## PAVING SHOULD BE STARTED AT ONCE ON VINE STREET

Winter Will Soon Set In and Work Cannot Be Pushed Until Spring  
No Work on Government Building Until Paving is Finished

There is much interest being manifested on the part of the good citizens of Plattsmouth concerning the paving in the Third district which includes Vine street from Fourth to Seventh and Fourth and Fifth streets and from Main to Vine. Delay caused already has caused some to feel a little impatient, and the fact that the fall is drawing on and winter will soon be here, and the further fact that the government officials will not turn a wheel or put a shovel in the ground toward the erection of the new postoffice building until the paving is completed in the abutting streets, causes the feeling of uneasiness to increase. It would be a deplorable condition of affairs should the men who have the city business in charge allow the matter to be postponed from time to time, on one pretext or another, until the weather conditions would be such as to prevent the work being done this fall. It is an assured fact that the government is now ready to let the bid for the construction of the postoffice building and stipulate for the work to commence just as soon as the city has its streets in the required condition to receive the structure.

The mayor and city clerk have already been authorized to sign up the contract, and the work of approving the bond of the contractor is a quick job, when the same is

presented. Mayor Sattler received a letter some three days ago from R. L. McKenzie, for M. Ford, stating that he had a bunch of expert pavers who were just completing a contract in a city in the western part of the state, and that he could send these men to Plattsmouth any day now as soon as the contract and bond were signed up. It has been a week since the special meeting of the council which approved the report of the streets, alleys and bridges committee recommending that the bid of M. Ford be accepted. The matter has been in the hands of the city attorney since that date for the preparation of the bond and contract. The papers are important and it is necessary to take sufficient time to get them technically correct, and it is believed that the papers will be ready for the signatures of the city officials before the end of the week. The formality of signing will not have to await any further action of the city council, although that body will meet in regular session next Monday evening. Mayor Sattler hopes to see the work of paving in full swing before two weeks more. It will require but a short time to get the material on the ground after the signatures of the parties are attached to the contract and bond.

### STRAUB BROTHERS CAPTURE MORE PRIZES AT DES MOINES

Straub Bros., breeders of pure-bred Galloway cattle, who exhibited their fine herd at the Des Moines, (Iowa) fair last week, returned to their homes near Avoca with several more prizes added to their long list. They won three first prizes out of five in the bull class; four out of six in the cow class, and three out of four in groups. They also captured all first premiums for herd exhibition, and first prize on breeders' young herd. "Captain" was senior champion and also grand champion. "Ladylike" was junior and grand champion female. This is one of the finest herds of pure-bred Galloway cattle in the west, and have probably captured more prizes than any similar herd exhibited at the state fairs and stock shows throughout the west in the past four or five years. This famous herd is on exhibition at the Nebraska state fair at Lincoln this week.

#### Injured His Ankle.

Last Saturday evening while writing at his desk at his home, Mr. A. L. Anderson started to answer a hurried call at the telephone and while in the act of descending the stairs, in some way made a misstep, turning his left ankle and almost putting it out of joint. Dr. Cummins was summoned and dressed the injured foot and Mr. Anderson is slowly recovering. He was down town today for the first time since the injury.

#### First Aim.

In the treatment of tuberculosis or consumption, the first aim of every physician is to make the patient to eat and digest. As soon as the patient is able to accept enough nourishment and to thoroughly digest it, the battle is won. We wish to call your attention to Triner's American Elixir of Bitter Wine which is known for its success in the treatment of loss of appetite and strength. The consumptive who allows his sickness to get a firm grasp on him will not be cured, which should be a good lesson to everybody to treat the slightest indisposition and loss of appetite. He may prevent a grave sickness. Triner's American Elixir of Bitter Wine is a reliable remedy in all diseases of the stomach and of the intestines. At drug stores. Jos. Triner, 1333-1339 So. Ashland ave., Chicago Ill. Physician's advise by mail, gratis.
