RURAL ROUTE CARRIERS WELL PLEASED WITH ROADS

Mynard, Neb., March 8, 1911.

Talk about dragging roads! You have got to get up before daylight to beat Tom and Grover Will. My mail route runs through their place for one mile and the boys always keep the roads in good shape. They are a "chip off the old block." The boys remembered their mail carrier not long since by leaving a big two-bushel sack of oats at the mail box, for which we were very thankful. We are glad to say that others have been dragging the roads, too, but more this year than usual. This matter of dragging the roads is one of the best things that farmers can do at this time of the year, and saves the county lots of expense before the season is through.

We will assure you that mail carriers all over the state are feeling jubilant over Mr. Puls' snowdrift bill lately introduced in the legislature, although the bill will not be of much use along about the Fourth of July, it will be good in its season. If Mr. Puls could induce the postmaster general to compel patrons on mail routes to put stamps on their mail when placing it in the mail box he would receive many thanks for doing so.

J. M. Young.

MAIL CARRIERS BUSY WEIGHING MAIL ON ROUTES

The mail carries in cities and rural routes are all busy these days counting and weighing all the mail they receive and distribute. They are required to count the pieces of mail they handle, the number of patrons they serve, the houses on their routes, the mail boxes that are up and those who have no mail box. They are counting everything, but the steps they take and have added a line on the bottom of their reports showing the number of dogs on their route that show up and annoy them each day. This is being done all over the country and the government expects to compile all of this information and give it out in the due course of time. All this means extra work for the mail man and he will be kept busy along this line for the next ten days or two weeks.

Likes California Climate.

When she leaves come out the judge expects his wife and daughter to return to Plattsmouth.

Recovering From Injury.

TIME FOR THE PUBLIC TO SET UP AND TAKE NOTICE

When the head of the independent telephone association publicly urges the necessity of a law permitting companies in that business to merge and to freely sell and buy it is time for the public to sit up and notice. It means that the men who have been most active in promoting competition in that business have made up their minds that the era of competition is about over, and that the time has arrived to get under the commission regulation system. The question is one that the public is vitally interested in. If it believes that its interests are safer under competition then it must take steps to preserve that competition. If it accepts the theory of the economists that the telephone is a natural monopoly there are only two things to do, one is to own it and the other is to regulate it. Nine out of ten men prefer to try regulation rather than ownership, even though a large proportion have no faith in that as a remedy. It all depends on the men composing the commission. If they so conduct themselves as to earn public approval the bill will be inclined to accept their judgment as to whether a rate is compensatory or not. And that is the vital thing about regulation.—Lincoln News.

REV. W. L. AUSTIN ADDRESSES THE HIGH SCHOOL

From Friday's Daily.
Rev. W. L. Austin visited the High school for a time yesterday morning and was invited by Superintendent Abbott to address the students, which he did. Rev. Austin spoke on the topic of "Success in Life," and gave a splendid fifteen-minute discourse, to which the students paid the most interested attention. Rev. Austin is a very entertaining and instructive talker, he having a pleasing manner of presenting his thoughts calculated to gain and hold the interest of the youth.

Next week Rev. Father Shine will speak to the students of the High school, and the students are looking forward to the date with anticipation of hearing a good speech.

It is the superintendent's plan to have some of the professional and business men of the city up to address the students each week. This is a commendable move and will no doubt have the result of placing the schools and the business men in closer touch than formerly.

County Takes Judgment.

A judgment for costs made by plaintiff and remaining unpaid was entered at the same time and execution awarded.

Mr. and Mrs. F. W. Nolting and daughter, Gracie, boarded the early train today for the metropolis, where they looked after matters of business for the day.
