J. T. Reynolds and William Marks were up from Union Wednesday in the automobile of Mr. Marks. Everybody in this locality knows that Mr. Reynolds is out for the office of clerk of the district court, and he was here lining up a few wires at the top of his political fence, which we believe

will surround sufficient voters to land him in the office at the coming November election. James T. Reynolds is one of the best men in the county, and we can see no reason why he should not be elected.

Mrs. Addie Stokes was an Omaha visitor Tuesday of this week.

Henry Ost, from near Nehawka, was a Murray visitor Wednesday.

Mr. and Mrs. Glen Boedeker were Plattsmouth visitors Tuesday evening, driving up in the auto.

The new side track is greatly needed in Murray at this time, for when several trains meet here, as has been the custom very often of late, there is considerable time lost in the see-saw task in order to let them pass.

W. G. Boedeker and wife were in Plattsmouth Tuesday evening.

Frank Moore has sold his big apple orchard and it goes to a man or firm from Peru. The price paid was \$1,800, which is a nice sum of money, although we venture to say that they were worth every dollar of the amount. Mr. Moore had one of the finest orchards in Cass county this season.

William Hamilton and force of men are completing the new corncribs for A. J. Davis and will move Thursday of this week to the farm of Charles Spangler, south of Louisville, where they will build a large barn. It looks to us as

though Billy is taking in considerable territory in the carpenter line. Its an old saying that a good man has no boundary limits in the business world, and his work will stand the test anywhere.

Mr. Long and family and Mr. Anderson and family, from Fremont, autoed down to Murray the latter part of last week for a few days' visit with relatives. Sunday the visitors, in company with Mr. Long and family went over to the farm home of Mr. and Mrs. Charles Long to spend the day.

### Different Now.

Old people tell us how healthy they all used to be, how strong and full of life and how they did not mind small ailments. Their diet was different, as was their mode of life; they lived more in the fresh air and had very little excitement. It is all different now. We live in the age of nervous rush and excitement, we eat and drink what our system cannot digest and we ruin our health prematurely. We should keep our system clean by using Triner's American Elixir of Bitter Wine. It will not only clean out the body, but strengthen it, regulate the digestion, purify the blood, cure constipation and all its consequences. At drug stores. Jos. Triner, 1333-1339 So. Ashland Ave., Chicago, Ill.

Try a sack of Forest Rose Flour the next time you need flour. Ask your dealer what he thinks of it.

### Runaway Auto.

The next sheriff of Cass county, Don C. Rhoden, experienced quite an exciting time here Wednesday with a runaway automobile. The driver and owner of the machine, Mr. Russell of Nebraska City, came up in front of the livery barn of Mr. Rhoden, and alighting from it asked to leave it in Mr. Rhoden's care for a short time. Later in the day Mr. Rhoden and W. S. Scott, our genial M. P. agent, wanted to get some horses in the barn, and the "chug" wagon was in the way. They immediately proceeded to move the machine. The driver had left the batteries in contact and connected with the engine, and when they started the auto the engine commenced to work and the auto left the barn at a "pretty good hickory." It was with considerable effort that Mr. Rhoden reached the reverse lever and stopped the runaway machine without injury, but both himself and "Scotty" were sure "skared" for a minute.

### Improving Store.

The room of A. Hast is being treated to a new coat of paint this week, both inside and out, which sure adds greatly to the appearance of the room. Since Mr. Hast took charge of the store he has made a great many improvements and changes, preparing everything to suit his taste, and in our opinion, the changes have made a decided improvement. Mr. Hast has come to Murray with the intention of doing business in the general merchandise line, and if he does not carry the line of goods you want it is your own fault, for he is here to please you, so let him know your desires. He intends to exert every effort to secure your patronage, and if fair treatment, honest prices and good values are considered, the business will grow in volume each month.

## WHY BUY FROM "FOUR-FLUSH" PEDDLERS?

Give Them a Wide Birth and Buy of Your Home Merchant.

This is the season of the year when the itinerant vendor "blows" into town, establishes quarters at the best hotel and invites people to come and pay him about two prices for stuff that can be bought at home just as well. He is a great "four-flusher" this peddler—for he's only a peddler with a fancy pack and good clothes—and his talk is smooth. Yes, and people fall for his palaver, too. It is surprising how many buy, imagining that they are getting something extraordinary, when in reality they are getting humbug. When they receive the goods and find that they are inferior, they have no redress. Really, such people deserve to get the worst of their bargains, for they are doing a grievous injustice to the home merchant whom they slight when they give preference to the peddlers.

And this is especially true at this time, when the first consideration should be for the home merchants. If all the local people do not sustain the home merchant, how can he be expected to boost the town? The money that is given to the peddler never comes back, while the money that is paid the home merchant stays here and gets into other channels. Anyway, the home stores can serve you better than any peddler, whether it be in staples or extras, and they can do it cheaper and more satisfactorily. Why, then, buy from peddlers or out-of-town houses?

### Alfalfa Crop is Good.

Charles Shapp, living south of the city, was in Tuesday, and in conversation with him in regard to his alfalfa crop, he tells us that it proved a sure winner the past season. He had a field of ten acres that cut him two good crops of hay, and he threshed the third one that gave him 55 bushels of seed. Julius Pitz, his neighbor, had about two acres, from which he cut three crops of hay and threshed 15 bushels of seed from the fourth crop. This is what we would term mighty good returns from the small acreage. The present price of the seed is about \$10 per bushel.
