipse. The lettering is in straight lines, at the top being "U. S. Postage," and at the bottom the words, "Two Cents." The one cent stamp contains the head of Franklin, while all the others will be the head of Washington from busts by Houdon. One of the most notable differences in the new issue will be the minimum of lettering. The colors are the reds and blues of the early stamps. Director Ralph of the bureau of engraving and printing regards the new stamps as the most artistic ever issued by the government.

Captured First Prize.

W. C. Hamilton and wife returned this morning from a week at Kansas City, Mo., where they were in attendance upon the American Royal Poultry Show. They had a fine exhibit of Buff Orpington chickens on show and were awarded by carrying off the first prize and the blue ribbon. Mr. and Mrs. Hamilton are chicken fanciers of a great deal of note and have chickens of high grade at their home, which they take just pride in. This was the first show of the Kansas City association and is given in connection with the fat stock show there. It has been in session all week and has attracted a great deal of attraction. Being the first show, the number of entries were not so large as at older shows, but they were satisfactory just the same. Mr. Hamilton is highly elated at their success in landing the prize, as he well should be. The Kansas City association will build a special building next year for the poultry exhibit with a seating capacity of eight thousand.

Mrs. Burdick and Her Goose.

Wednesday evening Mrs. F. L. Burdick missed one of her geese and upon making inquiry she ascertained from a lady who saw the operation that a young man who has never distinguished himself along the line of strenuous endeavor in company with another man had killed and picked it. She set a watch and in a short time located it in Henry Heebner's and went to him after the key. He had loaned it to a young man who could not be found. All the keys in the hardware store were tried but to no avail. She went to find other keys but took the precaution to set a watch on the house. In a short time a heavy set fellow was seen to go to the house and take out something and put it under the house, and when Mrs. B. returned, found the goose nicely picked and almost ready for roasting. All she wants now is the feathers and if the parties will return these she will call the deal square.—Nehawka Register.

Hunting for His Wife.

William Goetke, who has been in the limelight for sometime with his matrimonial troubles, and who had just returned from South Dakota was in Nehawka Wednesday morning on a hunt for his wife.

She has been gone Goetke claims since July, when it will be remembered, she was in some way connected with receiving money from a man who had been arrested for robbery at Nebraska City.

Upon being told that she had not been here, he caught a freight train for Weeping Water in hopes of finding her there.—Nehawka Register.

Had a Pleasant Visit.

Jacob Volk returned today from an extended visit with friends and relatives at Pekin and Peoria, Ill. Mr. Volk had a very lengthy and interesting visit with his many friends over in Illinois and returned feeling well repaid for his visit among such good people. He was glad to get back and see old Nebraska again but believes that next to this country Illinois stands pretty well. The many friends and acquaintances of Cass County people whom he met sent their regards to their old friends here.

FIRE NEAR THE VILLAGE OF MANLEY

Will Rauth's Large New Barn Destroyed With the Entire Contents---Hard Work to Save Adjacent Buildings---Heroic Work.

MANLEY, Neb., October 16, 1908.—(Special to the Evening Journal.)—The new barn of Will Rauth, living 1 1/2 miles west and 1 mile south of Manley, was totally destroyed by fire today by children who were playing in the barn with matches. The fire started in the manger, worked up through to the hay mow and caught the hay. The barn was a large structure, just completed this summer, and well filled with hay, 400 bushels of oats, 150 bushels of corn, 200 bushels of apples and peaches, all of which was destroyed. The fire started

about 3:30. Several small buildings were also destroyed, and the residence and stock sheds were threatened. An army of neighbors fought the fire hard, but all in vain; it was all they could do to save the residence and other buildings from igniting. Two wells on the place were pumped dry several times. Mr. Rauth carried insurance on the barn, but none on the contents. Mr. Rauth is one of Cass county's most industrious farmers, and has the sympathy of the entire community.

THE NEXT GOVERNOR OF NEBRASKA.

HON. A. G. SHALLENBERGER, will address the voters of Cass county at Plattsmouth, on

Monday, October 26th, 1908,

at 8 o'clock p. m. Mr. Shallenberger is the democratic candidate for governor, and one of the finest orators in Nebraska. Come out and hear the next governor.

Takes Case to Federal Court.

The Burlington railroad has removed to the federal court the \$25,000 damage suit against it for the accidental killing of Joshua F. Ford, a brakeman, at Louisville, last July. Eva B. Ford, the widow, administratrix of the estate, alleged in her petition that Ford was thirty years old at the time of his death and the sole support of herself and two children. He lost his life by being crushed between an engine and a coal car at the Louisville rock quarries. The administratrix claims that the coupler was out of order.—State Journal.

In District Court.

Judge Travis held a very brief session of district court this morning, hearing a motion for a continuance in the case of Herold vs. Coates. The motion set forth the absence of a witness, one King, and averred he would swear to certain statements if present. Attorney Gering for the plaintiff admitted in open court that King would swear to said statements, and Judge Travis overruled the motion entering an order that the statements in the affidavit could be read to the jury which will try the case subject to any legal objections which might be made thereto. The defendant excepted the court's ruling.

Send Regards.

Councilman John W. Bookmeyer returned Thursday night from his trip to O'Neill, Creighton and other points in Northwestern Nebraska. Councilman Bookmeyer reports everything up there as O. K., with great crops, booming towns and things generally in good shape. He met a large number of old Plattsmouth people in various places, all of whom were prospering and enjoying themselves, and who sent their regards to their many friends here and in this vicinity.

The Stork's Work.

The stork last Thursday morning got around to the home of P. H. Kinnamon and left behind him a fine baby boy. Mr. Kinnamon was so busy looking after the affairs of the young man that he did not get down to the city until last night when the news leaked out. He greatly regretted to have the young gentleman miss a working day but he arrived just a little after seven o'clock and could not work that day. Both mother and son are doing finely while the father is simply the greatest man in the world.

THE SUBWAY UNDER BURLINGTON TRACKS

Engineer Darrow Says the Burlington People Will Ask Council to Pass Ordinance.

District Engineer Darrow, of the Burlington, came in this morning for a consultation with the city officials regarding the proposed subway under the tracks at the foot of Main street. The plan of Mr. Darrow, which he will submit for the consideration of the council provides for a subway with a clearance under the tracks of eleven feet and a width of twelve feet, the width widening to twenty feet at the top of the incline leading to the subway. This will give a passageway under the tracks of ample width and height and sufficient room on the incline for two teams to pass. In connection with the erection of this subway, the railroad will ask the vacation of that portion of Main street not occupied by the subway, which they will park and enclose. They will also place a fence of gas pipe along each side of the incline leading to the subway, so as to prevent people walking into it. The incline will start at a point

some two hundred feet from the tracks, or closer if the right grade can be obtained, and from the point of start a concrete wall will be erected, running down the subway. The big cost of the work will be the side walls, which must line the entire way from the top of the incline to its far end on the other side of the tracks. The railroad company will also ask the council to pass an ordinance to protect the walls from vandalism, the posting of vulgar or obscene pictures and like offenses. Now that the subway is so far along, the council should lose no time in getting it through. The demands of the railroad are reasonable and equitable and should be cheerfully conceded. The subway is needed and for all concerned it is a good move. The work of Agent Pickett has been very instrumental in effecting the change in plans of the company and the thanks of the community due him for his services.
