**PETTICOAT RULE
WORRIES CANALEJAS**
Queen Mother of Spain Declares
She Will Leave Country.

Madrid, Sept. 12.—One of the most curious developments in the conflict between the Canalejas government in Spain and the Vatican over the religious orders is the reception given at the Spanish capital to the report that the queen mother may show her disapprobation of the tactics of the premier by abandoning the country and taking up a permanent residence in Austria.

There is no attempt to disguise the belief in ministerial quarters that Alfonso's mother is responsible for the special bitterness of the dispute and that if her personality were withdrawn an amicable solution might be brought within range. From the outset, it is said, she counseled the king to override the ministers and to throw himself on the side of Cardinal Merry Del Val. It was her pleadings, says the same account, that caused the long delay of Alfonso in signing the speech from the throne at the opening of the cortes.

Canalejas is described as "more perplexed by royal petticoat influence than by all the red hats in Europe."

**MINORITY REPORT
ON BALLINGER**

Democratic Members Demand
That He Be Asked to Quit.

REPUBLICANS STAY AWAY.

Chairman Later Sends Notice Calling Meeting in Chicago for Next Tuesday—Democrats Adjourn Until Dec. 3 in Washington—Madison Files Report of His Own.

Minneapolis, Sept. 10.—"That Richard A. Ballinger has not been true to the trust reposed in him as secretary of the interior, that he is not deserving of public confidence and that he should be asked by the proper authorities to resign his office."

The foregoing sums up the findings of the four Democratic members of the Ballinger-Pinchot congressional investigating committee, which were made public here. The Republican members issued no report.

An independent report was given out by Mr. Madison, the insurgent Republican from Kansas, which declares also that Mr. Ballinger "should not be retained, that he was an unfaithful trustee of the people's interests, an enemy of conservation," and that the charges of Gifford Pinchot should be sustained.

These findings will be printed and filed with congress.

The decision of the four Democratic members and Mr. Madison to make the reports public followed a session which was unusual, three Republican members, Senator Sutherland of Utah and Representatives McCall of Massachusetts and Denby of Michigan, refusing to attend the meeting. Finally, the chairman of the committee, himself, Senator Nelson of Minnesota, left the committee room and failed to return.

Chairman Nelson gave notice that a meeting would be held in Chicago on next Tuesday. The Democratic members adjourned to meet again in Washington on Dec. 3.

Representative Ollie M. James of Kentucky, one of the Democratic members, announced that all the Democrats would refuse to attend the meeting of which Senator Nelson has given notice. The Republicans will then be in the same position that the Democratic members and Mr. Nelson found themselves.

SMUGGLERS LOSE \$500,000

New York Customs Inspectors Increased Vigilance Nets Big Returns.

New York, Sept. 10.—The number of incoming passengers who are forced to go from steamship piers to the custom house to explain their failure to declare valuable articles is increasing. All day Deputy Surveyor George Smyth was busy hearing such cases, and the corridors of the custom house were filled with anxious persons.

That the vigilance of the custom agents at this port is profitable is shown by the statement made by Surveyor Henry that at least \$500,000 worth of jewelry had been seized from smugglers in the last two months.

More than 50 per cent of these gems have been taken from women, and 50 per cent still is awaiting confiscation or adjudication. Two inspectors already are in trouble as the result of these attempts to smuggle.

WILSON JACK IN WASHINGTON

Takes Up Estimates for First Duty of Agriculture as Part Duty.

Washington, Sept. 10.—Secretary James Wilson returned to the department of agriculture and at once took up estimates for the coming fiscal year. Most of the summer he has spent in the west, inspecting national forests, experiment stations and the forest products laboratory.

The secretary was visited by a number of bureau chiefs, who called to pay their respects and submit their contributions to the estimates. Just what these figures will be, it is impossible to say. Last year the cost of running the department amounted to about \$18,000,000, of which \$3,000,000 was for meat inspection. The meat inspection ran close within \$100,000 of the appropriation. It is possible that this year more money will be needed. This will bring up the question whether the packers will pay any part of the cost.

For the regular appropriation to run the various branches of the department probably more money will be asked than last year. It is of record that Senator Money of Mississippi last year on the floor of the senate said that the secretary of agriculture had been too economical in the appropriations he asked for. It was the first time a cabinet officer had been subjected to such a charge. The bureau chiefs, as a whole, expressed the hope there would be no occasion this year to repeat it.

**THIRTY DROWN
IN CAR FERRY**

Pere Marquette No. 18 Goes Down Off Ludington.

Ludington, Mich., Sept. 10.—Thirty lives were lost when Pere Marquette car ferry No. 18, bound from Ludington to Milwaukee, went to the bottom of Lake Michigan half way across the lake. The dead include Captain Peter Kilty of Ludington, S. F. Seze-paneck of Chicago, purser and wireless operator, whose signals of distress brought assistance to the sinking steamer, and two members of the crew of car ferry No. 17, who lost their lives in an effort to rescue the crew of No. 18. Ell Colbean of Saginaw, Mich., a member of the crew of No. 18, would make a thirty-first victim, but it is believed he was not on board when No. 18 went out from here on her fatal trip.

The cause of the disaster is a mystery. The men who know what the trouble was are dead and among the survivors there are only theories and speculations. The best conclusion seems to be that the car ferry's after-water compartment filled through an open deadlight, which was followed at the last minute by a bursting of bulk heads.

No. 18 was one of the finest and most costly ferries ever built on the great lakes, and only recently the craft was inspected by government officials at this port and found to be in first class condition.

Huge Gathering of Catholics.

Sacramento, Cal., Sept. 10.—Charles K. Hamilton, who made the great race from Philadelphia to New York on June 13, was seriously and possibly fatally injured at the state fair grounds here when his new 115 horsepower biplane crashed to the ground after a spectacular flight.

**STATE FAIR
MAKES RECORD**

Forty Second Annual Exposition
Passes Into History.

IT SURPASSED ANY BEFORE.

Each Day Attendance Better Than Corresponding Day in Previous Years. Feature of Closing Day Was Parade of Prize Winning Live Stock and Automobiles.

Lincoln, Sept. 10.—The forty-second annual state fair passed into history. Every day an attendance record was broken and for the week the attendance figures are in a class by themselves. By many thousands, more people passed through the gates than in any previous year.

The fair in every respect surpassed any that has gone before in Nebraska. The weather was ideal from the first to the last day. More premiums were given than in any previous year and more exhibits were shown than ever before. The expense of the fair, of course, was more than for any previous fair and at the same time the income was so much greater that the board will net more money than in former years.

The feature of the day was the parade of the prize winning live stock and of the automobiles, which was witnessed by a magnificent crowd.

H. C. Cook, secretary to the state fair board of managers of the Kansas fair, was here for a day and succeeded in signing up several carloads of fine stock to be exhibited at the Kansas fair.

FARM HAND KILLS HIMSELF

Asks Teacher at Point of Gun to Marry Him, Then Commits Suicide.

Minden, Neb., Sept. 10.—David Mays, a farm laborer, shot himself to death in a pasture after accosting Miss Nina Videne, a school teacher, and asking her to marry him. As Miss Videne was walking from school, which is five miles from here, to her boarding house, Mays rose from a clump of bushes and addressed her. He asked the young woman three times to marry him. Each time she said she would not and tried to step past him.

Finally the farm hand drew a revolver and said: "For the last time I ask you to marry me; if you don't consent right now I'll shoot you." Miss Videne screamed in terror and started to run. After she had run a short distance she heard a revolver shot. Mays' body was found lying in the bushes.

BANK ROBBERS FOILED

Blow Up Vault, but Are Frightened Away Without Securing Cash.

Beatrice, Neb., Sept. 10.—Robbers made an unsuccessful attempt to raid the Bank of Barneston, twenty miles south of here, and they were evidently frightened away, as they failed to get into the safe after blowing up the vault with four charges of nitro-glycerine.

Mrs. W. Y. Brown and daughter, who are in charge of the telephone station at that place, were awakened by the explosions and were in the act of turning in an alarm when two of the robbers covered them with revolvers and forced them to retire under penalty of death. After wrecking the safe the men left in haste, without securing any of the bank's funds.

It is thought one of the robbers was injured by a charge of nitro-glycerine, as blood spots were found on the vault door. The robbers left their tools in the bank, part of which were stolen from the section house.

YOST CONTINUES TESTIMONY

Says He Heard of Independent's Agreement Not to Lend Facilities.

Omaha, Sept. 10.—C. E. Yost, president of the Nebraska Bell Telephone company, testified he had heard of a compact by which the independent telephone companies agreed among themselves not to lend their toll line facilities to the Bell company, in the hearing by Judge Field.

Mr. Yost explained that the only way the Bell company could get long distance connections in the towns of Papillion, Nebraska City and Plattsmouth was by purchasing the telephone companies in those towns.

Mr. Yost was on the stand all day in the questioning by the state to ascertain the grounds for a charge that the Bell company was organizing a conspiracy to monopolize the telephone business in Nebraska.
