Barber and Telephone Woman Mix.

The village of Nehawka presided over by the irresponsible Col. O'Day got out from under his watchful care on Friday and something was doing for a short time and the villagers will have something to discuss for some time to come.

William Tinker runs a barber shop, and being a cripple from the effects of rheumatism has to move about with canes. He has been doing very well until some time ago an opposition shop was started, and a good deal of the new trade went to the new shop. Tinker put in a stock of ice cream and was doing a land office business, when the telephone central, Mrs. Ruthford, a widow woman with eighty acres of land determined to also handle ice cream, and asked the barber as to what he would do. He replied in a letter, and stated that he would cut the price and see who would profit by the deal, and it was this letter that made things hum. "Central" posted the letter in the front window and the populace was having a good time making fun of the barber, and this hurt his feelings and he proceeded to the central office and going in tore the letter from the window, and as he was turning the corner "Central" who is a very large woman lit on him and tore his shirt off, and of course the barber ran and for a cripple made a good race. Peace was restored, but the town is taking sides and the end is not yet.—Nebraska City News.
