## A PLATTSMOUTH BOY'S TRIP AROUND THE WORLD

Jesse Stenner, Electrician on Board U. S. S. New Orleans, Writes While in Japan.

The following letter is from a Plattsmouth boy, now in the service of the United States navy, and was written to Mr. M. S. Briggs, by whom we are permitted to print it in full. We know the readers of the Journal are always glad to hear how the boys away from home are getting along, and we are glad of the opportunity of giving the letter space in our paper:

U. S. S. New Orleans, Kobe, Japan, June 17, 1911.

Mr. M. S. Briggs, Plattsmouth, Neb.:

Dear Friend—Well, Mr. Briggs, it seems to me, if I remember right, that you have not written me since receiving my letter, but as I am not sure, will write a few lines. It is springtime again and everything is in full bloom here, and must say that Japan is one of the prettiest countries in the world. While I have not visited many other countries, it is impossible for them to be any nicer, and the people here treat an American fine. There is a lot of talk in the states of the Japanese, but when you come in contact with them here you are sure treated with highest respect. I have been in every principal city and seaport in Japan and find the people the same throughout the entire country. The fleet layed in Yokohama, Japan, six weeks and everyone enjoyed themselves so well that they did not want to leave there. Then we arrived here at Kobe, Japan, and everyone was given liberty, and several times liberty enough was granted to let those who wished to go inland to Osaka and Kyoto could go. Kobe is the biggest shipping port in Japan and there is a very large anchor, formed by trees on the mountain-side here that was placed there in honor of the bravery of the Japanese navy, and this anchor may be seen on a clear day several miles out at sea.

We are going to coal our ships Monday and then we will leave here for Tsing Tau, China, a German post, where we expect to spend our Fourth of July and perhaps several weeks more. Then we continue on our way up along the coast of China to Siberia, where we will make several short stops before returning to Manila late in the fall. Then I will be thinking of coming back to the only patch of ground on the globe, the good old U. S. A.

Well, as there is not much news to write, will close for this time, hoping everything is booming in Plattsmouth. I remain very respectfully,

Jesse Stenner, Electrician, U. S. N. P. S.—Write me when you can.

**Growing Business.**  
O. P. Monroe, the new and second-hand furniture man on lower Main street, is certainly growing very rapidly in the line of sales, the stock he carries and in the repair line. He has since removing to his present location increased his line of new goods to almost double the size previously carried. He has just installed a new electric dynamo to be used for power in the furniture repair department. He is adding new goods daily, and, of course, his sales are increasing accordingly. He has just received a large invoice of new goods and invites the public to call and see them.

**A Peek Into His Pocket**  
would show the box of Bucklen's Arnica Salve that E. S. Loper, a carpenter, of Marilla, N. Y., always carries. "I have never had a cut, wound, bruise or sore it would not soon heal," he writes. Greatest healer of burns, boils, scalds, chapped hands and lips, fever sores, skin eruptions, eczema, corns and eruptions. 25c at F. G. Fricke & Co.

**Lost.**

**Taken by Mistake.**  
Whoever took a coat from the Manspeaker livery barn office on the night of the Fourth of July will please return same. It was no doubt taken by mistake. The party who got it is known and this is simply a reminder of the fact.

## WARNING SENT OUT TO NEBRASKA STATE BANKS

Notified That They Are Not Under Protection of Law Until Certificates Are Received.

A special from Lincoln, under date of July 10, says: "Warning them that they will not be actively operating under the guarantee provisions of the bank guaranty law, recently effective in this state, until they have received certain certificates, Secretary Royle of the state banking board has notified several banks that they must not give out to their customers the idea that deposits of the several institutions are safeguarded until after they receive documents to that effect.

"A number of banks have made announcement through their local papers and by other advertising mediums that their institutions are under the new law, whereas such is not the case, none of them having a right to be thus designated until the banking board has passed upon their condition and has issued certificates to them. This will be done within a few days, in the opinion of Secretary Royle.

"This construction literally means that if a bank failure should take place at the present time there would be no guarantee for the depositors of such institution."

## HANDICAPPED

This is the Case With Many Plattsmouth People.

Too many Plattsmouth citizens are handicapped with bad backs. The unceasing pain causes constant misery, making work a burden and stooping or lifting an impossibility. The back aches at night, preventing refreshing rest and in the morning is stiff and lame. Plasters and liniments may give relief, but cannot reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills are for sick kidneys—thousands testify to their merit. Can you doubt Plattsmouth evidence?

Frank S. Brinkman, Eleventh street, Plattsmouth, Neb., says: "I can vouch for Doan's Kidney Pills, knowing them to be a good kidney remedy. My back at times became so lame that the simplest movement was painful and I had frequent headaches and dizzy spells that caused me no end of annoyance. Mornings on arising I could hardly drag myself about. In spite of the many remedies I tried, I found no relief until finally I began using Doan's Kidney Pills, procured at Rynott & Co.'s Drug Store. They effected a prompt and permanent cure."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

## HABEAS CORPUS CASE DECIDED IN FAVOR OF FATHER

Josephine Vallery Restored to Her Father, Conrad F. Vallery, by Judge Cornish.

The habeas corpus case brought by Conrad F. Vallery against Peter Vallery to regain the custody of Josephine Vallery, daughter of plaintiff, was tried out before Judge Cornish, sitting for Judge Travis, Monday afternoon. The result of the suit was in favor of the plaintiff, the court decreeing that Peter Vallery and wife shall enjoy the privilege of seeing the child when the plaintiff should find it convenient.

It appears that Peter Vallery and wife raised the little girl from a small child, and that the father, the plaintiff in the action, has paid the agreed price of \$900 for their trouble, and that the father now desired to have his daughter at home, which was prevented for some reason by the defendant. Josephine has been at her father's home a portion of the time during the past year.

## GOOD MISSOURI PACIFIC LINE IS IN SIGHT

The Leavenworth-Omaha Line Will Be One of the Very Best.

A special from Leavenworth, Kansas, under date of July 11, says: "Without any noticeable egotism, local agents and employees of the Missouri Pacific railroad predict that within another six months one of the finest stretches of steel rails will extend from Leavenworth through to Omaha. Already the section gangs have been doubled, while three construction gangs of forty men each are engaged in laying the huge eighty-five-pound rails between Atchison and Omaha now.

"The improvement means that schedules from Leavenworth to Atchison, St. Joseph and Omaha will be considerably reduced, inasmuch as the heavier rails and better roadbed will permit of faster running. Already the big section gangs are working overtime between Leavenworth and Atchison and from Atchison to St. Joseph, while the placing of rails between St. Joseph and Atchison and Atchison and Omaha is progressing rapidly.

"The heaviest rails now in use which have proven satisfactory are the ninety-pound variety, but the eighty-five-pounders are said to be even more efficient for actual time making and safety on railroads. It was not until after the Missouri Pacific tested every size rail that the eighty-five-pounders were chosen for the local line, which should be sufficient to warrant more than ordinary train service.

For summer diarrhoea in children always give Chamberlain's Colic, Cholera and Diarrhoea Remedy and castor oil, and a speedy cure is certain. For sale by F. G. Fricke & Co.
