

LOOKS GOOD FOR NEW JAIL

Prospects Bright for the Building of a New County Jail.

The prospects of a new jail have begun to take on a more pleasing aspect. A committee appointed by the Commercial club to procure a petition of the business men of the city and county asking that the matter be resubmitted, laid the matter before the board this morning. The petition was filed.

In looking the matter up the Commercial club has ascertained that another election will not be necessary, as the vote already cast last fall was sufficient to carry the proposition. That the authorities had overlooked the most important section of the law governing the construction of public buildings and based their action, or rather non-action, on section 30 of chapter 18 of the compiled statutes of Nebraska, whereas the last clause of section 25 of the same chapter is the one which probably controls.

Section 30 directs the commissioner to act in such matters when the improvement has been ordered by two-thirds of the votes cast. While section 25 and its amendments plainly states that action may be taken by the board when the improvement of buildings is ordered at a general or special election and a majority of the legal votes cast thereon shall favor the proposition.

The last mentioned section is supported by a decision of the Nebraska supreme court in a case entitled Fenton vs. Yule, and reported in the 43 N. W. In this case the court harmonizes the two sections of chapter 18 by holding in substance that section 30 would apply only in those instances where not by implication repealed by the amendments to section 25.

From the reading of section 25 and the decision above referred to, there can hardly be a question but the people are entitled to have a new jail, as a majority of the legal votes cast at the election last fall have declared for the proposition.

About all there remains to be done is for the county board to include the amount voted for the jail in the levy when it is made this summer. This matter has been placed in the hands of the county attorney, and on his advice the commissioners will probably act.

YOUNG MAN IS FINED FOR FIGHTING SUNDAY

As a sequel of the disturbance on the street last Sunday evening, one of the pugilistic gentlemen was complained against by Chief Rainey and a warrant issued for him yesterday. He was arrested and brought before the court, but pleaded not guilty and said he acted in self defense, and as there were no witnesses in court the matter was put over until this morning, when three persons who saw the affray told the court their version of it. After hearing the testimony the court did not agree with the accused that self defense was necessary; that although the first blow was struck by the other party to the trouble, it had been provoked by the offensive language of the prisoner at the bar. The pugilist was then fined \$5 and costs, amounting to \$5.30 in addition, for being drunk, swearing and fighting. The sentence does not state just what portion is for swearing, but it would be a graceful thing to do if some of the fellows who are not drunk were fined for swearing, as the cuss words are entirely too frequent on the public streets to comport with good, decent government.

Young Man Paroled.

A complaint was lodged with the county authorities against Richard Schlater of Louisville for being an inebriate, and the board had a meeting today and heard the evidence, and as a result find that the accused is a fit person to be restrained at the asylum at Lincoln, but with a view of having the young man reform himself outside the asylum, paroled him during his abstinence from the use of alcoholic liquors. The matter was left in the hands of Marshal C. M. Seybert of Louisville to report to the clerk of the district court every week. The young man was informed if he violated his pledge he would be promptly sent up for three years.
