LOCAL NEWS

From Monday's Daily.

John Wynn, wife and children spent the day in the metropolis, taking the early train for that city.

John Lindeman returned to Omaha on the morning train today, having visited his family over Sunday.

E. P. Stewart and wife were Omaha passengers on the morning train today, where Mr. Stewart was called on business.

Mr. Frank Gobelman was a passenger to the metropolis on the morning train today, where he was called on business.

Father Higgins of Manley departed for his home this morning, having been a guest of Father Shine for a short time.

Mrs. D. C. Morgan and daughter, Miss Gertrude, were passengers to Omaha this morning, where they visited relatives for a time.

Mr. J. J. Meisinger came down from Cedar Creek on No. 4 this morning, and looked after business matters in the county seat for the day.

Mr. and Mrs. Will Vallery and little son were down from Havlock Sunday for a short visit with home folks and to attend the Eagles' picnic.

Messrs. George Sayles and Sam Shoemaker returned from Cullom this morning, where they were looking after business matters for a short time.

M. M. Beal, the artist who paints houses, celebrated his 61st birthday today by continuing to paint. Mr. Beal never loses any time celebrating an occasion of this kind.

Miss Gladys Marshall was an Omaha passenger on the afternoon train today, where she visited friends for a short time.

Charles Collins of Lincoln arrived Saturday evening and was an over-Sunday guests of the C. L. Jean home.

Councilman George Dovey and "Uncle Tom" went to Omaha on the morning train today, where business called them.

Mr. C. L. Robbins and wife of Tabor, Iowa, arrived on the morning train today and visited the home of I. B. Green.

Mrs. Gould and babe were Omaha passengers on the afternoon train today, where they will visit friends for a few days.

Miss Arnold was a passenger to Glenwood on the morning train today, where she went to visit friends for a short time.

Mrs. Peter Goos and daughter, Miss Clara; Mrs. Smithman and Mrs. Fetzer visited friends in the metropolis this afternoon.

Mr. N. J. Brown and Mr. Frank Sabatka left for North Platte this afternoon. There they will work for M. Pelton on the government building. Both men have been employed on the postoffice building here.

Miss Jennie Reynolds returned from Omaha Saturday evening, where she had visited friends for a short time. Charley Reynolds visited his parents for a short time yesterday, departing for Nebraska City.

Henry Weidman and wife of Omaha arrived Saturday evening and visited Mr. Weidman's mother over Sunday, departing for Elmwood on the morning train today, where they will visit friends for a short time.

RAIN CONTINUES TO WET STATE

South Platte Section Again Visited by Welcome Drenching.

IS WELCOMED BY FARMERS.

Growing Crops Are Given Another Boost in Many Sections—Ball Games in Several Towns Called Off When Rain Makes Ground Too Wet.

Omaha, July 17.—The South Platte section of Nebraska and the east half of Kansas were given a good soaking. On the eastern division of the Union Pacific in Kansas rain fell to a depth of from one-eighth to two and one-half inches. There was a sprinkle from Central City to Grand Island, with one-half inch from Grand Island to North Platte.

Rain also fell on the Union Pacific branch from North Platte to Northport. Half an inch fell at Chester and Blue Hill. An inch fell at Edgar.

At Grand Island rain began to fall Sunday just before the ball game, forcing the players and spectators to seek shelter from the downpour, which thoroughly soaked the ground. The ball game at Seward was stopped by rain.

RIGHT-OF-WAY TO GANDY

Many Farmers Object to Amount Allowed Them for Crossing Their Land.

Broken Bow, Neb., July 17.—The Union Pacific is having some trouble in securing right-of-way for the extension from Callaway to Gandy. Several Custer county citizens have filed notice of appeal from the commissioners' awards with County Judge Holcomb, and will take the matter to the district court. The appraisers have allowed R. E. Drega of Callaway \$800 and he wants about \$2,000. N. Alfred Schreyer of Milldale wants more than the \$250 damages allowed him, as does Logan W. Chiles, who was allowed \$320 by the commissioners. Others have stated an unwillingness to accept the commissioners' allowance, but so far none of them have notified Judge Holcomb of intention of appealing. In each case the Union Pacific has deposited the money allowed by the commissioners with the county judge and is going ahead with the work.

MINISTER TO RUN FOR JUDGE

Pastor of Methodist Church at Beaver City in Race.

Beaver City, Neb., July 17.—The name of Rev. B. F. Eberhart, pastor of the Methodist Episcopal church of this city, will be placed on the primary ballot as a candidate for the Republican nomination of county judge. A petition was circulated by his friends and filed according to law. Charles Roberts of this city filed as a fusion candidate for the nomination of sheriff and promises, if elected, to pay \$500 a year to the school fund, contending that the salary of the office is higher than the services demand.

MAN DRAWN INTO FLYWHEEL

Joe Yusta Sustains Fractures of Collarbone, Jaw and Three Ribs.

Dorchester, Neb., July 17.—Joe Yusta, a thrasher man of this place, met with a serious accident while threshing on the farm of Art Huff.

Stooping over to adjust a belt that had become loosened on the flywheel, his coat tail caught in the wheel and drew him in, breaking his collarbone, his jaw and three ribs. One of the broken ribs punctured a lung. Yusta was rushed to a Lincoln hospital by train. His condition is reported as precarious.

Farmer Seriously Hurt.

Beatrice, Neb., July 17.—James Mooney, a farmer living in Rockford township, was seriously injured in a runaway. He was engaged in oiling a binder when his team started and ran away. He was knocked down, and as the horses ran in a circle they passed over him three times before they could be stopped. He sustained a broken leg and internal injuries, which may prove fatal.

Old Man is Killed by Kick of Horse.

Tecumseh, Neb., July 17.—Isaac M. Stevens, aged sixty-five years, was kicked in the breast by a horse and instantly killed. With Bert Grady, he had gone to the pasture near town to catch the horse. Stevens approached back of the animal, with the fatal result. He is survived by three grown children.

Attorney White Dies Suddenly.

Omaha, July 17.—Benjamin T. White, aged fifty years, general attorney for the Northwestern Railway company west of the Missouri river, was stricken with neuralgia of the heart immediately following a game of golf at the Country club and died at his home.

Body of Woman Found in River.

Omaha, July 17.—The badly decomposed body of a woman was found in the river near Child's point by some boys who were fishing. The body, which was taken in charge by the coroner of Sarpy county, had evidently been there for a long time.

STATE REJECTS BONDS

Merrick County May Have to Hold Another Election.

Central City, Neb., July 17.—Will it be necessary to hold another bond election before Merrick county can begin building the new court house, for which \$100,000 was voted at the special election of May 31 last? This is the question that confronts the Merrick county board of supervisors. When the election was called the proposition specified that the bonds should draw but 4 per cent interest. Now the state has declined to take the bonds at so low a rate, and no private capital seems willing to be risked on the proposition. The board has determined to go ahead and advertise for bids on the bonds now that they have been registered, but the prospects of selling them are scant. At the election in May the proposition carried by an overwhelming vote and there is much regret now that the rate of interest was placed so low.

INFANT PARALYSIS NEAR CENTRAL CITY

Boy Stricken With the Disease and Dies in Few Hours.

Central City, Neb., July 17.—The community was somewhat alarmed by the appearance of a case of anterior polio myelitis, or infantile paralysis, which resulted fatally in a short time. The victim was Asney, the twelve-year-old son of Mr. and Mrs. Wilder. The boy had been working in the fields and was apparently in the best of health, when he was attacked by the malady, and in less than four days was dead. There was an epidemic of this disease prevalent in this part of the state two years ago, particularly in Polk and Hamilton counties, with some cases here, and the people dreaded its reappearance. As soon as the nature of the disease was known the county board of health convened, ordered that no public funeral should be held over the body and placed the strictest quarantine. No new cases have appeared.

Barn Burned Near Ravenna.

Ravenna, Neb., July 17.—During a thunderstorm the barn of L. J. Jaeger, seven miles southwest of Ravenna, was struck by lightning and burned to the ground. The barn contained six horses, all of which were either killed by lightning or burned to death. In a territory south of Ravenna the wind reached almost the velocity of a cyclone and did considerable damage. The rain where the wind was the strongest amounted to five inches, and fell in thirty to forty minutes.

Bryan Comments on Resolutions.

Omaha, July 17.—"The Douglas county convention does not represent Democracy. It represents booze, booze, booze," said W. J. Bryan, when the subject of the resolution passed by the Douglas county Democratic convention, which censured him for not supporting Dahlman for governor and endorsed Harmon for president, was mentioned.

TWENTY-ONE MINERS KILLED

Deadly Damp Responsible for Most of the Deaths.

ALL BUT THREE FOREIGNERS.

Cascade Coal and Coke Company's Mine at Sykesville, Pa., Scene of Disaster—Officials Unable to Discover Cause, as All Are Dead.

DuBois, Pa., July 17.—Twenty-one miners were killed in an explosion in the shaft of the Cascade Coal and Coke company's mine at Sykesville. All of the dead but three are foreigners. The explosion was slight, as evidenced by the small damage done in the mine, but the deadly damp is responsible for most of the deaths.

Three sets of brothers and a father and son are numbered among the dead. George and John Heck and Nick Pavelick and his fifteen-year-old son were found by the rescuers locked in each other's arms as though they had embraced each other in their dying moments. None of the bodies were mutilated. All the bodies were recovered.

Mine officials are unable to assign cause for the wreck, as there are no survivors, but it is the general belief that some of the men drilled into a pocket of gas.

HUNDRED KILLED IN BATTLE

Prominent Men Will Be Charged With Responsibility for Clash.

Puebla, Mexico, July 17.—It is probable a number of prominent men in Puebla affairs will be arrested charged with responsibility for the recent clashes between the federal troops and the Maderists. An investigation is in progress to determine with whom the blame rests.

The total dead in this city and near-by places where fighting occurred is placed at 135. Sixty-one persons are reported killed at the Covadonga textile factory; ten at San Juan hill, fifty-four in the city proper and ten or more in minor skirmishes in the outskirts.

The Covadonga fight started between the rurales and Maderists near the factory. The striking factory bands seized the opportunity to enter private houses, which they pillaged. They killed four Germans, three men and one woman. Later they joined the Maderists.

The fighting stopped after Raul Madero, a brother of Francisco I. Madero, Jr., had gone to the scene and induced the Maderists to depart.

WILL LOOK UP RAY'S PULL

Inquiry on Pay Department Official's Case Planned.

Washington, July 17.—A congressional investigation will be instituted into charges of misconduct by officers of the pay department of the army. The chairmen of the house committees on military affairs and on expenditures in the war department will meet probably today to determine which committee shall take jurisdiction of the case of Major B. B. Ray, paymaster, who is accused not only of being a beneficiary of favoritism in the matter of protracted leaves of absence, but of irregularities in travel pay accounts.

Slough Dries Up and Imprisons Hogs.

Stella, Neb., July 17.—A herd of seventeen hogs sought refuge from the heat in a slough in Harvey Findlay's pasture. They buried themselves in the mud, and the slough dried up while the hogs were taking comfort in this way. The mud dried about their bodies and they couldn't get out. After being missing two days, when Mr. Findlay found them, four were dead. He and a neighbor used spades to rescue the others by digging them out of the dry mire.

Government Gets \$75,000.

Washington, July 17.—Announcement was made at the department of justice that the government had recovered \$75,000 from John F. Gaynor and Benjamin D. Greene, the contractors who were convicted of frauds with Captain Oberlin M. Carter in the Savannah harbor contracts several years ago. Records show that approximately \$500,000 has been recovered from Captain Carter.

Mrs. Sully Claims Title to Land.

Sioux Falls, S. D., July 17.—Tomorrow has been fixed as the time for the preliminary to the final chapter in the case of Mary Sully and Narcissus Drapeau against the United States, involving about 10,000 acres of land situated in the ceded portion of the Rosebud Indian reservation in Gregory county. The land is worth \$300,000.

Fifty Killed in Shipwreck.

Port Limon, Costa Rica, July 17.—Thirty-two passengers and twenty members of the crew were drowned when the small steamship Irma was struck by the steamship Diamante. Only eight passengers of the Irma escaped. The collision occurred in the estuary of the San Juan river.

Hezekiah Smith Not Guilty.

Marshall, Mo., July 17.—Hezekiah Smith was found not guilty of the murder of William Weaver by a jury after a week's trial.

CLOTH IN THE MAKING.

The Way the Uncouth Product of the Loom is Finished.

Every woven fabric is made by crossing or interlacing two distinct series of threads together. When the yarn comes from the spinner it is mounted upon the loom in spools, writes Rupert Bowers in Harper's Weekly. So wonderfully automatic are these modern looms that when a bobbin is emptied it is forced out and a full spool is put in its place without stopping the loom. There are all classes of looms for all classes of material, from the thinnest fabrics up to the thickest felts. To attempt to describe one of them or the principles on which they are constructed would involve the reader in a wilderness of technicalities. The power loom is one of the most remarkable and complex of mechanical products, the growth of many years of experience and ingenuity and the crystallization of the inventive genius of many minds.

The cloth in the shop window resembles the cloth as it comes from the loom so remotely that there would seem to be no relationship between them. The first product of the loom is usually uncouth, harsh and anything but inviting in appearance. It has to pass through many processes before it is finished and made ready for the market. It is first mended so as to correct weaving faults as far as possible. Then it is scoured and thoroughly cleaned. Again it is looked over and mended before it passes to the rolling or milling machine which, with soap and fuller's earth, produces the finish that is required. Then it is scoured again.

Entering is the next process. This sets the cloth at a satisfactory width and straightens it for the operations that follow, the first of which is called raising. The millions of tiny hooks on the gigning machine raise up the fibers on the surface of the cloth and leave them in an upright position. The pile or nap is the result. This produces a remarkable change in the appearance and condition of the fabric. Shearing is the next thing. This cuts off all the raised fibers, leaving them of a uniform length. The required gloss and solidity are obtained by the pressing which follows.

A JOLLY TIME AT HOME.

Advice to the Man Whose Wife is Away on a Vacation.

During any time when your wife is on an extended visit with her relatives you can save money from your board allowance by keeping house for yourself. You may find the following suggestions helpful:

If you forget to order ice you can render the butter serviceable in the following manner: Take a cut glass finger bowl and fill it with cool water. Scrape the butter into the finger bowl. When ready to spread your bread extract your butter in quantities as needed with the cucumber lifter. That's that flat silver spoon with holes in it. If you smell smoke you will doubtless find the lamp is smoking and the room is covered with soot. First turn the wick down to save oil, then get a damp cloth and go over everything carefully, raising out the cloth from time to time. When cleaning the walls use only a downward motion, so that the streaks will all run vertically.

Not having your wife's social charm, you will doubtless be given tough steak by your butcher. One way to make steak tender is to run it repeatedly through the sewing machine. Use a coarse needle, but no thread. The hobbit trough will catch the juice which can be used later for gravy. If you take out the hobbit first you will have more room for the juice.—Walter A. Dyer in Delineator.

HE BREEDS TOADS.

Colorado Man Uses Them to Kill Off Flies.

A unique garden is that of J. V. Crone of Greeley, Colo., devoted to the breeding of toads as well as the raising of garden truck. Mr. Crone has caught hundreds of toads and put them on his place. He says that they are the worst enemy of the fly and that the time will come when people will domesticate them for the purpose of ridding premises of flies.

Toads have cleared every fly from the Crone place, and neighbors attribute absence of flies from their premises to the toad garden.

A Washless Washboard.

"Women haven't the artistic temperament," complained the orchestra musician to the Cleveland Plain Dealer. "That's why I am unmarried. Oh, yes, I was married once. I thought to acquire a woman who could take care of my home, make a little domestic place of refuge for me and all that, but the dream soon fled.

"A few days after I was married my bride came to me and said: 'Dear, that new washboard you got for me is no good at all. I can't wash your socks on it.' "Washboard" says I. "Why, I never bought you a washboard." But she led me out into the kitchen and showed me what she'd been scrubbing away on all the morning. Great heavens! It was my new xylophone."

Rebuking an Emperor.

Once, so the story goes, Emperor Nicholas of Russia asked Liszt to play in his presence. The musician complied, but during the performance the czar started a conversation with an aide-de-camp. Liszt stopped playing at once. The czar asked what was the matter. "When the emperor speaks," said Liszt, "every one must be silent." The czar smilingly took the hint, and the playing proceeded.

GIVE MORE POWER at Least Cost and Last Longest

Why experiment when you can be sure. The I.H.C. line offers engines of proven capacity. It doesn't take an expert to see the many great advantages of I.H.C. construction. You can readily see how I.H.C. cylinder construction gives more power with less gasoline—how the I.H.C. style of governing gives steadier power and economizes fuel—how the I.H.C. cooling system prevents deterioration—how in every way I.H.C. construction is simplest, strongest and best.

Through years of service everywhere, under every condition.

I. H. C. GASOLINE ENGINES

have stood the test. They have demonstrated by actual experience that for every u e they are just the kind of engine you want.

They are made in various styles and sizes from 1 to 45-horse power for pumping, spraying, sawing, grinding, threshing and operating machines about the house and dairy.

Call and let us show you why the I. H. C. engine will give you most service, most satisfaction with least attention and at least expense. Tell us what you want your engine to do, and we will help you select the kind of engine best suited to your work.

Come in the next time you are in town.

August Gorder

Plattsmouth, Nebraska
