Washington, Sept. 4 .- "Incidentally," said Secretary Ballinger, at the close of the first day after his hurried trip from the Pacific coast, "Incidentally, I intend to kill some snakes."

The remark was made in response to questions relative to the Ballinger-Pinchot controversy regarding water power plants, the Cunningham-Alaskan coal entries and other conservafor Mr. Starin that his work in this tion matters, and the illustration used city was excellent and his prices by the secretary was drawn from an more than reasonable. Mr. Ballinger refused to explain the purport of his remark and declined to further discuss the matters in controversy between his department and the forestry bureau.

"Manifestly," he said, "it would be improper for me to talk on this subject. The heads of the various divisions of the department which are involved in this controversy have all prepared their reports and I expect to submit the whole question to the president at an early date. I could not therefore properly go into the subject at this time further than to say my previous knowledge of the situattion, with the information I have derived from the perusal of the reports of Messrs, Pierce, Dennett and Schwartz, justifies the statement that this department has nothing to fear from the closest scrutiny of the conduct of its officials."

Mr. Ballinger intimated he might prepare a report of his own for the George N. Shafer of Manley, public, but said his course in that respect would depend entirely upon the wishes of the president. He had no ing at the Shafer homes, and Peter doubt, however, that a full statement Gansemer of Hallam, Neb., another of the entire matter would be given
