\$1.50 PER YEAR IN ADVANCE

Democratic County Convention.

The democrats of Cass county are called to meet in delegate convention in the city of Plattsmouth, Neb., on Saturday, July 15, 1911, at 2 o'clock p. m., for the purpose of selecting sixteen delegates to the democratic state convention to be held in Fremont, Neb., July 26, 1911, and to transact such other business as may legally come before it.

The basis of representation in said convention shall be one delegate for each 12 votes or major fraction thereof cast for the democratic electors for president in 1908. The primaries for the selection of said delegates shall be held at the usual place in each precinct or ward on Friday, July 14th, 1911, and the representation will be as follows:

Precinct	Delegates
Tipton	13
Stove Creek	9
Elmwood	9
Weeping Water	5
Louisville	8
Mt. Pleasant	7
Nehawka	7
First Rock Bluffs	10
Weeping Water, 1st ward	3
Weeping Water, 2nd ward	2
Weeping Water, 3rd ward	1
Gerenwood	8
Salt Creek	10
South Bend	6
Center	9
Avoca	7
Eight Mile Grove	12
Liberly	10
Second Rock Bluffs	6
Plattsmouth	12
Plattsmouth, 1st ward	7
Plattsmouth, 2nd ward	13
Plattsmouth, 3rd ward	13
Plattsmouth, 4th ward	8
Plattsmouth, 5th ward	7

Total.....202
It is recommended no proxies be admitted and that the delegates present cast the full vote of their precinct.

J. S. Livingston,

Chairman.
Frank Liverhal,
Secretary.

Small potatoes will be thankfully received—at this office.

No trouble about the corn crop in Cass county now.

Splendid rains all over Nebraska Saturday night. Good enough.

It is reported that it will take at least 70,000 ears to move the bumper wheat crop harvested in Nebraska this year.

Wolfgang is lightweight champion now, and will be, like Johnson, try to get into society by over-speeding his automobile?

After expressing his reverent by setting off firecrackers, the American youth heaves a sigh of relief at the thought that this toilsome duty is again performed.

The hottest people in these warm days have been those who took a cold bath to cool off, and got the warm reaction that always results from the plunge.

If worst comes to worst, the iceman can explain that he is only following the precedent the sugar trust pursued so successfully for years.

A Massachusetts judge rules that man is master in his own home, but never yet have we secured more or better pies by quoting the revised laws.

We used to think that the big thermometer outside the drug store indicate interest in scientific meteorology. Now we suspect it is a part of the scientific management of the soda fountain.

If people weren't so proud they would live in the cellar these hot days. But they'd rather stand 30 degrees superfluous heat than look at an ash barrel.

The young folks home from college have acquired the scientific truth, that the best way to keep cool is to sit in the shade and watch dad hoe the garden.

People who complain because the boys persisted in making a noise July 4th should rather be pleased that they do not send off their fireworks in the house.

It must be a great deal of satisfaction to ex-Governor Shallenberger to have his administration vindicated by the highest court in the state.

The law passed by the last legislature works the penalty pretty severe for carrying concealed weapons. We print the section referring thereto in another column of the Journal.

Decline in the marriage rate is sometimes attributed to the mental superiority of women, but any youth who walks up boldly to the ice cream parlor can have anything in sight for two months now.

Inquiry into express rates next The Little consumer looks puny beside the fat trusts, but he has acquired possession of a gun that makes the big fellows look uneasy.

Only thirteen killed in the "sane Fourth" this year. The commercialism of the age is again manifested in unwillingness to pay the undertaker's bills in a patriotic service.

The only person who has not suffered from the abnormal torrid season is Senator Lorimer. The fire started under him was so brisk that 106 in the shade seems mild.

Reading the Declaration of Independence is a traditional way of celebrating July 4th, but as the small boy reads one of his own on the front walk at 4 a. m. anything else is superfluous.

According to Referee Evans Chief Donahue must walk the plank. Holds him guilty of convicting at the violation of the laws of the state and advises that he be ousted from office. This report must now be acted upon by the supreme court.

Standpaters in congress received a body blow when the senate killed the Root amendment to the reciprocity treaty. The amendment was only a pretense, gotten up for the purpose of killing the democratic free fist amendment, that's all.

The call for the democratic county convention to meet in Plattsmouth on Saturday, July 15, appears in this issue of the Journal. This convention is for the purpose of selecting delegates to the state convention at Fremont on Tuesday, July 25. It is very essential that every precinct be represented at the county convention.

Canada raised about 95,000,000 bushels of potatoes last year, little over a fourth as many as were produced in the United

States. This year, with the crop a partial or complete failure over a large portion of the United States. This year, with the crop States, and potatoes worth \$3 a bushel or more, it is to be hoped that Canada will have a big yield and that the reciprocity treaty will become effective in time for consumers in this country to get potatoes free of duty from Canada.

Be sure to attend the convention Saturday.

Only four more days for filing. Get in on the ground floor if you are a candidate.

If you can possibly get away from home come in to the convention Saturday.

Harmony always brings forth a genuine good feeling. Don't forget that.

The harvest is nearly over in Cass county and the farmers are feeling pretty well, thank you.

They say in passing through the county you can almost see the corn growing, it is popping up so fast since the recent rains.

Are the automobilists complying with the law in speed here in town? It will be well for some of them to look a little out.

The rain Saturday night was a general thing all over Nebraska. And, then, just think of the "gully washers" that Kansas has received.

The building of the Platte river wagon bridge will bring all the south, west and north travel through Plattsmouth. That is one thing certain.

If the democrats work together in harmony from now till election day they will carry Nebraska as sure as the election is held. Then be up and doing.

Don't forget the democratic county convention in Plattsmouth Saturday, July 15. It is important that every democrat attend who can possibly get here.

Cass county is all right. She has the largest wheat crop ever grown, the oats are a fair crop and the indications are that the corn crop will be abundant. There is no use going away from Cass county to better yourself. You can't do it.

Champ Clark and Folk have about come to the conclusion that the democratic nomination for president is between Governor Harmon of Ohio and Governor Wilson of New Jersey. That's about the way it looks to the man up a tree.

Cass county is entitled to sixteen delegates to the Fremont convention, and every precinct should be represented on that delegation. Come in Saturday and help select them, and maybe you will want to be one yourself.

Weeds seem to be growing higher and higher in some parts of the city. The property owners know that this should not be. Even if you are a renter you should have sufficient pride to cut the weeds around your abiding place.

Norris Brown will have a hard row to hoe in securing the nomination for senator. We can't see anything particular that Senator Brown has done for Nebraska that gives him any right to expect another term. And this is the way a great many republicans feel about the matter.

Preparations are being made to give the Modern Woodmen a

grand good time at Nehawka on the 19th of August. Well, there is no better place to hold the log rolling than Nehawka, and the people of the entire community will join in showing the boys one of the best times they ever enjoyed in Cass county. So make your plans to attend.

The grass is shooting up again and pasturage is becoming wholesome for stock.

The showers are not so very large, but they are often enough to suit everybody.

The farmers are putting in every daylight hour at work and have not been fooling away much time in town.

The world has long recognized that Texas' greatest need was water. On July 22 Texas will vote on the question of state-wide prohibition.

The cool atmosphere of the past few days has been the means of renewing life and energy in many people, as well as helping out the corn crop.

Colonel John T. Sullivan of New Orleans was elected grand exalted ruler of the Order of Elks at Atlantic City yesterday. He was chosen on the first ballot.

The people in the southwestern part of the state are preparing to fight grasshoppers. Reports say that millions of them have made their appearance and have already commenced on the corn.

The delegates to the Fremont convention should be selected from every section of the county, and those who desire to serve as such delegates should not be backward in "speaking out in meeting."

Don't forget the county convention next Saturday afternoon. A new county committee is to be selected. Read the call and each precinct will know the number of delegates they are entitled to.

The house democrats have shown good faith in passing bills for tariff revision. There is mighty little indication of a similar spirit on the part of the democrats of the senate.

Laws are made for the protection of the people, and it is someone's duty in every community to see that they are enforced. Laws are no good unless there are officials to enforce them.

It is not yet decided whether Nebraska is for Taft or La Follette. Shotwell says it is for the president, while a lot of the rank and file say it is for the Wisconsin senator. And when it comes to a show-down we believe La Follette will win.

Taft is expected to veto all tariff measures, is the reason the G. O. P. leaders are willing to pass the free list and woolen schedules. But Senators Brown and Hitchcock both believe the president will sign them.

Vic Rosewater is a pretty wise guy. While they are saying all manner of things about his connection with the Shotwell Washington interview, he remains at home in the woodshed and keeps on sawing wood just the same.

We know that it is a pretty busy season for the farmers, but they can lay off one afternoon to come to the convention Saturday. Most of them usually go to some town in the county on Saturday afternoon, anyway.

Hon. Jesse L. Root has filed for supreme court judge, to which position he was appointed by Governor Sheldon in the dying hours

of his administration. Judge Root has made good, and his home people will give him a big boost for the nomination. We believe he is deserving of such recognition.

Judge Cornish has decided against the jail proposition. But that is no sign the jail is not badly needed. A new jail would be a saving to the taxpayers of Cass county in the long run, and they all know this as well as we do. And we believe the largest taxpayers of the county, generally speaking, voted for the proposition.

It must be a pretty severe blow to Lincoln that it did not get the democratic state convention. At least one would judge so from the manner in which one of the papers up at the capital is trying to belittle the democrats for taking the convention to Fremont. Fremont may not be quite as large as Lincoln, but what it lacks in population it makes up in hospitality.

"The way to navigate is to navigate," is the slogan under which the Kansas City Missouri River Navigation company was organized, capitalized and operates. That corporation, with a capital stock of \$1,250,000, is demonstrating the value of the long neglected Missouri river as an artery of commerce and will prove that the best way to control railroad rates is to water the rates instead of the stock of railroad companies. If Omaha would get a move on herself like Kansas City, we might have had navigation from Kansas City to Omaha, and we'll never have it until they do.

The 40,000 odd rural free delivery carriers in the United States are to receive salary increases as a result of a decision reached by Postmaster General Hitchcock. The order will provide for the disbursement during the current fiscal year of \$4,000,000, which will mean an increase of \$100 over the present salary of \$900 for all carriers on standard routes. In the current year the rural service will cost the government about \$40,000,000, the estimated loss being about \$25,000,000. The postmaster general expressed the belief that the parcels post system, under proper management, would insure the maintenance and extension of the rural free delivery service as a self-supporting branch of the postal service.

Living at Home.
The Fellows family are finally settled in their new home across the river, just west of the Kirkham residence, and have one of the finest views of the Black Hills from their front porch that can be found in the city. The next time they move it will not be in any other house in Belle Fourche. —Belle Fourche (S. D.) South-west Post.

Mr. Henry Heineman of Alvo transacted business in the county seat today and dined at the Perkins house.

CATARRH

ELY'S CREAM BALM FOR COLD IN HEAD
HAY-FEVER
HEADACHE

HAY FEVER

ELY'S CREAM BALM

Applied into the nostrils is quickly absorbed.
GIVES RELIEF AT ONCE.
It cleanses, soothes, heals and protects the diseased membrane resulting from Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. It is easy to use. Contains no injurious drugs. No mercury, no cocaine, no morphine. The household remedy.
Price, 50 cents at Druggists or by mail. ELY BROTHERS, 56 Warren St., New York

WEEPING WATER.

Republican.
Born—To Mr. and Mrs. Eugene Colbert, on Monday, June 3d, an eleven-pound boy.

While doing some repair work last week, E. Ratnour cut an artery in his right thumb with a piece of glass.

A. L. Upton is quite sick suffering from a stroke of paralysis. It is to be hoped his sickness will change for the better soon.

H. H. Henningson, an engineer from Omaha, was in town Monday and in company with Mayor Gorder, made the rounds of the town, mapping out the course of the electric light poles.

William Morse was plowing corn last Thursday and his team ran away. One horse received a bad cut and would have bled to death if Dr. Tuek had not arrived in good season to care for the wound.

Miss Ida Morse writes that she landed at South Hampton, England, June 20th, and the next morning left for Brighton, where her uncle, Thomas Gibbon, resides. She says it is cold there. She had a pleasant voyage and is feeling fine.

While the average yield of wheat is reported at 30 bushels per acre, a few are falling below. Ray Kreider had 11 acres of wheat, that average 38 bushels per acre and sold for 75 cents. Bert Jameson harvested a little better than 5,000 bushels off 200 acres.

While making his rounds on route No. 1 last week, Herbert Ratnour, rural carrier, met with a misfortune. At Tom Akeson's while the rig was entering the lot the wind blew the gate and caught the buggy amidstships. The horse kept on going and the vehicle was tipped over, the top being completely wrecked and the harness badly broken. Mr. Ratnour righted his buggy and came in through the hot sun in the afternoon, changing harness at Mr. Akeson's.

NEHAWKA.

News.
The country is a beautiful sight now, with the deep dark green of the growing corn and the golden fields of grain.

F. G. O. Nelson had a team get away from him one day last week while harvesting and one of the horses was badly cut by the binder.

Mrs. D. C. West and daughter, Gladys, left last week for a month's outing in Colorado. They are fortunate in being away during the heated term.

Fred Linville and family, brother-in-law of Dick Chriswiler, are here from Beaver City on a visit to relatives. He says crop conditions out there are very poor.

Mrs. C. C. Chapman and children of Ashland came in early Monday morning in an automobile. She was accompanied by Miss Phille Opp, who had been visiting her sister for some time.

A traveling photographer has been in town this week, but did not do much business. Our people can "make faces" enough this kind of weather without having their pictures taken.

Saturday Henry Heebner at the Farmers' elevator took in 67 loads of wheat from five machines that were running in the neighborhood. J. S. Rough has the biggest yield reported so far, one field making 43 bushels to the acre.

Mrs. W. S. Norris is sweltering through this heat handicapped by a broken collar-bone. One day last week she was picking cherries from a ladder and in some manner it slipped, precipitating her to the ground, a distance of five or six feet. Medical assistance was summoned, the fracture reduced, and she is getting along as well as could be expected.

Orin Pollard was the victim of a runaway last Saturday that bruised him up somewhat, but is thanking his lucky stars it was no worse. They were making hay out at M. H. Pollard's when the team Orin was driving became frightened and ran away, turning the rack over and pinning Orin under it. The horses were uninjured and nothing broken, but the young man was bruised and skinned up until he will be sore for some time.

County Attorney Taylor went to Louisville last evening and spent the night with his friend, Mr. Palmer, and left for Murdock this morning, where he has some county business to look after.

George Porter, the Bee salesman, arrived in the city today and will spend a couple of days here looking after business for his paper.
