THE HOME OF SATISFACTION

In Honor of Anna and Mary Peterson.

The pleasant home of Mr. and Mrs. L. H. Peterson, in the south part of this city, rang with merriment last evening when they entertained, in a delightful manner, a large number of young people, about seventy-five in number. The occasion was in honor of their daughters, Anna and Mary, who are spending their Thanksgiving vacation with their parents. Miss Anna is attending a business school at Omaha, while Miss Mary is teaching school near Alvo, Nebraska. The young people had come prepared to have a royal good time and expectations were fully realized in the entertainment of last evening as those who participated in this most enjoyable affair will long remember it. Various games, music and the like were indulged in while sociability reigned supreme. At the proper time a

delicious luncheon was served, which was a pleasing feature of their most splendid evening entertainment. It was a late hour when the guests took their departure, feeling that it had been good for them to be there.

Will Begin Laying Paving Soon.

Engineer Christ Bayser yesterday saw completed the few yards of concrete work at the extension of the sewer on Vine street, and the first two cars of paving brick were expected to arrive from the Kansas kilns last evening; four cars more were on the way and it is the plan of M. Ford, who owns the paving block plant in Kansas, to have the blocks shipped from the yard at the rate of two cars per day until the entire number is billed out.

It is probable that the laying of the blocks in district No. 3 will be commenced next week.

Lost New Overcoat and Overalls.

Yesterday afternoon at about 2:30, while Ed. Kruger was unloading a bunch of jugs at J. E. McDaniel's saloon a couple of young fellows apparently about 23 or 24 years of age, one sandy with red face, and the other with a heavy dark complexion, offered to sell Ed. a grip for 50 cents, which he at once accepted and paid the money.

Later in the day a switchman, just lately arrived in the city, hunted Ed. up and asked if he had purchased a grip, and described the grip he was looking for. When the switchman was through with the description Ed. was convinced that the grip was the property of the switchman, and went to his rooms and produced it. The switchman then asked what had been done with his clothes which were in the grip, a new overcoat, a new pair of overalls, neckties and collars. Ed. had not seen these articles as the grip was empty when he got it.

The men were seen by Ed after he purchased the grip, and before the switchman had missed it, at the ferry and wanted help to get over, so Ed. asked the ferryman to let them go over with a load which was just pulling from the shore; and they were allowed to do so. The grip was taken from the switch shanty in the Burlington yards here.

Blue Prints Arrive.

Mr. Bert Pollock received a communication from Major Burnham this morning and also the blue print of the lands on which the proposed rifle range is to be located. The major says that the appropriation of \$25,000 is only available to July next, and if the appropriation is not used by the war department for the purchase of a range before that time, it will revert to the treasury. The major urges that the Plattsmouth people get busy if they desire the range located here. Options on the properties covered by the range will have to be procured at once and laid before the war department, and as there are about four or five hundred acres to be covered, this ought not to take very many days to secure. Mr. Pollock motored over that way this afternoon and will probably have the matter in hand within a few days.

Resting in County Jail.

Deputy Sheriff Manspeaker arrived in the city Wednesday evening with three Union citizens, who had partaken too freely of Thanksgiving cheer which intoxicates, and having been sentenced to jail by the village justices, Foster and Newell, were lodged in Mr. Manspeaker's hotel.

The parties go under the names of Floyd Saxon, Obe Pickering and Carl Pickering. The total sum assessed as fine and costs against each aggregate \$21.45. The young men decided to board out their fines and costs and were accordingly thrown in.

Here From Nehawka.

From Saturday's Daily.

A. C. Munn, of near Avoca; B. O. Tucker and Frank Sheldon, from Nehawka, the prominent and king merchant of that prosperous south Cass little city, were in the county seat today transacting some business matters, coming up in an automobile.

The Journal acknowledges a pleasant call from the two former gentlemen, both renewed their subscriptions for the paper. Mr. Munn has been in Colorado for some time looking after the interests of the Cass Land Co., at Granada, coming home a few days ago for a short visit.

In County Court.

Judge Beeson, upon hearing of petition of L. B. St. Clair, of Lincoln, today appointed an administrator for the estate of A. Covert Barnum, an ex-union soldier, who, the petition alleged, died in Colorado in 1874, leaving no widow or children, but collateral heirs, and that an additional homestead right to take an eighty-acre tract of land was all of the property the deceased owned at the time he died; the soldier having entered an eighty in this county in 1865. F. C. Foster was appointed administrator.

Insanity Board Holds Session.

Doctors B. F. and J. F. Brendel, of Murray, were in the city this morning, Dr. B. F. Brendel being called to meet with the Board of Insanity and take some action relative to the case of McDonald, who is confined in the county jail. The board held its session at the sheriff's office and finding made that McDonald was a fit person to be incarcerated at the hospital at Lincoln. McDonald agreed to pay his own expenses if allowed to go to a private sanitarium, which was accepted by the board, as this plan would relieve the state and county of further expense. Dr. Brendel and Deputy Manspeaker accompanied Mr. McDonald to a private hospital, where he will take treatment.

Uncle Nick Halmes was in from the country today, looking after business matters in the city.

WHY THE MAIL ORDER HOUSES ARE SO THRIFTY

One reason why the mail order houses thrive is that the American people like to take a chance. They used to buy lottery tickets and play the races, but since the government has taken a hand in the suppression of that kind of gambling the people have resorted to another variety.

Today they read an advertisement, a gold watch for \$5. Don't pay your local dealer \$15 for the same watch, and the average fellow who reads that advertisement don't believe the watch will be worth \$5, but he decides he will take a chance and he orders the watch.

Mrs. Blank reads an advertisement of a grocery store selling groceries by mail. The first item that catches her eye is 22 pounds of granulated sugar for \$1. If she should turn to the market page of the paper she would see that sugar can't be bought in carload lots at such a figure. But she doesn't pay any attention to the market. She reads a great list, the whole of which will be sent to her for ten dollars. She takes a chance, and usually pays more than the same article could be bought for from the local dealers.

When these same people buy from a local dealer they examine just what they are getting. When they buy by mail they don't know what they are going to get until it arrives, and then comes the pleasure of opening the grab bag, and furthermore, the goods are bought. There is no going home to think it over as is the case when a purchase is made at the local store.

UNION.

(Ledger.)

The wedding of Hugh Robb and Miss Norma Stanford will take place at Nebraska City next Wednesday.

W. B. Bauging and wife departed yesterday for a few days' visit with relatives at Des Moines and Grinnell, Iowa.

Miss Fannie Austin departed last Friday for Wymore, where she expects to make a visit with her uncles, Hank and Len Austin.

Fleming Robb and wife, of Verdun, came last Saturday evening, and visited several days at the Robb home southwest of town.

Chas. L. Graves moved his law office last Friday into the brick building formerly occupied by the Bank of Union. Roddy & Harris also have office room in the same building, where they are ready and willing to handle your real estate. The office rooms are very neat and convenient, with ample room for all of the occupants.

J. M. Stone, of Nehawka, changed cars here Tuesday on his way to Wichita, Kansas, to visit his son, Lester, who was operated on Thursday of last week. It will be good news to the many Union friends to know that Lester is improving nicely, and Mr. Stone will probably bring him back to Nehawka for a visit. D. C. West returned from his bedside Sunday, having been present at the operation.

Everett Hunt, who has been in the Texas Panhandle country the past two years, arrived Thursday morning with his shipment of stock and household goods, his family having come several days ahead of him, and they are once more located on a farm near here. Mr. Hunt had the misfortune to get his knee severely bruised while his cars were being switched in the Kansas City yards and is very lame, but there is no indication of permanent injury.

EAGLE.

(Beacon.)

Mr. and Mrs. J. H. Latrom spent Thanksgiving visiting relatives in Havelock.

Mrs. Chas. Cole and children, of Murray, arrived Wednesday for a visit with her sister, Mrs. Jerome Burdick.

John and Joe Rudolph each hucked 75 bushels of corn in 4 1/2 hours. We don't know whether this is breaking any record or not, but it certainly is going some.

Fred Oelschlagel moved into the Ax property the last of the week. Mr. Oelschlagel has bought the pool hall and will take possession the first of the year.

At the shooting match held here Tuesday, some good scores were made, Graves, of Palmyra, breaking 81 straight. Gower, of Cedar Creek, also did some good shooting.

Mr. and Mrs. G. W. Venner, Mr. and Mrs. Cobe Venner, Ed. Venner, Miss Zetta Venner and Miss Hazel Neu, all of Lincoln, ate turkey with Mr. and Mrs. Pink Venner, Thanksgiving day.

Vick Manspeaker blew in from New Mexico, Sunday morning, when no one was expecting him. Vick is looking well, having gained about fifteen pounds, which speaks well for the climate. He expects to go back in about six weeks.

The box social given by the Juniors

of the high school was a grand success. A short program was given after which the boxes were sold to the highest bidder, Pink Venner doing the auctioneering stunt. While none of the boxes went exceptionally high, they were sold at a good average and the proceeds were \$33.15. We did not learn what the Juniors intend to do with the money.

WEeping WATER.

(Republican.)

Enough business men have resumed the responsibility to guarantee t chautauqua.

Herman T. Fischer has sold his harness business here to Mr. C. C. Pillsburk, who comes from Waterloo, Nebraska.

Mrs. M. A. Street, of Plattsmouth, was the guest of Mrs. Wilkinson while attending the jubilee services. She departed for home Monday afternoon after seeing the town and meeting old friends.

Wm. H. Pool was in town last Tuesday, accepting a ride over the Missouri Pacific, on payment of fare. He has not lost any of his love for Weeping Water, and he says his son, Albert, will graduate from the State University next spring and then they are not particular whether they continue to live in Lincoln or not, so that probably means Weeping Water, or his farm.

Plattsmouth citizens have raised funds for the removal of a gasoline engine factory to that city, and they expect in this way to draw many laborers to the city. They have shown enterprise, and subscribed liberally to secure the factory and we believe they have landed something that will make Plattsmouth bigger and the product will advertise the town wherever sold.

Mrs. Elizabeth Nowham writes from Wellington, Colorado, that she waited until she was eighty-three years old to cast a vote. This year she voted the straight republican ticket and said she really enjoyed going to the polls for it was as quiet as going to church. We have also learned that the candidates were pretty smooth, as the ladies were taken to the polls in automobiles, and were afterward treated to candy, who wouldn't vote in Colorado?

NEHAWKA.

(News.)

The two scarlet fever cases in town are getting along nicely and it looks as though they had the disease isolated and that there was no danger from further spreading.

Word has just been received that Elmer Boedeker and wife, of near Murray, are rejoicing over the arrival at their house the first of the week of a baby girl. We congratulate them.

Vernon Fleschman got hit on the head with a rock Tuesday and hurt seriously enough that he had to be taken home. It was purely accidental and occurred in play and no one was to blame.

Mr. and Mrs. E. A. Kirkpatrick left Wednesday for St. Joseph, where they will spend Thanksgiving with their son, Guy and wife. They intend returning by way of Salem, where they will make a short visit to Dr. Pollard.

D. C. West returned Sunday from Wichita, Kansas, where he had been in attendance on his brother-in-law, L. E. Stone, who was operated on last Thursday for appendicitis. Mr. Stone passed through the ordeal in excellent shape and should, if nothing unforeseen happens, make a rapid recovery.

Mike Kime is a democrat but we can almost forgive him for it because of his level-headed views along other lines. The other day he pulled our latch string and for an hour listened to a dissertation from us on everything from teething babies to tariff, and stood it like a gentleman. Come again Mike.

Last Sunday Mr. and Mrs. Henry Behrens entertained a few of out of town friends at dinner, together with some of their neighbors. Those present were: Louis Carsten and wife, Mr. Fleschman and daughter, of Avoca; D. Steffens and wife, Jim Fleschman and wife, Mr. Fred and Miss Nannie Fleschman.

Wm. Davidson and wife have leased the hotel and will shortly take possession. Mr. and Mrs. Davidson are no strangers to Nehawka in that line of work, having conducted a restaurant very successfully here a number of years ago. The News predicts they will make things hum when they get possession.

Otto Carroll "hitched" up his automobile and drove out to the west quarry one day this week in order to haul a traveling man who had left word that he wanted to go to Weeping Water. After he got out there he found the fellow had succeeded in getting a cheaper ride and did not want the machine. Nobody hurt but that was because the knight of the grip hurried out of town.

Mont Robb, of Murray, was a business caller in Plattsmouth last evening.
